The Rise and Fall of the Shah Amin Saikal, 2021-07-13 On November 4 1979 when students occupied the American Embassy in Tehran and subsequently demanded that the United States return the Shah in exchange for hostages the deposed Iranian ruler's regime became the focus of worldwide scrutiny and controversy But as Amin Saikal shows this was far from the beginning of Iran's troubles Saikal examines the rule of Mohammad Reza Shah Pahlavi especially from 1953 to 1979 in the context of his regime's dependence on the United States and his dreams of transforming Iran into a world power Saikal argues that despite the Shah's early achievements his goals and policies were full of inherent contradictions and weaknesses and ultimately failed to achieve their objectives Based on government documents published and unpublished literature and interviews with officials in Iran Britain and the United States The Rise and Fall of the Shah critically reviews the domestic and foreign policy objectives as well as the behavior of the Shah to explain not only what happened but how and why In a new introduction Saikal reflects on what has happened in Iran since the fall of the Shah and relates Iran's past to its political present and future

Alternative to the Imf Shahida Wizarat, 2022-12-13 Different articles in the book reveal that Pakistan's policies are made abroad governments are made abroad and strategic routes and natural resources are given free or at nominal rates Nothing seems to have changed since 1947 when Pakistan gained independence And after giving our resources and routes for free we go to the IMF for budgetary support Excessive borrowing from the IMF started in the late 1980s causing decline in the growth of output investment and employment creating imbalances in income distribution increasing poverty with very adverse impact on the social and political fabric of the country The book brings to the fore how state power is being used to demolish the state to take us to the colonial world order that existed prior to 1945 Alternative to the IMF offers out of the box solutions to agriculture industry balance of payments public finance natural resources political economy education governance privatization and liberalization problems afflicting the state of Pakistan The strategies formulated for Pakistan are applicable to other countries in Asia Africa Latin America etc that are facing similar problems due to borrowings from the IMF I have also looked at the problems of Jammu and Kashmir and Afghanistan that have affected our economy politics and society very severely and offered solutions
