Ripped And Torn Levis Latin America And The Blue Jean Dream:

Ripped and Torn Amaranta Wright, 2005
Hired by Levi's to journey through Latin America befriending teenagers and helping Levi's market their products more effectively to a continent in crisis. The journey brought about a political awakening opening her eyes to the developed world's overbearing desire to brand people as consumers. **Back cover**

Faces of Latin America Duncan Green, 2012-11-01
Faces of Latin America has sold more than 50,000 copies since it first appeared in 1991 and is widely considered to be the best available introduction in English to the economies, politics, demography, social structures, environment, and cultures of Latin America. Duncan Green and Sue Branford take the reader beyond the conventional media's fixation on the drug trade, corrupt politicians, and military leaders' death squads and guerrilla movements to celebrate the vibrant history and culture of Latin America's people. Faces of Latin America examines some of the key forces from conquest and the growth of the commodity trade, military rule, land distribution, industrialization, and migration to civil wars and revolutions, the debt crisis, neoliberalism, and NAFTA shaping the region's political and social history. Green also analyzes the response to these transformations: the rise of freedom fighters and populists, guerrilla wars, and grassroots social movements, union organizing, and trade movements, liberation theology, and the women's movement, sustainable development, and the fight for the rainforest, popular culture, and the mass media, providing a fascinating and unparalleled portrait of the continent. This new edition is thoroughly updated and covers recent developments in Latin America such as the growing costs of export agriculture, the rise of Brazilian manufacturing, connections between the war on drugs and the war on terror, the social costs of neoliberalism, the Argentinian default, the search for new economic models in Venezuela, and elsewhere, the decline in direct U.S. military intervention in the region, growing urbanization, urban poverty, and casual employment, outmigration, and the importance of family remittances from abroad, rampant environmental destruction, the struggles of indigenous movements, and more.

From Frontiers to Football Matthew Brown, 2014-08-15
With Brazil hosting the FIFA World Cup this summer and the Olympic Games in 2016, all eyes are on Latin America. But what vision of these countries will we be given? Will our airwaves be full of cultural stereotypes about Latin Americans and inaccurate interpretations of the region's position in the world? In *From Frontiers to Football*, Matthew Brown provides a much-needed historical analysis to rebut misconceptions about Latin America's past while giving readers the tools with which to understand the region's complex present. Telling the story of Latin America's engagement with global empires from 1800 to today, *From Frontiers to Football* is as much a narrative of repeated cycles of continued dependency and thwarted dreams as it is a tale of imperial designs overthrown, colonial armies defeated, and other successes that have inspired colonized peoples across the globe. Brown restores a cultural history to the continent, giving as much attention to pop singer Shakira and retired footballer Pelé as he does to coffee producers, copper miners, government policies, and covert imperialism. Latin America, Brown shows, is no longer a frontier or periphery but rather is at the forefront of innovation and a global center for social, cultural,

and economic activities Clear and readable *From Frontiers to Football* presents a compelling introduction to the history of Latin America's interactions with the world over the last two centuries

Geographies of Developing Areas Glyn Williams, Paula Meth, Katie Willis, 2014-03-21 *Geographies of Developing Areas* is a thought provoking and accessible introductory text presenting a fresh view of the Global South that challenges students' preconceptions and promotes lively debate Rather than presenting the Global South as a set of problems from rapid urbanization to poverty this book focuses on the diversity of life in the South and looks at the role the South plays in shaping and responding to current global change The core contents of the book integrate traditional concerns of development geographers such as economic development and social inequality with aspects of the global South that are usually given less attention such as cultural identity and political conflict This edition has been fully updated to reflect recent changes in the field and highlight issues of security risk and violence environmental sustainability and climate change and the impact of ICT on patterns of North South and South South exchange It also challenges students to think about how space is important in both the directions and the outcomes of change in the Global South emphasizing the inherently spatial nature of political economic and socio cultural processes Students are introduced to the Global South via contemporary debates in development and current research in cultural economic and political geographies of developing areas The textbook considers how images of the so called Third World are powerful but problematic It explores the economic political and cultural processes shaping the South at the global scale and the impact that these have on people's lives and identities Finally the text considers the possibilities and limitations of different development strategies The main arguments of the book are richly illustrated through case study material drawn from across the Global South as well as full colour figures and photos Students are supported throughout with clear examples explanations of key terms ideas and debates and introductions to the wider literature and relevant websites in the field The pedagogical features of the book have been further developed through discussion questions and activities that provide focused tasks for students research including investigation based around the book's case studies and in depth exploration of debates and concepts it introduces

Embodying identities Victor Jeleniewski Seidler, 2010-04-01 In the 1970s and 1980s identities seemed to be fixed through categories of class race ethnicity gender sexualities and religion These days we have begun to recognise the diversity fragmentation and fluidity of identities but how do we create and shape our own The book shapes a new language of social theory that allows people to embody their differences with a sense of dignity and self worth It draws on diverse traditions from Marx Weber and Durkheim as well as more recent traditions of critical theory and post structuralism and will be of interest to sociology politics social work philosophy and cultural studies students
