Rise And Fall Of The Soviet Rural Communist Party 1927-39 Daniel Thorniley, 2016-02-08 *The Rise and Fall of the Soviet Rural Communist Party, 1927-1939* Daniel Thorniley, 1988 **Stalin's Peasants** Sheila Fitzpatrick, 1994 Drawing on Soviet archives especially the letters of complaint with which peasants deluged the Soviet authorities in the 1930s this work analyzes peasants strategies of resistance and survival in the new world of the collectivized village *The Communist Youth League and the Transformation of the Soviet Union, 1917-1932* Matthias Neumann, 2012-05-23 The study of Soviet youth has long lagged behind the comprehensive research conducted on Western European youth culture In an era that saw the emergence of youth movements of all sorts across Europe the Soviet Komsomol was the first state sponsored youth organization in the first communist country Born out of an autonomous youth movement that emerged in 1917 the Komsomol eventually became the last link in a chain of Soviet socializing agencies which organized the young Based on extensive archival research and building upon recent research on Soviet youth this book broadens our understanding of the social and political dimension of Komsomol membership during the momentous period 1917 1932 It sheds light on the complicated interchange between ideology policy and reality in the league s evolution highlighting the important role ordinary members played The transformation of the country shaped Komsomol members and their league s social identity institutional structure and social psychology and vice versa the organization itself became a crucial force in the dramatic changes of that time The book investigates the complex dialogue between the Communist Youth League and the regime unravelling the intricate process that transformed the Komsomol into a mere institution for political socialization serving the regime s quest for social engineering and control Power and the Sacred in Revolutionary Russia Glennys Young, 2010-11 After the 1917 Revolution in Russia the Bolsheviks launched a massive assault on religion Although we know a great deal about how the Bolsheviks went about doing this propaganda persecution of clergy and laity seizing church property scholars have not devoted much attention to the other side of the story the people who were being persecuted and how they responded to their persecutors Glennys Young shows how ordinary Russian peasants devised ways of asserting their religious faith during the difficult period of New Economic Policy 1921 28 when the Party state was ideologically obsessed with eradicating religion Faced with persecution torture and the creation of antireligious organizations such as the League of the Godless Orthodox clergy and laity organized themselves against the Bolsheviks They revived factional politics even using the village soviets the intended cornerstone of Soviet power in the countryside to defend their religious interests When they achieved some degree of success in their resistance the Bolsheviks were forced to respond and adapt their strategies a conclusion that scholars have not put forward previously Based on extensive research in archives and published sources Young s book will force historians of Soviet Russia to confront religious issues as central to rural politics Her work also draws upon cultural anthropology and theories of peasant politics making it of great interest to any scholars studying the processes of secularization and

desacralization in other cultures *The Years of Hunger: Soviet Agriculture, 1931-1933* R. Davies, S. Wheatcroft, 2016-01-13 This book examines the Soviet agricultural crisis of 1931-1933 which culminated in the major famine of 1933. It is the first volume in English to make extensive use of Russian and Ukrainian central and local archives to assess the extent and causes of the famine. It reaches new conclusions on how far the famine was organized or artificial and compares it with other Russian and Soviet famines and with major twentieth century famines elsewhere. Against this background it discusses the emergence of collective farming as an economic and social system **Problems of Communism**, 1991 *Politics, Society and Stalinism in the USSR* John Channon, 1998-07-15 Over the past two decades in the West there has been a substantial re-appraisal of the Stalinist period. Social historians in particular have focused their attention on the social dynamics of Stalinism. This collection of essays is based on a conference held at the School of Slavonic and East European Studies, the University of London, on Stalin and Stalinism. The contributors have analysed specific areas of the research available on Stalin and Stalinism in the USSR debate. Their work should be placed within the context of current scholarship in the field, both in the Former Soviet Union and the West. This groundbreaking text will be critical in stimulating interest in the subject and providing material for further debate *Repression and Resistance in Communist Europe* Jason Sharman, 2004-06-01 This book explores the role of coercion in the relationship between the citizens and regimes of communist Eastern Europe. Looking in detail at Soviet collectivisation in 1928-34, the Hungarian Uprising of 1956 and the Polish Solidarity Movement of 1980-84, it shows how the system excluded channels to enable popular grievances to be translated into collective opposition, how this lessened the amount of popular protest, affected the nature of such protest as did occur, and entrenched the dominance of state over society *Stalin's Terror Revisited* M. Ilic, 2006-03-28 In this ground-breaking collection, a team of leading experts offer a detailed examination of under-researched aspects of Soviet political repression in the 1930s. Drawing on archival documents and materials that have received little attention in Western historiography, much of the information detailed here is in English for the first time **Iron Lazar** E. A. Rees, 2013-10-15 The first English language biography of Lazar Kaganovich, one of Stalin's leading deputies. Iron Lazar investigates the life of a man of key importance to the shaping of the Stalinist state. With its insight into the political and personal relations of the Stalin group, as well as its examination of this aspiring politician's policy-making role during the Stalinist regime, Iron Lazar investigates the previously undocumented life of Lazar Kaganovich, the last surviving member of the Stalin government and one-time heir apparent to the Soviet Union **Soldiers of Fortune: The Rise and Fall of the Chinese Military-Business Complex, 1978-1998** James C. Mulvenon, 2016-07-08 In 1978, faced with the pressure to modernize and a declining budget, the Chinese People's Liberation Army (PLA) reluctantly agreed to join China's economic reform drive, expanding its internal economy to market-oriented civilian production. This work examines the PLA's role in the economy up to 1998 **Life and Terror in Stalin's Russia, 1934-1941** Robert W. Thurston, 1998-11-10 Examining Stalin's reign of terror, this text argues that the Soviet people were

