Rise Of Modern China 3e:

Uneasy Encounters Iris Borowy, 2009 Early twentieth century China went through a tumultuous period marked by the end of an ancient monarchy political instability and profound cultural upheaval The medical discourse both reflected and contributed to these transformations Western medicine arrived in China as part of missionary foreign imperialist and internal modernization efforts In various ways it interacted with Chinese practices and belief systems The contributions in this volume explore important episodes of this multi faceted process describing key institutions personalities and their respective motives and interests Collectively the chapters reveal a complex web of interlocking dimensions which evade simple categorizations of Western or Chinese exploitive or supportive traditional or modern *Ideological Conflicts in Modern China* Wen-Shun Chi, *Environmental History in the Pacific World* J.R. McNeill, 2022-03-01 This volume brings together a set of key articles from the last 30 years pertaining to the environmental history of the Pacific basin It aims to treat the islands and waters of the Pacific as well as the lands around the Rim from New Zealand to Japan to California to Chile and is the first work of environmental history to take this inclusive view of the Pacific basin The focus is mainly on recent centuries but as environmental history requires at times the work also takes the very long view of millennia Several of the articles seek to bring a broad Pacific perspective to bear on their subjects while others use Pacific basin examples to try to establish broader theoretical points of interest to all who are drawn to the study of the interactions between nature and culture The book includes a bibliography of Pacific basin environmental history and an introduction that aims to sketch the contours and possible future directions of the field **Beijingwalks** Don Cohn, 1992 The city of Beijing is as old as Chinese civilization itself Ever since Marco Polo reported back on the splendor and excitement he discovered there Beijing has captured the Western imagination as no other Oriental city has This guide presents tours of Tianamen Square and the Forbidden City the Temple of Heaven the Summer Palace and more Photographs line drawings maps **Fin-de-Siècle Splendor** Dewei Wang, 1997 The reigning view of literary historians has been that the May Fourth movement of 1919 marks the division between the traditional and the modern in Chinese literature This book argues that signs of reform and innovation can be discerned long before May Fourth and that as China entered the arena of modern international history in the late Qing it was already developing its own complex matrix of incipient modernities It demonstrates that late Qing fiction nurtured a creative innovative poetics one that was spurned by the reformers of the May Fourth generation in favor of Western style realism The author recognizes that a full account of modern Chinese fiction needs to ask why so many genres styles themes and figures found in late imperial fiction were repressed by modern Chinese literary discourse He focuses on four genres of late Qing fiction that have been either rudely dismissed in pejorative terms or simply ignored depravity romances court case and chivalric cycles grotesque exposés and scientific fantasies The author shows that in spite of the realist orthodoxy that has dominated Chinese literature since the May Fourth movement these unwelcome genres have continually found their way

