Political Risk Insurance**

Foreword by Robert Goodland

Risks We Run Mining Communities And Political Risk Insurance

Meredeth Turshen

Risks We Run Mining Communities And Political Risk Insurance:

Rocks and Hard Places Roger Moody,2013-04-04 The world of international mining is changing rapidly Mining corporations are encroaching on more and more greenfield sites in Africa the Asia Pacific and Latin America to serve ever expanding global industries Moody shows that large scale mining imposes a heavy toll on local communities on their fragile economies and ways of life as well as the environment He challenges the mining corporations recent public relations offensive extolling the virtues of largescale mining and its alleged compatibility with sustainable development and reveals the unprecedented wave of community and trade union opposition to projects in both the South and the North This important book concludes with urgent proposals to check the role of multinationals in a sector that has always been at the core of resource exploitation

Rethinking Political Risk Cecilia Emma Sottilotta,2016-10-14 Political risk was first introduced as a component for assessing risk not directly linked to economic factors following the flow of capital from the US to Europe after the Second World War However the concept has rapidly gained relevance since with both public and private institutions developing complex methodologies designed to evaluate political risk factors and keep pace with the internationalization of trade and investment Continued global and regional economic and political instability means a plethora of different actors today conduct a diverse range of political risk analyses and assessments Starting from the epistemological foundations of political risk this books bridges the gap between theory and practice exploring operationalization and measurement issues with the support of an empirical case study on the Arab uprisings discussing the role of expert judgment in political forecasting and highlighting the main challenges and opportunities political risk analysts face in the wake of the digital revolution

The Routledge Handbook of Political Risk Cecilia Emma Sottilotta,Julian Campisi,Johannes Leitner,Hannes Meissner,2025-03-24 The Routledge Handbook of Political Risk explores the context analysis and management of political risk arising from recent tectonic geopolitical challenges to the world order posed by pandemics nationalist policy interventions changing supply chains technological transformation and the climate crisis Seasoned and emerging academics from the Global North and South alongside risk practitioners and business professionals from multiple continents and industries reconsider and address policy oriented questions in relation to social political democratic environmental economic security technological and geopolitical challenges Across five distinctive parts this Handbook considers ethical risks populism weaponised interdependence protectionism the disruptive effects of AI company case studies industries and political risk management while also reconsidering the future of political risk The volume will appeal to scholars and students of international business and management studies political science area studies security studies geography history and sociology In the absence of functioning global governance to mitigate such risks it will also be of great use to a range of consultants investors business practitioners and corporations

Public Actors in International Investment Law Catharine Titi,2021-03-03 This open access book focuses on public actors with a role in the settlement of

investment disputes Traditional studies on actors in international investment law have tended to concentrate on arbitrators claimant investors and respondent states Yet this focus on the principal players in investment dispute settlement has allowed a number of other seminal actors to be neglected This book seeks to redress this imbalance by turning the spotlight on the latter From the investor s home state to domestic courts from sub national governments to international organisations and from political risk insurance agencies to legal defence teams in national ministries the book critically reviews these overlooked public actors in international investment law Research Handbook on Law, Environment and the Global South Philippe Cullet,Sujith Koonan,2019 This comprehensive Research Handbook offers an innovative analysis of environmental law in the global South and contributes to an important reassessment of some of its major underlying concepts The Research Handbook discusses areas rarely prioritized in environmental law such as land rights and underlines how these intersect with issues including poverty livelihoods and the use of natural resources challenging familiar narratives around development and sustainability in this context and providing new insights into environmental justice Mining in the Asia-Pacific Terry O'Callaghan,Geordan Graetz,2017-09-06 This book provides the most comprehensive survey of mining activity and the principal challenges confronting the resources industry in the Asia Pacific region today and presents new theoretical and practical insights into the political and business risks faced by mining companies operating in the region from both academic and corporate perspectives It focuses on the exploration production and trade of the principal commodities coal iron ore uranium oil and gas and gold as well as the emerging commodities unconventional gas and rare earth minerals provides the reader with a valuable understanding of resource activity in the region In addition it also integrates and draws attention to eight key issue areas which have the potential to pose significant risks challenges and opportunities for the industry going forward which include sustainable development resource governance and economic contributions declining ore grades and territorial expansion community aspects of mining mining and indigenous peoples climate change and impact assessment The contributors to this volume are experts in their respective fields and the diversity of voices makes this book a must read for scholars industry participants investors and policy makers with an interest in mining in the Asia Pacific *Natural Resources and Sustainable Development* Celine Tan,Julio Faundez,2017-08-25 Examining the law regulation and governance of natural resources this timely work addresses the conflicts and contradictions arising at the intersection between international economic law sustainable development and other areas of international law most notably human rights law and environmental law Bringing together a collection of legal and policy expertise from a range of academic and practitioner perspectives this book will appeal to scholars of law political science international relations political economy and development studies *Mining Capitalism* Stuart Kirsch,2014-06-07 Corporations are among the most powerful institutions of our time but they are also responsible for a wide range of harmful social and environmental impacts Consequently political movements and nongovernmental organizations increasingly contest the risks that corporations pose to people and nature