not simply victims but also actors in the violence criticisms and local decisions of the 1930s It suggests that more believed in Stalin's quest to eliminate internal enemies than were frightened by it **An American Engineer in Stalin's Russia** Zara Witkin,2023-11-15 In 1932 Zara Witkin a prominent American engineer set off for the Soviet Union with two goals to help build a society more just and rational than the bankrupt capitalist system at home and to seek out the beautiful film star Emma Tsesarskaia His memoirs offer a detailed view of Stalin's bureaucracy entrenched planners who snubbed new methods construction bosses whose cover ups led to terrible disasters engineers who plagiarized Witkin's work workers whose pride was defeated Punctuating this document is the tale of Witkin's passion for Tsesarskaia and the record of his friendships with journalist Eugene Lyons planner Ernst May and others Witkin felt beaten in the end by the lethargy and corruption choking the greatest social experiment in history and by a pervasive evil the suppression of human rights and dignity by a relentless dictatorship Finally breaking his spirit was the dissolution of his romance with Emma his Dark Goddess In his lively introduction Michael Gelb provides the historical context of Witkin's experience details of his personal life and insights offered by Emma Tsesarskaia in an interview in 1989 In 1932 Zara Witkin a prominent American engineer set off for the Soviet Union with two goals to help build a society more just and rational than the bankrupt capitalist system at home and to seek out the beautiful film star Emma Tsesarskaia **A HISTORY OF MODERN RUSSIA** Robert Service,2013-02-04 Russia had an extraordinary twentieth century undergoing upheaval and transformation Updating his acclaimed History of Modern Russia Robert Service provides a panoramic perspective on a country whose Soviet past encompassed revolution civil war mass terror and two world wars He shows how seven decades of communist rule which penetrated every aspect of Soviet life continue to influence Russia today This new edition takes the story from 2002 through the entire presidency of Vladimir Putin to the election of his successor Dmitri Medvedev **A History of Modern Russia from Nicholas II to Vladimir Putin** Robert Service,2005 Robert Service here presents a comprehensive overview of 20th century Russian history that treats the years from 1917 to 2000 as a single period and analyses the peculiar mixture of political economic and social ingredients that made up the Soviet compound **The Russian Revolution** Richard Pipes,1991-11-05 A groundbreaking inclusive history of the Russian Revolution for those who want to discover what really happened to Russia The New York Times Book Review A monumental study Wall Street Journal enthralling in its narrative of a movement whose purpose in the words of Leon Trotsky was to overthrow the world The Russian Revolution draws conclusions that have aroused great controversy Richard Pipes argues convincingly that the Russian Revolution was an intellectual rather than a class uprising that it was steeped in terror from its very outset and that it was not a revolution at all but a coup d'etat the capture of governmental power by a small minority **Stalin** Stephen Kotkin,2015-10-13 In his biography of Stalin Kotkin rejects the inherited wisdom about Stalin's psychological makeup showing us instead how Stalin's near paranoia was fundamentally political and closely tracks the Bolshevik revolution's structural paranoia the predicament of a Communist

regime in an overwhelmingly capitalist world surrounded and penetrated by enemies At the same time Kotkin posits the impossibility of understanding Stalin s momentous decisions outside of the context of the history of imperial Russia

Beyond Eurocentrism Peter Gran,2021-02-01 Eurocentrism influences virtually all established historical writing With the rise of Prussia and by extension Europe eurocentrism became the dominant paradigm for world history Employing the approaches of Gramsci and Foucault Peter Gran proposes a reconceptualization of world history He challenges the traditional convention of relying on totalitarian or democratic functions of a particular state to explain and understand relationships of authority and resistance in a number of national contexts Gran maintains that there is no single developmental model but diverse forms of hegemony that emerged out of the political crisis following the penetration of capitalism into each nation In making comparisons between seemingly disparate and distinctive nations and by questioning established canons of comparative inquiry Gran encourages people to recognize the similarities between the West and non West nations
