Business Models and Strategies for Open Source Projects Monaco, Francisco José, 2023-07-17 Since its emergence in the mid 1980s through the protagonism of free software and open source movements the concept of freely shareable technology has steadily established itself in the following decades to enter the 21st century as a leading

industrial paradigm From the original ambit of software technology the principles of collaborative construction of publicly accessible knowledge grounding the open source paradigm have been extended to embrace any intellectual artifact made available under non exclusive rights of utilization development and distribution It is noteworthy however that whilst on one hand it is not difficult to enumerate advantages of the use of open source products by individuals and organizations whether related to cost reduction socio technological inclusion governance of technology development security and privacy transparency among others on the other hand it is not as immediate to identify their motivation to develop open source technology While there may surely be initiatives driven by either ethical grounds personal avocation or public policies those reasons alone do not explain the lasting success of many large community driven projects nor why large commercial enterprises massively invest in open source development Business Models and Strategies for Open Source Projects investigates the rationales and the strategy underlying companies decisions to produce and release open source products as well as which business models have succeeded Covering topics such as embedded systems open source ecosystems and software companies this premier reference source is a valuable resource for entrepreneurs business leaders and managers students and educators of higher education librarians software developers researchers and academicians *Free/open Source Software Development* Stefan Koch,2005-01-01 Free Open Source Software Development uses a multitude of research approaches to explore free and open source software development processes attributes of their products and the workings within the development communities *EuroPLoP 2009 Proceedings* Allan Kelly,2011 *On The Move to Meaningful Internet Systems 2003: CoopIS, DOA, and ODBASE* Zahir Tari,Douglas C.
