Maurice Blanchot Question De Lécriture:

Maurice Blanchot et la question de l'écriture Françoise Collin, 1971 **Maurice Blanchot et la question de l'écriture** Françoise Collin, 1971 *Sur l'écriture* Yi-fan Pan, 2013

La critique de Maurice Blanchot est elle dirigée par sa pensée philosophique ou par sa pensée littéraire Du fait de son double rôle le critique et le romancier son critique nous paraît pouvoir présenter ces deux genres de pensées philosophique et littéraire La pensée philosophique vise le but de dévoiler la vérité et avec elle la critique devient la représentation qui met en œuvre la pensée dialectique ce titre chaque mot doit correspondre au propos d'un penseur afin que le lecteur puisse le suivre La pensée littéraire repose sur la transformation de ce qui était et avec elle ce qui est critique n'est pas encore critique mais créer un romancier demande au lecteur de chercher le deuxième sens dans son critique autrement dit ce qu'il dit peut ne pas être ce qu'il veut dire C'est de là que viennent deux sortes de critiques l'une dit le vrai l'autre ment Comment le lecteur distingue-t-il la réalité de la littérature de Blanchot En lisant la critique de Blanchot le lecteur parvient-il croire en son auteur qui est aussi un romancier ayant une critique de tournure Nous nous demandons si en crivant Blanchot ne se trompe jamais entre ses deux rôles En ce sens notre thèse interroge sur l'indtermination de la critique de Maurice Blanchot

Maurice Blanchot Annelies Schulte Nordholt, 1995

Interrogation fondamentale sur l'expérience de la critique oeuvre de pensée par le biais de la réflexion philosophique oeuvre de création par le biais de la fiction l'oeuvre de Maurice Blanchot est ici examinée dans toute sa complexité Une approche de l'un des grands critiques de notre temps

The Eroticization of Distance Joseph D. Kuzma, 2016-07-26

In *The Eroticization of Distance* Nietzsche Blanchot and the Legacy of Courtly Love Joseph D Kuzma explores the significance of courtly erotic themes in Friedrich Nietzsche's mature philosophy and in Maurice Blanchot's writings of the 1940s and early 1950s Rather than offering an account of erotic relationality that prioritizes reconciliation fulfillment or release Nietzsche attempts to formulate a nonteleological eroticism that aims at nothing but the perpetual intensification of desire Kuzma suggests that it is Blanchot who carries Nietzsche's courtly erotic tendencies to their most provocative point by highlighting potentials for intimate relationality that might be established through a shared experience of dispossession and loss This first monograph to engage specifically with the theme of eroticism in Blanchot's writings will be of interest not only to students and scholars of Nietzsche Blanchot or French philosophy but also anyone interested in the philosophy of sexuality the history of love theories of the emotions or nineteenth and twentieth century European thought more generally

Encyclopedia of Contemporary Literary Theory Irene Rima Makaryk, 1993-01-01

The last half of the twentieth century has seen the emergence of literary theory as a new discipline As with any body of scholarship various schools of thought exist and sometimes conflict within it I R Makaryk has compiled a welcome guide to the field Accessible and jargon free the *Encyclopedia of Contemporary Literary Theory* provides lucid concise explanations of myriad approaches to literature that have arisen over the past forty years Some 170 scholars from around the world have contributed their expertise to this volume Their work is organized into three parts In Part I forty

evaluative essays examine the historical and cultural context out of which new schools of and approaches to literature arose. The essays also discuss the uses and limitations of the various schools and the key issues they address. Part II focuses on individual theorists. It provides a more detailed picture of the network of scholars not always easily pigeonholed into the categories of Part I. This second section analyses the individual achievements as well as the influence of specific scholars and places them in a larger critical context. Part III deals with the vocabulary of literary theory. It identifies significant complex terms, places them in context and explains their origins and use. Accessibility is a key feature of the work. By avoiding jargon, providing mini bibliographies and cross referencing throughout, Makaryk has provided an indispensable tool for literary theorists and historians and for all scholars and students of contemporary criticism and culture.

