Shaikhdoms Of Eastern Arabia:

Shaikhdoms of Eastern Arabia P. Lienhardt, 2001-03-20 This pioneering study captures the traditional social economic and political systems of the Arab sheikhdoms of the Gulf It represents a unique and in depth insight into the complex and varied cultural patterns of the Arabs Persians and the people of the East African Coast in the 1950s before the advent of oil wealth radically altered the style of life and expectations of the people living in these sheikhdoms In a compelling narrative Lienhardt discusses the tribal structure relations between men and women the economics of pearl fishing the growth of towns and the complex relationship between the ruling sheikhs and their subjects His findings offer a key to the understanding of the political system and the transition from the tribal to the class system Specialists on the Gulf and Middle East social historians and anthropologists will find a wealth of new evidence and analysis in this invaluable and accessible combination of history and anthropology

Shaikhdoms of Eastern Arabia Peter Lienhardt, 1957 **Religion, Education and Governance in the Middle East** Sai Felicia Krishna-Hensel, 2016-04-08 The Middle East is a key geopolitical strategic region in the international system but its distinctive cultural and political divisions present a mosaic of states that do not lend themselves to simplistic interpretations A thoughtful analysis of the Middle East requires an understanding of the synergism between tradition and modernity in the region as it adapts to a globalizing world Religious education and activism continue to remain a significant factor in the modernization process and the development of modern governance in the states of the Middle East This interdisciplinary book explores the historical and contemporary role of religious tradition and education on political elites and governing agencies in several major states as well as generally in the region The relationship between democracy and authority is examined to provide a better understanding of the complexity underlying the emergence of new power configurations As the region continues to respond to the forces of change in the international system it remains an important and intriguing area for analysts

The Arabian Peninsula Derek Hopwood, 2015-07-24 Although the Arabian Peninsula is the heartland of Islam and of the Arab world for decades it did not receive the attention it deserves from scholars and writers The School of Oriental and African Studies University of London and the Middle East Centre of St Antony's College Oxford jointly organized a series of seminars culminating in a conference at which the papers in this volume first published in 1972 were discussed Together they constitute an authoritative statement of our present knowledge of several areas of the Peninsula with particular emphasis on the Gulf States Three chapters trace the history of Oman from pre Islamic times to the recent past and in so doing emphasize the theme of continuing conflict between sultan and imam Other chapters examine the Gulf and the Peninsula from the standpoint of inter Arab and of international relations The third section of the book is devoted to a discussion of the increasing rate of social change in the area and the final section deals with problems of oil and state and of economic development

Honour is in Contentment William Lancaster, Fidelity Lancaster, 2011 Based on interviews and field research the authors explore the sets of ideas Arab

tribespeople from Ras Al Khaimah had about tribe and community social and economic networks and rural contracts for livelihoods and profits their uses of their environments the moral relations of credit debt and labour ruling economic and political transformations and ideas of regional history where conflicts were regarded as disputes over sets of ideas and informal accounts of tribal and local histories Their lively descriptions and explanations of life before oil portrayed tribal societies whose relationships were moral rather than political and were between jurally equal persons All lived from their own resources wealth was material self sufficiency riches the richness of social relationships Political arenas were decentralised and underpinned by common cultural and moral values Published sources give a wider context to these ideas and events which show the great complexity and differing perspectives of life before oil in the Gulf [The Persian Gulf in Modern Times](#) L. Potter,2014-12-16 This book explores the historiography ports and peoples of the Persian Gulf over the past two centuries offering a more inclusive history of the region than previously available Restoring the history of minority communities which until now have been silenced the book provides a corrective to the official story put forward by modern states *Middle East: Tricontinental Hub* United States. Department of the Army,1965 **Reinventing the Sheikhdom** Matthew Hedges,2022-04-01 Though the Arab Spring has reverberated through the Middle East largely leaving a path of destruction the relative calm in the United Arab Emirates has offered a regional roadmap for stability Domestic changes since 2000 have significantly altered the country s dynamics firmly cementing power within Abu Dhabi While Khalifa bin Zayed succeeded his father as emir of Abu Dhabi and UAE president in 2004 the Emirates evolution has largely been accredited to Abu Dhabi s crown prince Mohammed bin Zayed His reign has been characterized by the rise of the security apparatus and a micromanaged approach to governance Mohammed bin Zayed s strategy of fortification has focused on pre-empting threats from the UAE s native population rather than from expatriates or foreign actors As a result he has consolidated power distributing its administration among his tribal and kinship allies In essence Mohammed bin Zayed has driven modernization in order to strengthen his grasp on power This book explores Mohammed bin Zayed s regime security strategy illustrating the network of alliances that seek to support his reign and that of his family In an ever turbulent region the UAE remains critical to understanding the evolution of Middle Eastern authoritarian control **Fueling Sovereignty** Naosuke Mukoyama,2024-03-21 Explores the impact of oil and other natural resources on the formation of sovereign states *The End of Empire in the Gulf* Tancred Bradshaw,2019-10-31 With the end of the British Raj in 1947 the Foreign Office replaced the Government of India as the department responsible for the Persian Gulf and would proceed to manage relations with the Trucial States now the United Arab Emirates UAE until British withdrawal in 1971 This work is a comprehensive history of British policy in the region during that period situated for the first time in its broad historical and political context Tancred Bradshaw an academic historian with extensive experience in the region sheds light onto the discovery of oil in Abu Dhabi in the 1950s Foreign Office attempts to instigate a long term development policy in the region the slow end of the

