Long Week End A Social History Of Great:

The Long Week-end Robert Graves, Alan Hodge, 1940 The long week end is Robert Graves and Alan Hodge's evocative phrase for the period in Great Britain's social history between the twin devastations of the Great War and World War II. With brilliant wit and trenchant judgments they offer a scintillating survey of seemingly everything that went on of any consequence or inconsequence in those years in politics, business, science, religion, art, literature, fashion, education, popular amusements, domestic life, sexual relations and much else. *Mother of the BBC* Jennifer J. Purcell, 2020-05-14 Mabel Constanduros was one of the first British radio comedienne and a beloved star of the early BBC, best known as the creator and performer of the comic Cockney family, the Bugginses. In this, the first significant biography of Constanduros, Jennifer J. Purcell explores Constanduros's career and influence on the shaping of popular British entertainment alongside the history of the nascent BBC. *Mother of the BBC* provides new insights into programming decisions and content on the early BBC, deepening our understanding of the history and evolution of situation comedy and soap opera. Further, Constanduros's biography considers class in the representation of the British people on BBC radio, the gendered experience and performance of radio celebrity, and the intersections between BBC entertainment and other forms of popular media prior to the advent of television. Constanduros's emphasis on the everyday and the family had far-reaching impacts on the shape of sitcom and soap opera in Britain, two popular lenses through which the nation sees itself at home. Her role in developing entertainment on the BBC and the ways in which she cultivated her career make her the Mother of the BBC, but in constructing a popular image of family life, she might also be considered the Mother of the Nation. **The Making of Modern English Society from 1850** Janet Roebuck, 2005-08-04 In the second half of the nineteenth century and the first half of the twentieth century, a variety of forces emerged which changed society in many profound and subtle ways. *The Making of Modern English Society from 1850* uses the findings of recent historical and sociological research, contemporary literature, and a wide range of historical sources to form a clear picture of the main patterns of the social changes which took place in this turbulent period. Jane Roebuck shows how in these hundred years the whole fabric of society altered more rapidly and radically than in any preceding century. She gives an account of the dramatic change which occurred in all spheres of national life. She demonstrates how the drift towards socialism which began in the nineteenth century gathered momentum in the twentieth and how massive social change was produced by the two world wars. In the field of economics, the author considers the development of the maturing but still primitive industrial economy of the mid-nineteenth century into a modern economy based on mass production and mass consumption. She also describes the change in emphasis from desire for world power to concern for domestic prosperity and welfare services. *History for the IB Diploma: Peacemaking, Peacekeeping: International Relations 1918-36* Nick Fellows, 2012-07-26 An exciting new series that covers the three prescribed subjects for Paper 1 of the IB 20th Century World History syllabus. 1918 1939 is still remembered as a period of mass deprivation the hungry thirties But how did this impression emerge Thousands of conversations about life in the inter war period between parents and children around the dinner table among workmates at the pub shaped these understandings In turn these fed into popular politics Stories about the embryonic welfare system in the early twentieth century informed how people felt towards the National Health Service memories of the Great Depression shaped arguments about state intervention in the economy Challenging accounts of widespread political disengagement in the twentieth century Politics of the Past shows how re telling family stories about the inter war period offered ordinary people an accessible way of engaging in politics Drawing on six local case studies across Scotland and England this book explains how stories about the inter war working class experience in industrial areas came to appear commonplace nationwide

Music for the People James J. Nott, 2002-09-05 Popular music was a powerful and persistent influence in the daily life of millions in interwar Britain yet these crucial years in the development of the popular music industry have rarely been the subject of detailed investigation For the first time here is a comprehensive survey of the British popular music industry and its audience The book examines the changes to popular music and the industry and their impact on British society and culture from 1918 to 1939 It looks at the businesses involved in the supply of popular music how the industry organised itself and who controlled it It attempts to establish the size of the audience for popular music and to determine who this audience was Finally it considers popular music itself how the music changed which music was the most popular and how certain genres were made available to the public