Mining Capitalism examines the strategies through which corporations manage their relationships with these critics and adversaries By focusing on the conflict over the Ok Tedi copper and gold mine in Papua New Guinea Stuart Kirsch tells the story of a slow moving environmental disaster and the international network of indigenous peoples advocacy groups and lawyers that sought to protect local rivers and rain forests Along the way he analyzes how corporations promote their interests by manipulating science and invoking the discourses of sustainability and social responsibility Based on two decades of anthropological research this book is comparative in scope showing readers how similar dynamics operate in other industries around the world *Engaging with Capitalism* Fiona McCormack, Kate Barclay, 2013-05-14 The volume addresses how capitalism has been very effective in generating wealth and technological innovation but has also been associated with social inequity and environmental damage Its inherent flaws have been highlighted by the escalation of ecological problems arising from growth oriented capitalism and various economic crises **The Risks We Run** Roger Moody, 2005 This critique of political risk insurance PRI the type of insurance used by large scale mining projects includes six case studies that show how PRI has severe negative social and environmental impacts on mining communities Included are descriptions of such landmark cases as the Omai gold mine in Guyana which was insured through PRI by the World Bank and the Canadian government and whose waste facilities completely collapsed causing the country's worst environmental disaster in recorded history Conclusions are drawn about the failure of agencies such as the World Bank to anticipate the consequences of major mining projects and consider the effects of large scale mining on sustainable development

Gender and the Political Economy of Conflict in Africa Meredeth Turshen, 2016-01-29 Violence affects the economy of production and the ecology of reproduction the production of economic goods and services and the generational reproduction of workers the regeneration of the capacity to work and maintenance of workers on a daily basis and the renewal of culture and society through community relations and the education of children Gender and the Political Economy of Conflict in Africa explores the persistence of violence in conflict zones in Africa using a political economy framework This framework employs an analysis of violence on both edges of the spectrum a macro economic analysis of violence against workers and a micro political analysis of the violence in women's reproductive lives These analyses come together to create a new explanation of why violence persists a new political economy of violence against women and a new theoretical understanding of the relation between production and reproduction Three case studies are discussed the Democratic Republic of the Congo violence in an era of conflict Sierra Leone violence post conflict and Tanzania which has not seen armed conflict on the mainland This book fills a significant gap on the political economy of war and women gender for advanced undergraduate and postgraduate students as well as researchers in African Studies Gender Studies and Peace and Conflict Studies **Unearthing Justice** Joan Kuyek, 2019-09-12 The mining industry continues to be at the forefront of colonial dispossession around the world It controls information about its intrinsic costs and benefits propagates myths about

its contribution to the economy shapes government policy and regulation and deals ruthlessly with its opponents Brimming with case studies anecdotes resources and illustrations *Unearthing Justice* exposes the mining process and its externalized impacts on the environment Indigenous Peoples communities workers and governments But most importantly the book shows how people are fighting back Whether it is to stop a mine before it starts to get an abandoned mine cleaned up to change Laws and policy or to mount a campaign to influence investors *Unearthing Justice* is an essential handbook for anyone trying to protect the places and people they love

Sustainable Minerals Operations in the Developing World Geological Society of London,2005 The sustainable development of minerals which are non renewable resources is a major challenge in today s world In this regard the true definition of sustainability is a debating point in itself can such a concept exist with respect to non renewable resources Perhaps the ideal sustainability model is one that minimizes negative environmental impact and maximizes benefits to society the economy and regional national development Developed and near developed economies rely for commodity supplies on developing countries where major mining operations are often a mainstay of the domestic economy Limited environmental regulation and low wages lead to charges of exploitation Also large numbers of people have no alternative to living by informal often dangerous artisanal mining This Special Publication gives examples from developing countries from all scales of mineral extraction The volume reviews environmental economic health and social problems and highlights the need to solve these before sustainability can be achieved The better solutions require mutual understanding through full involvement of all stakeholders education training and investment so that small scale and artisanal mines can grow into well managed operations At larger scales most major international mining companies have now improved their practices and are monitoring their progress although there is no room for complacency in this rapidly changing area

