Ethnobotany, Volume 2 Dr. Suresh Kumar,2019-04-11 Ethnobotany deals with relationship between people and plants Since ancient times plants were used to cure all types of illness and diseases all over the world The traditional knowledge of medicinal valued plants communicated from one generation to another generation and plays a significant role in the development of traditional medicines The ethnobotanical research provides information about medicinal plants that can cure fatal diseases This book has fourteen chapters that include various aspect of Ethnobotany viz Introduction to Ethnobotany Ethnobotany Past Present and Future Ethnobotany and Ayurveda Important Sacred Plants in India Grace of Butter tree Diversity Indigenous use of the Ethnomedicinal flora of various plants of India Ethnobotany and Modern system of Medicine Plants of folklore from myth to magic Different tribal committee of India and Historical journey and its prospective in India This book is highly relevant to innovated and enhance knowledge about Ethnobotany and helpful for undergraduate post graduate students research scholars and faculty The book incorporates chapters authored by eminent botanists who are

working in the field of Ethnobotany since a long time **Regional Development in North-East India** ,1995 Selected papers presented at a seminar organised by North East India Council for Social Science Research on the theme of problems and prospects of balanced development in North East India and the role of North Eastern Council at Shillong **Journal of Rural Development** ,2004 **Population Dynamics in North East India** ,2008 Contributed articles *Indian Geography* Anu Kapur,1998 **Regional Development and Public Policy Challenges in India** Rakhee Bhattacharya,2015-07-09 This book emphasizes the need for experimenting with more deliberate and rigorous policy processes to attain balanced regional development which can promote both equity and efficiency in India s development discourse The institutional mechanisms for dealing with regional imbalance in India have not been very successful so far With rising discrepancies in development demand for autonomy continues along with a new dimension of regionalism arising from submerged identity along with political and economic aspirations which demanded new channels for solution So far attempts to create space for autonomy have possibly not optimally accommodated the conceptual mechanisms like equity and democratic process Thus democratizing policy process using six pillars of voice knowledge objective fundamental values implementation framework and public awareness can ensure a better policy outcome for dealing with the persistent challenges of regional disparity in India This book further focuses on the need for democratizing the policy process for regional development through discussion and inclusion Such a transition needs innovation in policy regime which can be attained through following six pillars i Democratic voice of stakeholders in policy development and implementation ii Clear policy objectives that advance the common good based on voice iii Unbiased sound and comprehensive knowledge and data bases iv Consistency with constitutional values v A sound implementation framework ensuring user friendliness transparency and rationality of decision making processes effective grievance redress clear accountability and independent evaluation vi Public awareness and support of policies with relevant and public participation in implementation Practices in Regional Science and Sustainable Regional Development R. B. Singh,Soumendu Chatterjee,Mukunda Mishra,Andrews José de Lucena,2021-07-12 This book brings together the emerging trends and techniques incorporated in regional science during the first two decades of this millennium The book includes systematic and analytical notes making scientific commentary on the innovative methods of regional development measurement of the development regional development models and policy measures that have significant implications and wide applicability instrumental for India as well as the other global south countries There is clear evidence in the global south of the uneven spatial distribution of resources economic activities literacy and health conditions The most striking fact is the coexistence of development and underdevelopment that makes the planning process complicated This can hardly be explored without taking a deep insight into the matter of how the regional parameters are impacting regional society or economy to shape the development of that region There can be no effective global policy framework that will be effective equally for each and every region to mitigate local issues of society or economy

It is here that the book integrates the efforts of practitioners working towards addressing these regional issues and striving for sustainable regional development through their innovative ideas Through its contributions the book addresses development issues regional impact of climate change social justice migration well being livelihood vulnerabilities and regional urban environmental issues from the standpoint of regional science It is a significant resource for researchers of spatial science and policy makers
