**The Objects of Evidence** Matthew Engelke, 2009-03-30 Part of The Journal of the Royal Anthropological Institute Special Issue Book Series the contributors to this volume share the conviction that anthropology can no longer afford to ignore the importance of the concept of evidence either for the ways in which anthropologists carry out their work methodology or present and justify their findings epistemology Demonstrates that evidence is something that all anthropologists must possess Shows how the collection of evidence in the field is still without doubt one of the main ingredients of what Bronislaw Malinowski once referred to as the ethnographer's magic Reveals how the concept of evidence has received little sustained attention in print especially when compared to related concepts such as fieldwork truth facts and knowledge Argued from a variety of theoretical perspectives and a rarity in its ability to orchestrate

some many different and vibrant paradigms and points of view      *The Routledge Dictionary of Anthropologists* Gerald Gaillard, 2004-06-01 This detailed and comprehensive guide provides biographical information on the most influential and significant figures in world anthropology from the birth of the discipline in the nineteenth century to the present day Each of the fifteen chapters focuses on a national tradition or school of thought outlining its central features and placing the anthropologists within their intellectual contexts Fully indexed and cross referenced *The Routledge Dictionary of Anthropologists* will prove indispensable for students of anthropology      *The Sacrificed Generation* Lesley A. Sharp, 2002-09-03 This fascinating study grounded in vivid depictions of local life relates to larger questions about the postcolonial exercise of political and economic power when ostensibly sovereign states such as Madagascar are so profoundly controlled by international organizations unattached to any particular state Sharp asks how young people in these radically changing circumstances are taught and teach themselves to understand their past present and future Gillian Feeley Harnik author of *A Green Estate* Sharp's work is in the best tradition of classic anthropology extending the critiques of Fanon Mannoni Memmi and Freire by examining the effects of the socialist revolution the birth of Malagasy nationalism and the imposition of a postcolonial pedagogy on the minds of the sacrificed generation Her detailed ethnography is superb Nancy Scheper Hughes author of *Death without Weeping*      *State and Court Ritual in China* Joseph P. McDermott, 1999-09-16 This broad ranging examination of Chinese court and state ritual from 1000 BC to AD 1750 represents the first modern comprehensive account of the subject in any language The essays demonstrate how and why ritual has played such a fundamental and often controversial role in the practice of Chinese politics By tracing the political and social development of particular rituals such as imperial funerals and popular religious practices or Buddhist ordination ceremonies and court audiences the authors set out to convey their historical significance Further discussion of the role of ritual in relation to language and elite and popular concepts of emperorhood is included in the volume The book will be of interest to students of Chinese history anthropology and religion as well as those seeking to understand the legacy of that history in modern China

**The Contest for Time and Space in the Roman Imperial Cults and 1 Peter** Wei Hsien Wan, 2019-10-17 Wei Hsien Wan builds on the work of David Horrell and Travis Williams for his argument that the letter of 1 Peter engages in a subtle calculated form of resistance to Rome that has often gone undetected Whilst previous discussion of the topic has remained largely focused on the letter's stance toward specific Roman institutions such as the emperor household structures and the imperial cults Wan takes the conversation beyond these confines and examines 1 Peter's critique of the Roman Empire in terms of its ideology or worldview Using the work of James Scott to conceptualize ideological resistance against domination Wan considers how the imperial cults of Anatolia and 1 Peter offered distinct constructions of time and space that is how they envisioned reality differently Insofar as these differences led to divergent ways of conceiving the social order they acquired political power and generated potential for conflict Wan thus argues that 1 Peter confronts Rome on a cosmic scale with its

alternative construal of time and space and examines the evidence that the Petrine author consciously if cautiously interrogated the imperial imagination at its most foundational levels and set forth in its place a theocentric Christological understanding of the world

**Bodies and Disciplines** Barbara A. Hanawalt, David Wallace, 1996-01-01 *Middle English Romance and the Craft of Memory* Jamie McKinstry, 2015 An examination of the depiction and function of memory in a variety of romances including Troilus and Criseyde and Sir Gawain and the Green Knight

