before The symbol of the Triads is a triangle enclosing the characters for heaven earth and man emblematic of the societies far reaching influence and membership involves challenging rites of initiation and the practice of complex rituals little changed over the centuries On one level these practices can be seen simply as the customs of a purely mystical order on another they may be seen as the organising principles by which secret societies continue to operate as powerful political organisations invisible in our midst This classic work the definitive study of the history symbols and secret rituals of the Triads reveals the Triad initiation ritual of the mystical journey sacred Triad signs words and slang the rite of the magic mirror and the oath of blood brotherhood the symbolic decoration of Triad temples Triad magic and the meaning of the sacred objects and ceremonies at the heart of Triad practice in minute detail The authors show that the Triad ritual is a potent mystical allegory with an immense power that can be used for good or ill