L'écriture du bonheur dans le roman contemporain Ruth Amar, 2011-01-18. Through the ages the pursuit of Happiness has been at the heart of the needs and desires each individual would seek to fulfill while as a concept Happiness has always resonated strongly in poetic as well as philosophical, sociological and psychological contexts. But what about Happiness today in a world dominated by technology, driven by productivity and dictated by efficiency? Does Happiness still feature in contemporary fiction in any significant way? Or has it perhaps gone underground, adopting different guises? Would we still call that duty of happiness that Pascal Bruckner saw as present at the second half of the twentieth century a relevant force today? Or has it waned perceptibly? The articles brought together in this volume seek to work out answers to these and similar questions, creatively addressing the imminent risks but also eagerly following up the intriguing possibilities one encounters when interrogating Happiness in the contemporary novel. Originally based on an international conference organized at the University of Haifa, Israel, in May 2010, the volume is structured around the axes we found useful as a basis for the various approaches towards Happiness in Europe and the historical and social events that influenced the writing of Happiness as they defined the 20th century and have impacted on the 21st: the Holocaust, the Soviet dystopia, consumerism, postmodernism, everyday life, the various as yet unarticulated new modes of life they have given rise to and so on. A new writing of happiness then. At the very least, this volume targets the contemporary novel without wanting to solidify works, instead taking into account the fluctuations. Happiness has been subjected to and the diversity and especially the paradoxes it has created while we have been keen to preserve a precise reading of the texts and have felt compelled to respect and preserve the particular features that make the writings of the authors we focus on stand out. Thème philosophique aussi bien que poétique, sociologique et psychologique, le bonheur défie la mesure de chacun. N'est-il pas vrai que nous autres hommes nous dirions tous être heureux? Platon. Or dans notre monde actuel dominé par la technique, la recherche outrance du productif et de l'efficacité, qu'en est-il du bonheur? Est-il encore présent aux critiques romanesques contemporaines? Sous quelles formes se présenterait sa recherche? Ce devoir de bonheur propre à la deuxième moitié du XXe siècle dont parle Pascal Bruckner continue-t-il toujours d'être d'actualité? S'est-il renforcé ou au contraire s'est-il affaibli? Le projet d'un questionnement du bonheur dans le roman contemporain comportait de gros

Cartography of Exhaustion Peter P l Pelbart,2016-03-01 In our current landscape of communicative and connective excess a very novel contemporary exhaustion exacerbated by our relation to the postdigital terrain is ever present The Brazilian philosopher and schizoanalyst Peter P l Pelbart pushes the vital question of our nihililstic age to the limits how can one learn to be left alone live alone and perhaps by way of a Deleuzian absolute solitude conjure a vitality for living again and indeed finding something truly worthy of saying Through various poetic meanderings and meditations and building on the works of Blanchot Musil Guattari and Delingy among others Pelbart reestablishes the possibility of fighting off the exhaustion of our current state of affairs For Pelbart we must chart the cartography of exhaustion as if it were a sort of molecular symptomology

New Perspectives on Sartre Adrian van den Hoven,Adrian Mirvish,2010-05-11 This volume deals with a number of topics that have not previously been specifically addressed before in a single text A chapter on Sartre and religion talks about his thought in relation to Christianity Judaism and Buddhism while one on Sartre and children discusses his work in relation to the issues of freedom pregnancy and autism Beyond this there are an additional seven chapters covering a wide variety of topics by leading scholars in the fields of philosophy literature psychology history and political thought While prior publications on Sartre have generally divided his work into two periods pre and post Marxist this volume deliberately stresses a middle and final period as well As representative of the middle period there is an emphasis on Notebooks for an Ethics while Sartre s last work Hope Now is also treated as being philosophically significant in its own right This approach helps to cast a new light on what Sartre has to say about authenticity childhood and consciousness as embodied among other subjects The volume also addresses many and diverse issues of current interest including those of freedom Marxism and Sartre s relation to ethics There are sections of the book that deal with history and the historical situations that helped to shape Sartre s thought as well as articles that deal with Sartre as a specifically French thinker A chapter deals with Sartre s relation to women and here the issues of maternity as