British Empire the origins of the UAE and most importantly the British legacy in this geopolitically crucial region today The book relies on 40 000 pages of archival material much of it previously unused and will be of interest to Imperial historians as well as anyone working on the history and politics of the Middle East and the Persian Gulf *The Arabian Frontier of the British Raj* James Onley,2007-11-22 The Arabian Frontier of the British Raj is a study of one of the most forbidding frontier zones of Britain s Indian Empire The Gulf Residency responsible for Britain s relationship with Eastern Arabia and Southern Persia was part of an extensive network of political residencies that surrounded and protected British India Based on extensive archival research in both the Gulf and Britain this book examines how Britain s Political Resident in the Gulf and his very small cadre of British officers maintained the Pax Britannica on the waters of the Gulf protected British interests throughout the region and managed political relations with the dozens of Arab rulers and governors on both shores of the Gulf James Onley looks at the secret to the Gulf Residency s effectiveness the extent to which the British worked within the indigenous political systems of the Gulf He examines the way in which Arab rulers in need of protection collaborated with the Resident to maintain the Pax Britannica while influential men from affluent Arab Persian and Indian merchant families served as the Resident s native agents compradors in over half of the political posts within the Gulf Residency *Evolution of the Armed Forces of the United Arab Emirates* Athol Yates,2020-12-10 While today the military of the United Arab Emirates is described admiringly as a little Sparta just 60 years ago the only security forces in the Emirates were the armed retainers of the Ruling Sheikhs and a small British led locally raised Arab force Through a combination of direct oversight by rulers investment in its nationals engagement of expatriates and the purchase of cutting edge military hardware the UAE Armed Forces has become arguably the most capable Arab military In the last decade it has also gained considerable experience through its military operations in Afghanistan Libya Iraq Syria and Yemen This book traces the little known history of the country s military from 1951 to 2020 It provides unparalleled detail on the constituent forces that evolved into the UAE Armed Forces in 1976 and how that unified force has evolved to the present It provides essential background information on how the country s geography demographics and political system have shaped its military the enduring roles of the military and the history of each military service It also details the political and command structure governing the military and its manpower and materiel characteristics The book concludes with an explanation of how the UAE has been able to develop such a highly capable military for its size in a relatively short period of time **Britain and the Arab Gulf after Empire** Simon C. Smith,2019-03-08 Although Britain s formal imperial role in the smaller oil rich sheikdoms of the Arab Gulf Kuwait Bahrain Qatar and the United Arab Emirates ended in 1971 Britain continued to have a strong interest and continuing presence in the region This book explores the nature of Britain s role after the formal end of empire It traces the historical events of the post imperial years including the 1973 oil shock the fall of the Shah in Iran and the beginnings of the Iran Iraq War considers the changing positions towards the region of other major world powers including the United States and

engages with debates on the nature of empire and the end of empire The book is a sequel to the authors highly acclaimed previous books *Britain's Revival and Fall in the Gulf* Kuwait Bahrain Qatar and the Trucial States 1950-71 Routledge 2004 and *Ending Empire in the Middle East* Britain the United States and Post war Decolonization 1945-1973 Routledge 2012