The Routledge Companion to Postcolonial and Decolonial Literature Praseeda Gopinath,Laura Brueck,2024-09-30 Working within a global frame *The Routledge Companion to Postcolonial and Decolonial Literature* considers postcolonial and decolonial literary works across multiple genres languages and both regional and transnational networks The Companion extends beyond the entrenched hegemony of the postcolonial or Anglophone novel to explore other literary formations and vernacular exchanges It foregrounds questions of language and circulation by emphasizing translation vernacularity and world literature This text expands the linguistic regional and critical foci of the emergent field of decolonial studies pushing against the normative currents of postcolonial literary studies and offers a critical consideration of both The volume prioritizes new literatures and critical theories of diasporas borderlands detentions and forced migrations in the face of environmental catastrophe and political authoritarianism reframing postcolonial decolonial literary studies through an emphasis on multilingual literatures This will be a crucial resource for undergraduate and graduate students of postcolonial and decolonial studies

ExtrACTION Kirk Jalbert,Anna Willow,David Casagrande,Stephanie Paladino,2017-06-26 This timely volume examines resistance to natural resource extraction from a critical ethnographic

perspective Using a range of case studies from North Central and South America Australia and Central Asia the contributors explore how and why resistance movements seek to change extraction policies evaluating their similarities differences successes and failures A range of ongoing debates concerning environmental justice risk and disaster sacrifice zones and the economic cycles of boom and bust are considered and the roles of governments free markets and civil society groups re examined Incorporating contributions from authors in the fields of anthropology public policy environmental health and community based advocacy ExtrACTION offers a robustly argued case for change It will make engaging reading for academics and students in the fields of critical anthropology public policy and politics as well as activists and other interested citizens

Globalization and Health Ronald Labonté, Ted Schrecker, Corinne Packer, Vivien Runnels, 2009-05-07 Contemporary globalization has had tremendous impact on health equity across the globe However no volume has systematically analyzed the relationship between globalization and global trends in health outcomes This book consolidates and updates the findings of a global research project undertaken by the Globalisation Knowledge Network GKN of the World Health Organization s Commission on Social Determinants of Health Chapters examine such questions as How has trade liberalisation affected the social determinants of health How has globalization affected food security nutrition and equitable access to water and sanitation How well do present global governance structures take account of the health equity effects associated with the social determinants of health This landmark volume will be a necessary addition for researchers and scholars studying the field of globalization health and social policy and public health across the social sciences

Social Movements Contesting Natural Resource Development John F. Devlin, 2019-10-22 Presenting a broad range of case studies this book explores rural social movements contesting natural resource development initiatives Natural resource development takes multiple forms including infrastructure corridors mines dams resource processing plants and pipelines Many of which are driven by economic valuations whilst social and environmental effects are given limited consideration In this volume the authors discuss the emergence process and outcomes of social movements with respect to these natural resource development projects including examples of confrontation seeking to either block developments or promote alternative development approaches such as agritourism The examples taken from Africa Asia North America Europe and Latin America demonstrate the diversity of struggles stimulated by natural resource development including both immediate and longer term effects repertoires of action political and cultural work Taken together the case studies provide a rich overview of current movements engaged in resisting the neoliberal agenda of global resource exploitation This book will be key reading for scholars interested in social movements natural resource development environmental policy and development studies It will also be of interest to activists engaged in mobilizations stimulated by natural resource development projects

Boom, Bust, Boom Bill Carter, 2021-08-31 For most of recorded history copper has proven invaluable not only did the ancient Romans build their empire on mining copper but Christopher Columbus protected his ships from rot by lining their hulls with it Today

this pliable and sturdy metal can be found in every house car airplane cell phone computer and home appliance across the globe Yet the history of copper extraction and our present relationship with the metal are fraught with profound difficulties Copper mining causes irrevocable damage to the Earth and the mines themselves have significant effects on the economies and wellbeing of the communities where they are located Starting in his own backyard in the old mining town of Bisbee Arizona where he discovers that the dirt in his garden contains double the acceptable level of arsenic Bill Carter follows the story of copper to the controversial Grasberg copper mine in Indonesia to the ring at the London Metal Exchange where a select group of traders buy and sell enormous amounts of the metal and to an Alaskan salmon run threatened by mining Page by page Carter blends the personal and the international in a narrative that helps us understand the paradoxical relationship we have with copper and the result is a work of first rate journalism that fascinates on every level

Large-scale Mines and Local-level Politics Colin Filer, Pierre-Yves Le Meur, 2017-10-20 Despite the difference in their populations and political status New Caledonia and Papua New Guinea have comparable levels of economic dependence on the extraction and export of mineral resources For this reason the costs and benefits of large scale mining projects for indigenous communities has been a major political issue in both jurisdictions and one that has come to be negotiated through multiple channels at different levels of political organisation The resource boom that took place in the early years of the current century has only served to intensify the political contests and conflicts that surround the distribution of social economic and environmental costs and benefits between community members and other stakeholders in the large scale mining industry However the mutual isolation of Anglophone and Francophone scholars has formed a barrier to systematic comparison of the relationship between large scale mines and local level politics in Papua New Guinea and New Caledonia despite their geographical proximity This collection of essays represents an effort to overcome this barrier but is also intended as a major contribution to the growth of academic and political debate about the social impact of the large scale mining industry in Melanesia and beyond

