The Economy of a Norse Settlement in the Outer Hebrides Niall Sharples, 2020-11-23 This book explores the economic evidence for the settlement at Bornais on South Uist It reports in detail on the large assemblages of material found during the excavations at mounds 2 and 2A There is important evidence for craft activity such as bone and antler working and this includes the only comb making workshop from a rural settlement in Britain A large proportion of the copper alloy bone and antler assemblages comprise pieces of personal adornment and provide important information on the dress and thereby social relations within the settlement occupation There is a large assemblage of iron tools and fittings which provides important information on the activities taking place at the settlement The information derived from the artefact assemblages is complemented by that provided by the ecofactual material Large amounts of animal fish and bird bones plus carbonised plant remains provide detailed information on agricultural practices and the processing preparation and consumption of foodstuffs It is clear that the Norse inhabitants of the settlement had access to a much richer variety of resources than had been exploited before the Viking colonisation of the region The settlement also had a significantly wider range of connections material culture indicates contacts to the south with the Irish Sea ports and Bristol and to the north with Shetland and the Viking homelands of Norway The evidence produced by these excavations is exceptional and provides an unparalleled opportunity to explore medieval life in the Scandinavian kingdoms of Western Britain *Machine Translation* Bonnie Jean Dorr, 1993 This book describes a novel cross linguistic approach to machine translation that solves certain classes of syntactic and lexical divergences by means of a lexical conceptual structure that can be composed and decomposed in language specific ways This approach allows the translator to operate uniformly across many languages while still accounting for knowledge that is specific to each language Ithyanna, Last Daughter of Atlantis Book II Don Edward Cook, 2024-07-03 KIDNAPPED AND ENSLAVED BY ALIENS The Flood of Noah has ended Much of Earth is in an Ice Age And Ithyanna Last Daughter of Atlantis swims around the world ocean at the command of the Lion of Judah waiting for His next command Suddenly an alien spacecraft and its occupants capture Ithyanna probe her mind and enslave her Among her fellow captives are famous persons like Elvis Presley Amelia Earhart and Jimmy Hoffa and more obscure people such as a hostile 1960s female Black Panther a disgruntled British World War II veteran from 1970 and Ithyanna's aunt whom she has never met and had a disdain for her younger sister Ithyanna's mother All of them and countless other abductees are forced to mine a nefarious substance with endless industrial applications but whose fumes are fatal to humans Then Ithyanna and many other abductees are forced into mortal combat to fight each other to amuse their bloodthirsty alien masters until Ithyanna demands a fight to the death with Ultra Queen Xulra who is also the devil's daughter With the aid of a benevolent philanthropist adventurer alien and his armada the humans fight back against Xulra's minions as Ithyanna battles Xulra herself in a war that will determine the fate of the universe Will Ithyanna and her comrades be destroyed by Xulra and her subjects or will

she and her fellow freedom fighters win the day and gain freedom and create a new nation based on righteous freedom
