The History of Central Asia Christoph Baumer, 2016-05-30 Between the ninth and the fifteenth centuries Central Asia was a major political economic and cultural hub on the Eurasian continent In the first half of the thirteenth century it was also the pre eminent centre of power in the largest land based empire the world has ever seen This third volume of Christoph Baumer's extensively praised and lavishly illustrated new history of the region is above all a story of invasion when tumultuous and often brutal conquest profoundly shaped the later history of the globe The author explores the rise of Islam and the remarkable victories of the Arab armies which inspired by their vital austere and egalitarian desert faith established important new dynasties like the Seljuks Karakhanids and Ghaznavids A golden age of artistic literary and scientific innovation came to a sudden end when between 1219 and 1260 Genghis Khan and his successors overran the Chorasmian Abbasid lands Dr Baumer shows that the Mongol conquests while shattering to their enemies nevertheless resulted in much greater mercantile and cultural contact between Central Asia and Western Europe **Power, Politics, and Tradition in the Mongol Empire and the Īlkhānate of Iran** Michael Hope, 2016-09-29 This study provides a new interpretation of how political authority was conceived and transmitted in the Early Mongol Empire 1227 1259 and its successor state in the Middle East the Īlkhānate 1258 1335 Authority within the Mongol Empire was intimately tied to the character of its founder Chinggis Khan whose reign served as an idealized model for the exercise of legitimate authority amongst his political successors Yet Chinggis Khan's legacy was interpreted differently by the various factions within his army In the years after his death two distinct political traditions emerged within the Mongol Empire the collegial and the patrimonialist Each of these streams represented the economic and political interests of different groups within the Mongol Empire respectively the military aristocracy and the central government The supporters of both streams claimed to adhere to the ideal of Chinggisid rule but their different statuses within the Mongol community led them to hold divergent views of what constituted legitimate political authority Michael Hope's study details the origin of and the differences between these two streams of tradition

analyzing the role that these streams played in the political development of the Mongol Empire and the lkh nate and assessing the role that ideological tension between the two streams played in the events leading up to the division of the lkh nate Hope demonstrates that the policy and identity of both the Early Mongol Empire and the lkh nate were defined by the conflict between these competing streams of Chinggisid authority The Garden of the Eight Paradises Stephen Frederic Dale,2004-01-01 A critical biography of Zah r al Din Muhammad B bur the founder in 1526 of the Timurid Mughal Empire of India offering **Timurids in Transition** Maria Subtelny,2007-08-30 How did the the descendants of Tamerlane collectively known as the Timurids make the transition from a nomadic empire to a sedentary polity based on the Perso Islamic model and what effect did the process of transition have on their Turko Mongolian customs and identity This volume seeks to answer these questions by utilizing the Weberian concepts of the routinization of charismatic authority and the patrimonial household state Focusing on the period of the last Timurid ruler Sul n usain Bayqara 1469 1506 the author examines the impact of the introduction of Persian modes of bureaucratic administration on the evolution of Timurid government and describes the development of the agrarian economy of the eastern Iranian province of Khorasan through the Islamic institution of the pious endowment Based on an exceptionally broad range of sources in Persian Arabic and Turkic languages the book provides a new paradigm for understanding the Timurids within the framework of post Mongol history and offers fresh insights into Turko Persian relations and the problem of acculturation in medieval Iran **The Routledge Handbook of the Mongols and Central-Eastern Europe** Alexander V. Maiorov,Roman Hautala,2021-08-25 The Routledge Handbook of the Mongols and Central Eastern Europe offers a comprehensive overview of the Mongols military political socio economic and cultural relations with Central and Eastern European nations between the thirteenth and fifteenth centuries The Mongol Empire was the largest contiguous land empire in history and one which contributed to the establishment of political commercial and cultural contacts between all Eurasian regions The Golden Horde founded in Eastern Europe by Chinggis Khan s grandson Batu in the thirteenth century was the dominant power in the region For two hundred years all of the countries and peoples of Central and Eastern Europe had to reckon with a powerful centralized state with enormous military potential Some chose to submit to the Mongols whilst others defended their independence but none could avoid the influence of this powerful empire In this book twenty five chapters examine this crucial period in Central Eastern European history including trade confrontation and cultural and religious exchange between the Mongols and their neighbours This book will be an essential reference for scholars and students of the Mongols as well those interested in the political social and economic history of medieval Central Eastern Europe Routledge Revivals: Trade, Travel and Exploration in the Middle Ages (2000) John Block Friedman,Kristen Mossler Figg,2017-07-05 First published in 2000 Trade Travel and Exploration An Encyclopedia covers the people places technologies and intellectual concepts that contributed to trade travel and exploration during the Middle Ages from the years C E 525 to 1492 This comprehensive reference work

Competition David M. Robinson, 2020-03-23 This collection of essays reveals the Ming court as an arena of competition and negotiation where a large cast of actors pursued individual and corporate ends personal agency shaped protocol and style and diverse people goods and tastes converged Rather than observing an immutable set of traditions court culture underwent frequent reinterpretation and rearticulation processes driven by immediate personal imperatives mediated through social political and cultural interaction The essays address several common themes First they rethink previous notions of imperial isolation instead stressing the court's myriad ties both to local Beijing society and to the empire as a whole Second the court was far from monolithic or static Palace women monks craftsmen educators moralists warriors eunuchs foreign envoys and others strove to advance their interests and forge advantageous relations with the emperor and one another Finally these case studies illustrate the importance of individual agency The founder's legacy may have formed the warp of court practices and tastes but the weft varied considerably Reflecting the complexity of the court the essays represent a variety of perspectives and disciplines from intellectual cultural military and political to art history and musicology **Imperial Identity in the Mughal Empire** Lisa Balabanlilar, 2015-12-13 Having monopolized Central Asian

politics and culture for over a century the Timurid ruling elite was forced from its ancestral homeland in Transoxiana at the turn of the sixteenth century by an invading Uzbek tribal confederation The Timurids travelled south establishing themselves as the new rulers of a region roughly comprising modern Afghanistan Pakistan and northern India and founding what would become the Mughal Empire 1526-1857 The last survivors of the House of Timur the Mughals drew invaluable political capital from their lineage which was recognized for its charismatic genealogy and court culture the features of which are examined here By identifying Mughal loyalty to Turco-Mongol institutions and traditions Lisa Balabanlilar here positions the Mughal dynasty at the centre of the early modern Islamic world as the direct successors of a powerful political and religious tradition

The Making of the Indo-Islamic World André Wink, 2020-08-06 In a new accessible narrative Andre Wink presents his major reinterpretation of the long term history of India and the Indian Ocean region from the perspective of world history and geography Situating the history of the Indianized territories of South Asia and Southeast Asia within the wider history of the Islamic world he argues that the long term development and transformation of Indo-Islamic history is best understood as the outcome of a major shift in the relationship between the sedentary peasant societies of the river plains the nomads of the great Saharasian arid zone and the seafaring populations of the Indian Ocean This revisionist work redraws the Asian past as the outcome of the fusion of these different types of settled and mobile societies placing geography and environment at the centre of human history