problematic plus authentic adult relationships are discussed Finally in addition to authors in philosophy and literature there are articles by a child psychiatrist and a clinical psychologist to help to provide new insights on Sartre's work Even as an academic philosopher Sartre always remained an iconoclast and the aim of this book is at least partially to capture and provide the reader with insight into this spirit **The Thinking of the Master** Peter Burger,2002-12-26 Mastery of many sorts emerges in new configurations in Peter Burger's book as an idea developed by Hegel in the master slave dialectic in his Phenomenology of Spirit as a quality embodied in the work of certain 20th century master thinkers and not least in the expertise of Burger himself as he negotiates and clarifies a critical intersection of contemporary French and German thought Burger here considers what several seminal thinkers Bataille Blanchot Barthes Foucault Lacan Derrida Heidegger as well as novelist Michel Tournier owe to Hegel's dialectic and measures their accomplishment against the avant garde project Each of his essays in this volume stands alone as a valuable exposition of a significant strain of postmodern thought Together they illuminate much of the landscape of 20th century intellectual and cultural history **The Burnt Book** Marc-Alain Ouaknin,2024-05-14 A profound look at what it means for new generations to read and interpret ancient religious texts In this book rabbi and philosopher Marc Alain Ouaknin offers a postmodern reading of the Talmud Combining traditional learning and contemporary thought Ouaknin dovetails discussions of spirituality and religious practice with such concepts as deconstruction intertextuality undecidability multiple voicing and eroticism in the Talmud On a broader level he establishes a dialogue between Hebrew tradition and the social sciences which draws for example on the works of Levinas Blanchot and Jabès as well as Derrida The Burnt Book represents the innovative thinking that has come to be associated with a school of French Jewish studies headed by Levinas and dedicated to new readings of traditional texts The Talmud transcribed in 500 C.E. is shown to be a text that refrains from dogma and instead encourages the exploration of its meanings A vast compilation of Jewish oral law the Talmud also contains rabbinical commentaries that touch on everything from astronomy to household life Examining its literary methods and internal logic Ouaknin explains how this text allows readers to transcend its authority in that it invites them to interpret discuss and recreate their religious tradition An in depth treatment of selected texts from the oral law and commentary goes on to provide a model for secular study of the Talmud in light of contemporary philosophical issues Throughout the author emphasizes the self effacing quality of a text whose worth can be measured by the insights that live on in the minds of its interpreters long after they have closed the book He points out that the burning of the Talmud in anti Judaic campaigns throughout history has in fact been an unwitting act of complicity with Talmudic philosophy and the practice of self effacement Ouaknin concludes his discussion with the story of the Hasidic master Rabbi Nahman of Bratslav who himself burned his life achievement a work known by his students as the Burnt Book This story leaves us with the question should all books be destroyed in order to give birth to thought and renew meaning **Historical Dictionary of French Literature** John Flower,2013-01-17 Almost all of us know French literature even if we don't know French because it

is probably the second largest and certainly the most translated into English And even if we don't read we would have seen film and television versions think *Count of Monte Cristo* and even a musical rendition *Les Mis* So this is a particularly interesting volume in the literature series since it covers French literature from the earliest times to the present It is also a particularly rich literature espousing every genre from poetry to novel to biography to drama and adopting every style including realism and surrealism and expressing the views of all classes and political stands with recently strong feminist and gay strains Obviously the core dictionary section includes among its panoply of often substantial and detailed entries hundreds of authors dozens of significant works the various styles mentioned above and many others events that have impacted literature such as the Dreyfus Affair and the Algerian War and literary prizes The chronology manages to cover about 1 200 years of literary output And the introduction sets it all out neatly from one historical and literary period to the next The bibliography broken down by period and author directs us to further reading in both French and English

