Art After Appropriation John C. Welchman, 2013-01-11 Beginning with the first comprehensive account of the discourse of appropriation that dominated the art world in the late 1970s and 1980s Art After Appropriation suggests a matrix of inflections and refusals around the culture of taking or citation each chapter loosely correlated with one year of the decade between 1989 and 1999 The opening chapters show how the Second World culture of the USSR gave rise to a new visibility for photography during the dissolution of the Soviet Union around 1989 Welchman examines how genres of ethnography documentary and travel are crossed with fictive performance and social improvisation in the videos of Steve Fagin He discusses how hybrid forms of subjectivity are delivered by a new critical narcissism and how the Korean American artist Cody Choi converts diffident gestures of appropriation from the logic of material or stylistic annexation into continuous incorporated events Art After Appropriation also examines the creation of public art from covert actions and social feedback and how bodies participate in their own appropriation Art After Appropriation concludes with the advent of the rainbow net an imaginary icon that governs the spaces of interactivity proliferation and media piracy at the end of the millennium John Welchman is Professor of Modern Art History Theory and Criticism at the University of California San Diego He is the author of Modernism Relocated 1995 and Invisible Colors 1997 and editor of Rethinking Borders 1996 and a forthcoming three volume anthology of the writings of LA artist Mike Kelley Welchman has contributed to numerous journals magazines museum catalogues and newspapers including Artforum New York Times Los Angeles Times International Herald Tribune Los Angeles County Museum of Art Tate Gallery Museum of Contemporary Art Los Angeles Reina Sofia Madrid Haus der Kunst Munich Postmodern Animal Steve Baker, 2000-03 In The Postmodern Animal Steve Baker explores how animal imagery has been used in modern and contemporary art and performance and in postmodern philosophy and literature to suggest and shape ideas about identity and creativity Baker cogently analyses the work of such European and American artists as Olly and Suzi Mark Dion Paula Rego and Sue Coe at the same time looking critically at the constructions

performances and installations of Robert Rauschenberg Louise Bourgeois Joseph Beuys and other significant late twentieth century artists Baker s book draws parallels between the animal s place in postmodern art and poststructuralist theory drawing on works as diverse as Jacques Derrida s recent analysis of the role of animals in philosophical thought and Julian Barnes s best selling Flaubert s Parrot

At the Edges of Vision Ren?ande Vall,2017-07-05 In *At the Edges of Vision* Ren van de Vall re examines the aesthetics of spectatorship in terms of new media art and visual culture The aesthetic experience of visual art has traditionally been described in terms of the distanced contemplation and critical interpretation of the work s form and representational content Recent developments in installation video and computer art have foregrounded the bodily and affective engagement of the spectator and in retrospect throw into question the model of spectatorial distance for more traditional art forms as well But what does this development entail for art s potential for reflective imaginative and experiential depth Is art still capable of providing a critical counterpoint to the ubiquitous presence of sensational yet short lived media imagery when it speaks to the senses rather than to the mind In a thorough examination of examples from painting film installation art and interactive video and computer art Van de Vall argues for a tactile and affective conception of reflection linking philosophy and art Looking at a Rembrandt self portrait and navigating through an internet art work have in common that both types of work rely on a playful rhythmically structured sensuous and embodied reflexivity for the articulation of meaning This sensuous dimension of playful reflexivity is just as important in philosophical thought however as the transcendental condition for genuine open ended reflection Drawing on the philosophy of Merleau Ponty Levinas Lyotard and Deleuze on the one hand and on new media theory on the other Van de Vall develops a performative phenomenology of aesthetic reflection visuality and visual art in order to rethink art s ethical and political relevance in present day digital media culture

Memento Mori in Contemporary Art Taylor Worley,2019-11-28 This book explores how four contemporary artists Francis Bacon Joseph Beuys Robert Gober and Damien Hirst pursue the question of death through their fraught appropriations of Christian imagery Each artist is shown to not only pose provocative theological questions but also to question the abilities of theological speech to adequately address current attitudes to death When set within a broader theological context around the thought of death Bacon s works invite fresh readings of the New Testament s narration of the betrayal of Christ and Beuys works can be appreciated for the ways they evoke Resurrection to envision possible futures for Germany in the aftermath of war Gober s immaculate sculptures and installations serve to create alternative religious environments and these places are both evocative of his Roman Catholic upbringing and virtually haunted by the ghosts of his excommunication from that past Lastly and perhaps most problematically Hirst has built his brand as an artist from making jokes about death By opening fresh arenas of dialogue and meaning making in our society and culture today the rich humanity of these artworks promises both renewed depths of meaning regarding our exit from this world as well as how we might live well within it for the time that we have As such it will be a vital resource for all scholars in Theology the Visual

Understanding Kristeva, Understanding Modernism Maria Margaroni, 2022-11-03 Julia Kristeva has revolutionized the study of modernism by developing a theoretical approach that is uniquely attuned to the dynamic interplay between on the one hand linguistic and formal experimentation and on the other hand subjective crisis and socio political upheaval Inspired by the contestatory spirit of the late 1960s in which she emerged as a theorist Kristeva has defended the project of the European avant gardes and has systematically attempted to reclaim their legacy in the new societal structures produced by a global spectacle dominated capitalism Understanding Kristeva Understanding Modernism brings together essays that take up the threads in Kristeva's analyses of the avant garde offering an appreciation of her overall contribution the intellectual and

political horizon within which she has produced her seminal works as well as of the blind spots that need to be acknowledged in any contemporary examination of her insights As with other volumes in this series this volume is structured in three parts The first part provides new readings of key texts or central aspects in Kristeva s oeuvre The second part takes up the task of showing the impact of Kristeva s thought on the appreciation of modernist concerns and strategies in a variety of fields literature philosophy the visual arts and dance The third part is a glossary of some of Kristeva s key terms with each entry written by an expert contributor
