Rise And Fall Of The German Democratic Republic 1945 199:

The Rise and Fall of the German Democratic Republic Feiwel Kupferberg, Most public debate on reunited Germany has emphasized economic issues such as the collapse of East German industry mass unemployment career difficulties and differences in wages and living standards The overwhelming difficulty resulting from reunification however is not persisting economic differences but the internal cultural divide between East and West Germans one based upon different moral values in the two Germanies The invisible wall that has replaced the previous highly visible territorial division of the German nation is rooted in issues of the past the Nazi past as well as the German Democratic Republic past In emphasizing economic differences the media and academics have avoided dealing with typically German cultural traits These include the psychological posture of West Germany which emphasized not differences between East and West but the break with Germany's Nazi past The adversarial posture of certain professional groups in East Germany towards the liberal and democratic values of West Germany have also been an obstacle Reviewing the problems accompanying reunification chapter 1 explores German culture and history and the moral lessons evolved from the Nazi past Chapter 2 focuses on the East West mindset and how differences in attitude affect efforts to adapt to reunification Chapter 3 discusses the simulated break with Nazi Germany in the German Democratic Republic Chapters 4 5 and 6 analyze the roots of the adversary posture of the professional groups in East Germany towards the values of the Berlin Republic Chapter 7 demonstrates the strong presence of inherited typically German cultural traits among East Germans such as a lack of individualism suspicion of strangers and obedience to authority Chapter 8 documents the extent to which a right wing extremist culture has remained latent in Eastern Germany Chapter 9 documents the extent to which moral reasoning in the GDR relieves the individual of any kind of responsibility for the actions of the state reproducing the way ordinary Germans rationalized their participation in the Nazi regime immediately after World War II Chapter 10 concludes with an overview of the historical and sociological factors revolving around the discussion of Nazi Germany the GDR and inner unification This volume will be important for historians political scientists anthropologists sociologists and a general public interested in Germany's reunification

Socialism with a Human Face Gary B. Magee, Wayne Geerling, 2022-03-31 East Germany s economic history is typically told as a story of the unravelling of an inherently flawed system Yet while the system s inefficiency is undeniable its economic history was much richer than its comparatively poor economic performance suggests For many who lived there it was a system that over its forty years was capable of achievements and generally functioned at bearable levels This book combines the insights of behavioural economics with archival research to peel away layers of rhetoric and assumptions about the East German economy and explore aspects of that underlying functionality Through a series of cases studies that examine the establishment of socialist

workplaces the searches for productivity growth and efficiency and the emergence of financial crisis the book considers the system from the perspective of the humans who operated it and made the decisions that made it work Unencumbered by political preconceptions it offers a more realistic understanding of East German economic history than that derived from stagnant debates about the clash of systems The new perspectives and approaches presented demonstrate that extracted from its Cold War context East Germany's economic history can be analysed for what it was rather than for what it symbolised

The Visual Culture of East German Picturebooks 1945-1990 Jörg Meibauer, 2025-06-02 This is the first study to explore picturebooks of the Soviet Occupation Zone and the German Democratic Republic analyzing them in the context of contemporary history social and cultural developments and through a precise analysis of selected images and their context By focusing on areas such as architecture and housing consumer culture traffic and transportation including the iconic role of the Trabant and the design of childhood as seen in pioneer uniforms and institutions the study identifies the unique blend of information about reality and socialist ideology typical of children's visual culture during this period This specific combination was aimed at shaping children to become socialist personalities The study thus demonstrates that pictorial representation and its textual integration are crucial for understanding childhood in the immediate post war period and the German Democratic Republic

description available for The Rise and Decline of the American Century *Sozialismus mit menschlichem Antlitz* Gary B. Magee, Wayne Geerling, 2024-08-02 Die Wirtschaftsgeschichte Ostdeutschlands wird in der Regel als eine Geschichte des Zusammenbruchs eines von Natur aus fehlerhaften Systems erzählt. Doch obwohl die Ineffizienz des Systems unbestreitbar ist, war seine Wirtschaftsgeschichte viel reicher als seine vergleichsweise schlechte Wirtschaftsleistung vermuten lässt. Für viele, die dort lebten, war es ein System, das in den vierzig Jahren seines Bestehens zu Leistungen fähig war und im Allgemeinen auf einem ertragsreichen Niveau funktionierte. Dieses Buch kombiniert die Erkenntnisse der Verhaltensökonomie mit Archivrecherchen, um die Schichten der Rhetorik und der Annahmen über die ostdeutsche Wirtschaft abzuschleifen und Aspekte der zugrunde liegenden Funktionalität zu untersuchen. Anhand einer Reihe von Fallstudien, die die Einrichtung sozialistischer Arbeitsplätze, das Streben nach Produktivitätssteigerung und Effizienz sowie die Entstehung der Finanzkrise untersuchen, betrachtet das Buch das System aus der Perspektive der Menschen, die es betrieben und die Entscheidungen trafen, die es zum Funktionieren brachten. Unbelastet von politischen Vorurteilen bietet es ein realistischeres Verständnis der ostdeutschen Wirtschaftsgeschichte als dasjenige, das sich aus festgefahrenen Debatten über den Zusammenprall der Systeme ergibt. Die vorgestellten neuen Perspektiven und Ansätze zeigen, dass die ostdeutsche Wirtschaftsgeschichte herausgelöst aus ihrem Kontext des Kalten Krieges analysiert werden kann, was sie war und nicht als das, was sie symbolisierte. Historical Abstracts Eric H. Boehm, 2000 **A Clean Sweep?** T. David Curp, 2006 An examination of how the Polish state and its people worked together to ethnically cleanse and colonize eastern Germany after 1945. *A Clean Sweep: The Politics of Ethnic Cleansing in Western Poland, 1945-1960* examines the long-term impact of ethnic cleansing on postwar Poland, focusing on the western Polish provinces of Poznań and Zielona Góra. Employing archival materials from multiple sources, including newly available Secret Police archives, it demonstrates how ethnic cleansing solidified Communist rule in the short term while reshaping and nationalizing that rule. The Poles of Poznań played a crucial role in the postwar national revolution in which Poland was ethnically cleansed by a joint effort of the people and state. A resulting national solidarity provided the Communist-dominated regime with an underlying stability while it transformed what had been a militantly internationalist Polish Communism. This book addresses the legacy of Polish-German conflict that led to ethnic cleansing in East-Central Europe, the ramifications within the context of Polish Stalinism's social and cultural revolutions, and the subsequent anti-national counterrevolutionary effort to break the bonds of national solidarity. Finally, it examines how the Poznań milieu undermined and then reversed Stalinist efforts at socioeconomic and cultural revolution. In the aftermath of the Poznań revolt of June 1956, the regime's leadership re-embraced hyper-nationalist politics, and by 1960 Polish authorities had succeeded in stabilizing their rule at the cost of becoming an increasingly national socialist polity. T. David Curp is Assistant Professor in the Department of History at Ohio University. **National Security for a New Era** Donald M. Snow, 2015-08-27 Analyzes the history, evolution, and processes of national security policies. This text examines national
