Daughtridge,2020-01-06 My book is about everything that I know about my family both about my mother s and father s side of the family in addition to my interactions towards or with each of them I was inspired by a late great maternal uncle to pursue such a project First I re collected everything that I could about various family members It was simply a matter of thinking about what I know and what I could jot down on paper in the comfortable setting of my home or automobiles I conducted a vast number of interviews from members of each side of the family This was after I organized a family tree and decided to proceed from that Those interviews led me to further interviews Wherever and whenever I could I got many telephone numbers and e mail addresses Sometimes I researched the Internet when given information about their affiliations or personal pursuits I utilized other sources in addition to interviews Some sources included obituaries books magazines newspaper articles and just plain statistics regarding whatever endeavors they had such as with my only child Pursuing this type of manuscript required hard work devotion and perseverance This book serves as an encouragement to others to do family research and record whatever they find One should only seek the positive and sidestep the negative One derives a great deal of joy and satisfaction from engaging in such a project This work is a reflection of you and how you see things in the lense of your life I hope that many who read this book take it upon themselves to do the same as I have done Doing this work was truly a joy and a blessing **Charles Johnson's Novels** Rudolph P. My Knowledge and My Memories of My Family James Daughtridge,2015-07-31 This book is about what I remember about many members of my family and about the knowledge I obtained about them through various interviews and written sources e g obituaries newspapers and articles I found on the Internet The book follows a certain order I describe what I remember about my immediate family members I start off with my father then my mother and then my brotherthe only

sibling I ever had I then discuss my life with my ex wife and her family and then the only child we ever had I go on to another chapter or maybe the third chapter and talk about my paternal grandfathers family and as much of what I could remember about my maternal grandmothers family I know and discovered more about the former than the latter I enhanced my discussion throughout the book with as many pictures as I could gather The book has pictures anywhere from one to about eighty years old This I thought would make the book more interesting and lively The book is replete with explanatory footnotes for those of certain generations or knowledge who may not understand or know of certain places celebrities cultural practices and events The entire book was prepared to relate to all who might read it in terms of family connections their interest s in travel history sports genealogy and biography I then talk about my maternal grandmothers family It is relatively short because I did not know too many of them that well The book covers mostly what I know and found out about my maternal grandfathers family That is because it is the largest segment of my entire family My father had no siblings whereas my mother had about ten or eleven siblings and all of them had children and grandchildren I discovered a great deal more accomplishments in life on my mothers side as opposed to my fathers side of the family I do not think the book is boring or particularly too long or too short The book is a description of the life of the people whom I discuss and how I might have fitted into those lives