**Mesoamerican Plazas** Kenichiro Tsukamoto, Takeshi Inomata, 2014-04-10 This is the first book to examine the roles of plazas in ancient Mesoamerica It argues persuasively that physical interactions among people in communal events were not the outcomes of political machinations held behind the scenes but were the actual political processes through which people created negotiated and subverted social realities

*Preserving Dance Across Time and Space* Lynn Brooks, Joellen Meglin, 2016-05-06 Dance is the art least susceptible to preservation since its embodied kinaesthetic nature has proven difficult to capture in notation and even in still or moving images However frameworks have been established and guidance made available for keeping dances performances and choreographers legacies alive so that the dancers of today and tomorrow can experience and learn from the dances and dancers of the past In this volume a range of voices address the issue of dance preservation through memory artistic choice interpretation imagery and notation as well as looking at relevant archives legal structures documentation and artefacts The intertwining of dance preservation and creativity is a core theme discussed throughout this text pointing to the essential continuity of dance history and dance innovation The demands of preservation stretch across time geographies institutions and interpersonal connections and this book focuses on the fascinating web that supports the fragile yet urgent effort to sustain our dancing heritage The articles in this book were originally published in the journal Dance Chronicle Studies in Dance and the Related Arts

Ritual Catherine Bell, 2009-12-29 From handshakes and toasts to chant and genuflection ritual pervades our social interactions and religious practices Still few of us could identify all of our daily and festal ritual behaviors much less explain them to an outsider Similarly because of the variety of activities that qualify as ritual and their many contradictory yet in many ways equally legitimate interpretations ritual seems to elude any systematic historical and comparative scrutiny In this book Catherine Bell offers a practical introduction to ritual practice and its study she surveys the most influential theories of religion and ritual the major categories of ritual activity and the key debates that have shaped our understanding of ritualism Bell refuses to nail down ritual with any one definition or understanding Instead her purpose is to reveal how definitions emerge and evolve and to help us become more familiar with the interplay of tradition exigency and self expression that goes into constructing this complex social medium

community and speech containing both verbal and non verbal communication Jacket      *Gender and Power in Contemporary Spirituality* Anna Fedele, Kim E. Knibbe, 2013 Contemporary distinctions between religion and spirituality can often be traced to rebellion against hierarchical institutions with biases towards women and minorities that constrain individual freedom This opposition is carefully addressed in this volume with greater attention paid to gender and power in the context of contemporary spirituality and how these relate to the distinction between religion and spirituality      *Toward an Anthropological Theory of Value* D. Graeber, 2001-12-13 Now a widely cited classic this innovative book is the first comprehensive synthesis of economic political and cultural theories of value David Graeber reexamines a century of anthropological thought about value and exchange in large measure to find a way out of ongoing quandaries in current social theory which have become critical at the present moment of ideological collapse in the face of Neoliberalism Rooted in an engaged dynamic realism Graeber argues that projects of cultural comparison are in a sense necessarily revolutionary projects He attempts to synthesize the best insights of Karl Marx and Marcel Mauss arguing that these figures represent two extreme but ultimately complementary possibilities in the shape such a project might take Graeber breathes new life into the classic anthropological texts on exchange value and economy He rethinks the cases of Iroquois wampum Pacific kula exchanges and the Kwakiutl potlatch within the flow of world historical processes and recasts value as a model of human meaning making which far exceeds rationalist reductive economist paradigms      **The Liturgy of the Medieval Church** Thomas Heffernan, E Ann Matter, 2005-04-01 This volume seeks to address the needs of teachers and advanced students who are preparing classes on the Middle Ages or who find themselves confounded in their studies by reference to the various liturgies that were fundamental to the lives of medieval peoples In a series of essays scholars of the liturgy examine The Shape of the Liturgical Year Particular Liturgies The Physical Setting of the Liturgy The Liturgy and Books and Liturgy and the Arts A concluding essay which originated in notes left behind by the late C Clifford Flanigan seeks to open the field to examine liturgy within the larger and more inclusive category of ritual The essays are intended to be introductory but to provide the basic facts and the essential bibliography for further study They approach particular problems assuming a knowledge of medieval Europe but little expertise in liturgical studies per se      **Cahokia and the Archaeology of Power** Thomas E. Emerson, 1997-10-30 The consolidation of this symbolism into a rural cult marks the expropriation of the cosmos as part of the increasing power of the Cahokian rulers