Of Words and the World David R. Ellison, 1993-03-22 Here David Ellison explores the problems encountered by France's best experimental authors writing between 1956 and 1984 when faced with the question What should my writing be about These years are characterized by the rise of the new novelists who questioned the representational function of writing as they created works of imagination that turned in upon themselves and away from exterior reality It became fashionable at one point to affirm that literature was no longer about the world but uniquely about the words on a page the signifying surface of the text Ellison tests this assumption showing that even in the most seemingly self-referential fictions the words point to the world from which they can never completely separate themselves Through close readings Ellison examines the novels and theoretical writings of authors whose works are fundamental to our perception of contemporary French writing and thought Camus Robbe-Grillet Simon Duras Sarraute Blanchot and Beckett The result is a new understanding of the link between the referential function of literary language and the problematic of the ethics of fiction

[Words](#) Ernst van den Hemel, Asja Szafraniec, 2016-06-15 A wide-ranging anthology of essays that examine the uses purposes and influence of religious language It is said that words are like people One can encounter them daily yet never come to know their true selves This volume examines what words are how they exist in religious phenomena Going beyond the common idea that language merely describes states of mind beliefs and intentions the book looks at words in their performative and material specificity The contributions in this volume examine and employ a number of linguistic and semiotic ideologies They develop the insight that our implicit assumptions about language guide the way we understand and experience religious phenomena They also explore the possibility that insights about the particular status of religious utterances may in turn influence the way we think about words in our language

historical moment after Auschwitz still remains of the questions traditionally asked by theology What now is theology's minimal degree This magisterial study the first extended comparison of the writings of Theodor W Adorno and Emmanuel Levinas explores remnants and echoes of religious forms in these thinkers critiques of secular reason finding in the work of both a theology in pianissimo constituted by the trace of a transcendent other The author analyzes systematizes and formalizes this idea of an other of reason In addition he frames these thinkers innovative projects within the arguments of such intellectual heirs as Jürgen Habermas and Jacques Derrida defending their work against later accusations of performative contradiction by Habermas or empiricism by Derrida and in the process casting important new light on those later writers as well Attentive to rhetorical and rational features of Adorno's and Levinas's texts his investigations of the concepts of history subjectivity and language in their writings provide a radical interpretation of their paradoxical modes of thought and reveal remarkable and hitherto unsuspected parallels between their philosophical methods parallels that amount to a plausible way of overcoming certain impasses in contemporary philosophical thinking In Adorno this takes the form of a dialectical critique of dialectics in Levinas that of a phenomenological critique of phenomenology each of which sheds new light on ancient and modern questions of metaphysics ethics and aesthetics For the English language publication the author has extensively revised and updated the prize winning German version *Kundera and the Ambiguity of Authorship* Christine Angela Knoop, 2011 The scholarly debate about authorship has not only transcended all aspects of literary studies but has also prompted contemporary authors to counter subvert and challenge it One author to whom this applies in particular is Milan Kundera In this study Christine Knoop re-examines Kundera's essayistic and novelistic work against the background of the theoretical paradigms of literary authority intention and ownership In so doing she demonstrates how he overcomes traditional theoretical distinctions by postulating the existence of both a strong powerful author figure and of potentially boundless literary meaning Kundera's radically ambiguous conception of the author in the novel developed primarily to influence the reader is discussed and developed to cast new light on the critical debate about authorship at large while maintaining his primary conjecture that authorship as such is perpetually hybrid dynamic and unfinished Christine Angela Knoop is a Postdoctoral Research Associate for Comparative Literature at Freie Universität Berlin *Migrant Masculinities in Women's Writing* Ashwiny O. new society **Intrigues** Gabriel Riera, 2006 This book examines the possibility of writing the other and explores whether an ethical writing that preserves the other as such is possible It also discusses what the implications are for an ethically inflected criticism Emmanuel Levinas and Maurice Blanchot whose works constitute the most thorough contemporary exploration of the question of the other and of its relation to writing are Riera's main focus Critics in recent years have discussed an ethical moment or turn characterized by the other's irruption into the order of discourse The other becomes a true crossroads of disciplines since it affects several aspects of discourse the constitution of the subject the status of knowledge the nature of representation and what that representation represses gender power Through close readings of texts by Heidegger Levinas and Blanchot this book examines how the question of the other engages the very limits of philosophy rationality and power