Music in Arabia Issa Boulos, Virginia Danielson, Anne K. Rasmussen, 2021-09-07 Music in Arabia extends and challenges existing narratives of the region's distinctive but understudied music to reveal diverse and dynamic music cultures rooted in centuries old heritage Contributors to Music in Arabia bring a critical eye and ear to the contemporary soundscape musical life and expressive culture in the Gulf region Including work by leading scholars and local authorities this collection presents fresh perspectives and new research addressing why musical expression is fundamental to the area's diverse transnational communities The volume also examines music circulation as a commodity such as with the production of early recordings the transnational music industry the context of the Arab Spring and the region's popular music markets As a bonus readers can access a linked website containing audiovisual examples of the music dance and expressive culture introduced throughout the book With the work of resident scholars and heritage practitioners in conversation with that of researchers from the United States and Europe Music in Arabia offers both context and content to clarify how music articulates identity and nation among multiethnic multiracial and multinational populations

Genealogical History in the Persianate World Jo-Ann Gross, Daniel Beben, 2025-06-26 Scholarship on the Muslim world has recently begun to pay increased attention to non literary genres of documentation as sources for historical research Genealogical writings are one form of such documentation that has demonstrated significant potential for addressing a wide range of research concerns particularly for topics that receive little attention in historical chronicles and other state centered narrative sources However while genealogical documentation has received some attention in scholarship on the Arab world it remains mostly unstudied in scholarship on Persianate societies The chapters in this book offer reflections on theoretical and methodological issues concerning the study of genealogical documentation combined with case studies based primarily on previously unpublished unstudied source materials The topics explored span the full breadth of the Persianate world from Anatolia to the Ferghana Valley in Central Asia to the Gujarat region of India utilizing sources dating from the fourteenth to the twentieth century The book will be of significant interest to scholars and students of Islamic history and the Persianate ecumene as well as readers in other fields interested in comparative research demonstrating the use of genealogical documentation as historical sources

The City in the Ottoman Empire Ulrike Freitag, Malte Fuhrmann, Nora Lafi, Florian Riedler, 2010-11-25 This book examines the city in the Ottoman Empire as a thoroughfare and destination of human migration Drawing upon case studies from across the Middle East and Europe it provides new insights on Ottoman institutions and the structure of society

The Persian Gulf in History L. Potter, 2009-01-05 Exploring the history of the Persian Gulf from ancient times until the present day leading authorities treat the internal history of the region and describe the role outsiders have played there The book focuses on the

unity and identity of Gulf society and how the Gulf historically has been part of a cosmopolitan Indian Ocean world Life After Oil Mirza H. Alqassab, 2020-08-28 The Gulf Arab states became rich by accident Their golden ticket was oil which has become the lifeblood of their social and economic systems But they are prone to become a vanishing Eden if the oil curse endures further and economic transformation remains a mirage LIFE AFTER OIL highlights the economic vulnerability of the Gulf states after the oil party ends The region depends heavily on imports financed by petrodollars So when demand for oil sinks and prices plummet or when oil and gas reserves ultimately vanish their survival will be extremely challenged LIFE AFTER OIL raises the alarm to the impending survival challenges to face the burgeoning Gulf societies in the post oil era and tackles the ultimate question what will the future look like **Arabian Boundaries** Richard N. Schofield, Gerald Henry Blake, 1988 Globalization and the Gulf John W. Fox, Nada Mourtada-Sabbah, Mohammed Al Mutawa, 2006-09-27 For centuries the Arabian Gulf has been a crossroads where seafaring people and Bedouins alike travelled great distances transacting business Events of the past few years both good and bad have directed the world's attention to the Arabian Peninsula where a rich cultural tradition is rapidly incorporating the latest innovations from around the world This is the process of globalization New economies create enormous potential but it will require great care for the people of the region to steer through a period of profound change Political and economic interests intent on maintaining the flow of petroleum products on one hand and people in the Gulf region who assess their own interests from quite a different perspective on the other exert pressures from conflicting directions Reconciling these interests in a time of rapid globalization poses enormous challenges This timely volume brings together the work of scholars from both the Middle East and the West who have the expertise to evaluate the interaction of new ideas new technologies and new economies Brought together by the American University of Sharjah and the Sociological Association of the UAE the contributors reflect on both the process of globalism and on the traditions of Gulf society and culture offering views on how these trends interact within the global system