back into mainstream discourse their influence being increasingly evident in recent decades This first comprehensive study of late Qing fiction discusses more than sixty works at least half of which have rarely or never been dealt with by Western or Chinese scholars Richly informed by contemporary literary theory this book constitutes a polemical rethinking of the nature of Chinese literary and cultural modernity **The Limits of the Rule of Law in China** Karen G. Turner,James V. Feinerman,R. Kent Guy,2000-02-01 In The Limits of the Rule of Law in China fourteen authors from different academic disciplines reflect on questions that have troubled Chinese and Western scholars of jurisprudence since classical times Using data from the early 19th century through the contemporary period they analyze how tension between formal laws and discretionary judgment is discussed and manifested in the Chinese context The contributions cover a wide range of topics from interpreting the rationale for and legacy of Qing practices of collective punishment confession at trial and bureaucratic supervision to assessing the political and cultural forces that continue to limit the authority of formal legal institutions in the People s Republic of China **Jacaranda Humanities Alive 7 Victorian Curriculum, 3e learnON and Print** Robert Darlington,Judy Mraz,Matthew Richardson,2025-08-25 **Hervey's Boys: New Jersey's First Chinese Community** Neal Stoffers,2019-09-05 This is a history of New Jersey s first Chinese community which existed in present day North Arlington between 1870 and 1886 The final chapter has a summary of the Chinese American experience in New Jersey from 1886 to the present The History of Taiwan Xiaobing Li,2019-10-25 This one volume handbook explores the history of Taiwan from its prehistory to its Japanese colonization to its tumultuous relationship with China in the 21st century This addition to the Greenwood Histories of the Modern Nations series focuses on significant events in the history of Taiwan from ancient history to the present Following the general series format the book opens with the series foreword and a chronology of key events in Taiwan s history Eleven chapters follow with half of the book focusing on the modern historic events that occurred post World War II Chapters examine topics and eras including Pre history and Early Civilization to 1100 Formosa The Dutch Colony 1622 1662 Cold War Island Conflicts and Control 1950 1972 and Democratization and Independence Movement 1996 2004 A glossary of terms and annotated bibliography rounds out the work making it an ideal resource for high school and undergraduate students as well as general readers who are looking for an introduction to Taiwan s history Behind The Tiananmen Massacre Chu-yuan Cheng,2019-09-17 The 1989 prodemocracy movement in the People s Republic of China and the subsequent crackdown were marked by many dramatic reversals Supported at first by several thousand Beijing University students the movement quickly attracted millions of followers and developed into a nationwide mass movement The jubilant mood during the short lived freedom in Tiananmen Square turned into despair over the unnecessary bloodshed The event raised many deeply disturbing questions Was the massacre necessary and justified What is the historical significance of this movement Which path will the PRC follow in the decade ahead Although no one had anticipated the tragic outcome the popular unrest was not totally unexpected When I read the news of 200 000 Beijing students and residents in

open defiance of the government's order staging a large-scale demonstration on April 20 I knew a confrontation between the people and the government was inevitable *Discovering History in China* Paul A. Cohen, 2010 Originally published New York Columbia University Press 1984 Religions of China Daniel E. Overmyer, 1998-03-10 The guiding themes of Chinese religion as it is actually lived This short work explains basic ideas and practices of Chinese religions in direct and simple language with many examples and analogies for increased understanding Its basic assumption is that religion is best understood as an aspect of everyday life as something that makes sense to those who practice it even if outsiders might be puzzled at first While Overmyer's treatment focuses on traditional China before the twentieth century many of the beliefs and practices described are still alive at least in some Chinese communities While the basic concern of this book is first to understand Chinese religions in their own right it takes the additional step of exploring what modern students might learn from them The Ili Rebellion Linda Benson, 1990 In 1944 Moslem forces in China's westernmost province of Xinjiang rose against the Chinese authorities and succeeded in establishing a small independent Islamic state the East Turkestan Republic Based on newly available archival material this book describes the Moslem challenge to Chinese rule and documents the Nationalist government's response to newly awakened Turkic Moslem nationalism on China's most remote and politically sensitive north western frontier With this book Linda Benson aims to break new ground in the study of Sino Soviet relations and especially of the policies of Chinese governments toward their national minorities **Peking** Susan Naquin, 2001-01-15 The central character in Susan Naquin's extraordinary new book is the city of Peking during the Ming and Qing periods Using the city's temples as her point of entry Naquin carefully excavates Peking's varied public arenas the city's transformation over five centuries its human engagements and its rich cultural imprint This study shows how modern Beijing's glittering image as China's great and ancient capital came into being and reveals the shifting identities of a much more complex past one whose rich social and cultural history Naquin splendidly evokes Temples by providing a place where diverse groups could gather without the imprimatur of family or state made possible a surprising assortment of community building and identity defining activities By revealing how religious establishments of all kinds were used for fairs markets charity tourism politics and leisured sociability Naquin shows their decisive impact on Peking and at the same time illuminates their little appreciated role in Chinese cities generally Lacking most of the conventional sources for urban history she has relied particularly on a trove of commemorative inscriptions that express ideas about the relationship between human beings and gods about community service and public responsibility about remembering and being remembered The result is a book that will be essential reading in the field of Chinese studies for years to come *Fusion of East and West* Limin Bai, 2019-08-05 In *Fusion of East and West* Limin Bai presents a major work in the English language that focuses on Chinese textbooks and the education of children for a new China in a critical transitional period 1902-1915 This study examines the life and work of Wang Hengtong 1868-1928 a Chinese Christian educator and other Christian and secular

