Rise Of Selfishness In America:

The Rise of Selfishness in America James Lincoln Collier, 2005-05 A vibrant sweeping analysis of the roots of American self indulgence Kirkus Reviews This ringing provocative jeremiad cuts a path through a haze of self indulgent thought and action in the me first society Publisher s Weekly Wonderful a delight to read even exciting There are few books that inspire real enthusiasm This is one of them The Philadelphia Enquirer The Vanishing Word Arthur W. Hunt III, 2013-09-01 Is image everything For many people in our culture image and images are everything Americans spend hours watching television but rarely finish a good book Words are quickly losing their appeal Arthur Hunt sees this trend as a direct assault on Christianity He warns that by exalting imagery we risk becoming mindless pagans Our thirst for images has dulled our minds so that we lack the biblical and mental defenses we need to resist pagan influences What about paganism Hunt contends that it never died in modern Western culture image based media just brought it to the surface again Sex violence and celebrity worship abound in our culture driving a mass media frenzy reminiscent of pagan idolatry This book is a clear warning that the church is being cut off from its word based heritage and that we are open to abuse by those who exploit the image but neglect the Word Thoughtful readers will find this a challenging call to be critical about the images bombarding our sense and to affirm that the Word is everything

The Selfish America Gregory Ransaw,2016-08-02 America today is a shadow of what it once was Over the past forty years people have turned away from God and instead accepted the flawed view that morality is subjective and personal As a country we have discarded the idea that there is an absolute right and an absolute wrong This is spread through our universities where students learn only the scientific perspective without completing their education in religion and morality This has created untold social problems from the 2008 market crash to the widespread abuse of drugs and alcohol The Selfish America looks closely at the transcendent reality of absolute morality and how it can be used to reestablish the word of God in our country With these steps we can save America and reestablish our moral foundations This can only be done through acknowledging that there is a transcendent physical reality a transcendent intellectual reality and a transcendent moral reality in God

The American Friend ,1921 *Why Americans Hate Politics* E.J. Dionne,2013-10-08 In this new edition of his national bestseller E J Dionne brings up to date his influential proposals for a politics that can and must find a balance between rights and obligations between responsibility and compassion All over the United States Americans are deserting the political process Why In this national bestseller one of our shrewdest political observers traces thirty years of volatile political history and finds that on point after point liberals and conservatives are framing issues as a series of false choices making it impossible for politicians to solve problems and alienating voters in the process Now with a new afterword discussing the Clarence Thomas confirmation hearings and the 1992 presidential election Dionne explores what has gone wrong with the American system and offers a back to basics approach to politics designed to respond to the anger of America s restive majority From the New Updated Introduction At the heart of *Why Americans Hate Politics* is the view that ideas shape politics far more than most accounts of public life usually allow I believe ideas matter not only to elites and intellectuals but also to rank and file voters Indeed I often think that the rank and file see the importance of ideas more clearly than the elites who often find themselves surprised by the rise of the movements that arise from the bottom up and shape our politics

Selfish Or Caring? America's Choice Thomas S. Langner,2010-02 How did the U S get into a war over non existent weapons of mass destruction How did we allow our civil

rights to be hijacked and our environment raped How did we manage to let our personal savings be plundered How did we get into an exploding financial depression The greed of Wall Street and many CEOs is linked to the poor parenting of some conservatives who learned to value success and personal gain more than caring for others The character disorders of a Bernie Madoff many investment bankers sub prime realtors past U S presidents and bellicose leaders such as Alexander the Great Napoleon Hitler and Stalin may spring from early childhood trauma especially from men s conflicts with their fathers A series of losses abetted by rapid social change and life in an increasingly complex society instead of close knit communities has accelerated the move to the Right over the past thirty years It even brought us to the brink of dictatorship These losses of identity self esteem love and affection social supports and control over life events are still threatening Add to the mix poor parenting and you have a perfect recipe for the intense longing for authority religion and a homogeneous community life that preceded Hitler s Germany With luck President Obama and his team can save us from this authoritarian tide *Honor in America?* Laurie M. Johnson, 2016-12-21 Is there such a thing as American honor or is honor simply incompatible with modern liberal democracy and capitalism Tocqueville s Democracy in America is particularly well suited as a means of exploring these questions Through an in depth analysis of Tocqueville s views on aristocratic versus American democratic honor this book explores what honor might mean in the modern Western context Its aim is to strengthen citizens moral obligations and understandings of community in the face of forces within democracy and capitalism that naturally erode these binding and stabilizing influences With a focus on discovering a uniquely American honor this book covers Tocqueville s views on American religion family and gender roles politics relations with Native Americans white southerners and slavery and the military It explores how these views can help us form a uniquely American honor code one that re envisions and incorporates suitable aristocratic elements within a modern democratic society and a capitalistic economy American Standard , 1924
