Lord Bacons Essays With A Sketch Of His

PT Brinkman

Lord Bacons Essays With A Sketch Of His:

Lord Bacon's Essays Francis Bacon, 1867 This book was written To furnish to the English student the best practicable substitute for that classical training which is ordinarily obtained through the study of Latin and Greek We have many valuable works about the English language and literature and enough of instruction how to interpret what we read To give a higher value to these we need critically to read and interpret more good English in our schools For the purposes named above no book seems better adapted as a foundation than Lord Bacon s Essays abounding in classical learning in occasional great felicities of style in solid weighty and ingenious thought also in forms of expression antiquated obsolete and obscure in sentences sometimes elegant sometimes decidedly the reverse and these in many instances not well arranged as to length or structure or distribution into paragraphs of suitable length On these and other accounts these Essays are admirably adapted for critical purposes for the culture of judgment and taste for the comparison of older forms of expression with those approved at the present day and as a preparation for the intelligent and appreciative reading of the great English authors of the seventeenth century so rich in thought in learning and in genius In preparing this work a free use has been made of Archbishop Whately s edition and especially of his learned and sensible Annotations The Sketch of the Life and Character and of the Philosophical Writings of Bacon has been chiefly derived from Macauley s brilliant and learned article on Montagu s Edition of his Works from Dr Kuno Fischer s able work on the Philosophy and Times of Bacon in part also from Devey s Introductory Essay Hallam s Literature for Europe and Craik s and MacFarlane s History of England Introductory