writings through a historical and comparative lens and against the backdrop of the socio political ideological and intellectual frameworks of the time By doing so it offers a fresh perspective on the significant connection between Christian education Chinese Christian educators and the birth of a modern educational system It unravels a cross cultural process whereby missionary education and the Chinese education system were mutually re shaped *Tigers, Rice, Silk, and Silt* Robert Marks,1998-02-28 Challenging the conventional wisdom conveyed by Western environmental historians about China this book examines the correlations between economic and environmental changes in the southern Chinese provinces of Guangdong and Guangxi from 1400 to 1850 but also provides substantial background from 2CE on Robert Marks discusses the impact of population growth on land use patterns the agro ecology of the region and deforestation the commercialization of agriculture and its implications for ecological change the impact of climatic change on agriculture and the ways in which the human population responded to environmental challenges This book is a significant contribution to both Chinese and environmental history It is groundbreaking in its methods and in its findings *Monarchs and Ministers* Beatrice S. Bartlett,1994-01-01 No one in the West knows the archives of China s last dynasty better than Professor Bartlett *Monarchs and Ministers* affords us one of the first truly informed views of imperial Chinese policy making from the inside Frederic Wakeman University of California Berkeley *Monarchs and Ministers* is one of those rare works that commands unanimous assent and constitutes a breakthrough Pierre Henri Durand Centre National de la Recherche Scientifique Paris

Imagined Ancestries of Vietnamese Communism Christoph Giebel,2011-10-01 *Imagined Ancestries of Vietnamese Communism* illuminates the real and imagined lives of Ton Duc Thang 1888 1980 a celebrated revolutionary activist and Vietnamese communist icon but it is much more than a conventional biography This multifaceted study constitutes the first detailed re evaluation of the official history of the Vietnamese Communist Party and is a critical analysis of the inner workings of Vietnamese historiography never before undertaken in its scope In prominence and public visibility second only to Ho Chi Minh whom he succeeded in the presidency Ton Duc Thang in fact lacked any real power Author Christoph Giebel reconciles this seeming contradiction by showing that it was only Ton Duc Thang who could personify for the Party crucial legitimizing ancestries those that linked Vietnamese communism with the Russian October Revolution highlighted proletarian internationalism among its ranks and rooted the Party in Viet Nam s south The study traces the decades long complex processes in which famous heroic episodes in Ton Duc Thang s life were manipulated or simply fabricated and depending on prevailing historical and political necessities utilized as propaganda by the Communist Party Over time narrative control over these tales switched hands however and since the late 1950s the stories came to be used in factional disputes by competing ideological and regional interests within the revolutionary camp Based on innovative archival research in Viet Nam and France and on analyses of biographical writings propaganda and museum representations the study challenges core assumptions about the history of the Vietnamese Communist Part and sheds light on divisions within the revolutionary

movement along regional class and ideological lines Giebel uses the fictions and contested facts of Ton s life to demonstrate that history writing and the constructions of memories and identities are always political acts **The Ili Rebellion** Linda K. Benson,2020-10-28 In 1944 Moslem forces in China s westernmost province of Xinjiang rose against the Chinese authorities and succeeded in establishing a small independent Islamic state the East Turkestan Republic Based on newly available archival material this book describes the Moslem challenge to Chinese rule and documents the Nationalist government s response to newly awakened Turkic Moslem nationalism on China s most remote and politically sensitive north western frontier With this book Linda Benson aims to break new ground in the study of Sino Soviet relations and especially of the policies of Chinese governments toward their national minorities *Borrowed Place* Riika-Leena Juntunen,2015-08-17 In *Borrowed Place* Mission Stations and Local Adaption in Early Twentieth Century Hunan Riika Leena Juntunen creates a microhistorical narrative around the establishment reception and development of Lizhou protestant stations during the turbulent years of popular nationalism and early communist activity The book examines the changing place identity around the stations from political religious ritual cultural and gendered perspectives revealing a Chinese semi religious community with varying motivations and in constant dialogue with its surroundings The group developed its own normative code and hierarchy and it offered both economic and religious benefits according to local models Yet the developing political situation also meant it had to solve the question of anti foreignism to be able to continue its existence