Yearbook on International Investment Law & Policy 2014-2015 Andrea K. Bjorklund, 2016-09-30 Several themes emerge in this 2014 2015 edition of the Yearbook The first is a notable focus on country and region specific developments Different articles focus on key developments in such countries as Australia Brazil China Ghana India Indonesia Russia and South Africa Others focus on regional innovations in particular in Latin America A second area of attention is reform and proposals for reform in investor state dispute settlement and in investment law generally The third theme is the continued concern about states regulatory autonomy and the importance of their retaining ability to protect the interests of their nationals A fourth theme concerns the continued contribution that investment arbitration makes to the development of international law and the influence that it is starting to have on other areas of law whether that is as a source of inspiration in the interpretation of other norms or as a source of potentially powerful persuasive authority given the teeth that investment law has with respect to enforcement Included are the winning memorials of the FDI Moot for both 2014 and 2015

In 2014 a team from the University of Ottawa submitted the winning claimant's memorial while students from Harvard Law School submitted the winning respondent's memorial. In 2015 Harvard repeated its stellar performance again winning best respondent's memorial. The winning claimant's memorial in 2015 was submitted by students from the National and Kapodistrian University of Athens. These excellent memorials reveal once again the growing interest of students in international investment law and demonstrate a striving for excellence and an enthusiasm for grappling with intellectually challenging issues.

Risks We Run Mining Communities And Political Risk Insurance Introduction

In today's digital age, the availability of Risks We Run Mining Communities And Political Risk Insurance books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Risks We Run Mining Communities And Political Risk Insurance books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Risks We Run Mining Communities And Political Risk Insurance books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Risks We Run Mining Communities And Political Risk Insurance versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Risks We Run Mining Communities And Political Risk Insurance books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Risks We Run Mining Communities And Political Risk Insurance books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Risks We Run Mining Communities And Political Risk Insurance books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic

texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Risks We Run Mining Communities And Political Risk Insurance books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Risks We Run Mining Communities And Political Risk Insurance books and manuals for download and embark on your journey of knowledge?

FAQs About Risks We Run Mining Communities And Political Risk Insurance Books

What is a Risks We Run Mining Communities And Political Risk Insurance PDF? A PDF (Portable Document Format) is a file format developed by Adobe that preserves the layout and formatting of a document, regardless of the software, hardware, or operating system used to view or print it. **How do I create a Risks We Run Mining Communities And Political Risk Insurance PDF?** There are several ways to create a PDF: Use software like Adobe Acrobat, Microsoft Word, or Google Docs, which often have built-in PDF creation tools. Print to PDF: Many applications and operating systems have a "Print to PDF" option that allows you to save a document as a PDF file instead of printing it on paper. Online converters: There are various online tools that can convert different file types to PDF. **How do I edit a Risks We Run Mining Communities And Political Risk Insurance PDF?** Editing a PDF can be done with software like Adobe Acrobat, which allows direct editing of text, images, and other elements within the PDF. Some free tools, like PDFescape or Smallpdf, also offer basic editing capabilities. **How do I convert a Risks We Run Mining Communities And Political Risk Insurance PDF to another file format?** There are multiple ways to convert a PDF to another format: Use online converters like Smallpdf, Zamzar, or Adobe Acrobats export feature to convert PDFs to formats like Word, Excel, JPEG, etc. Software like Adobe Acrobat, Microsoft Word, or other PDF editors may have options to export or save PDFs in different formats. **How do I password-protect a Risks We Run Mining Communities And Political Risk Insurance PDF?** Most PDF editing software allows you to add password protection. In Adobe Acrobat, for instance, you can go to "File" -> "Properties" -> "Security" to set a password to restrict access or editing capabilities. Are there any free alternatives to Adobe Acrobat for working with PDFs? Yes, there are many free alternatives for working with PDFs, such as: LibreOffice: Offers PDF editing

features. PDFsam: Allows splitting, merging, and editing PDFs. Foxit Reader: Provides basic PDF viewing and editing capabilities. How do I compress a PDF file? You can use online tools like Smallpdf, ILovePDF, or desktop software like Adobe Acrobat to compress PDF files without significant quality loss. Compression reduces the file size, making it easier to share and download. Can I fill out forms in a PDF file? Yes, most PDF viewers/editors like Adobe Acrobat, Preview (on Mac), or various online tools allow you to fill out forms in PDF files by selecting text fields and entering information. Are there any restrictions when working with PDFs? Some PDFs might have restrictions set by their creator, such as password protection, editing restrictions, or print restrictions. Breaking these restrictions might require specific software or tools, which may or may not be legal depending on the circumstances and local laws.
