circumstances and tools for the construction of a truly balanced European intellectual property system The book takes as its starting point that the ultimate aim of such a system should be to ensure sustainable and innovation based economic growth while enhancing free circulation of ideas and cultural expressions Being the first in the European Intellectual Property Institutes Network EIPIN series this book lays down some concrete foundations for a deeper understanding of European intellectual property law and its complex interplay with other fields of jurisprudence as well as its impact on a broad array of spheres of social interaction In so doing it provides a well needed platform for further research Academics policymakers lawyers and many others concerned with establishment of a regulatory framework for intangibles in the EU will benefit from the extensive and thoughtful discussion presented in this work *Japan's New Party System* Ronald J Hrebenar, 2019-08-15 The authors of this book have joined together for a third time to produce a book on Japanese political parties and elections The first two books under the title of *The Japanese Party System* were also published by Westview Press in 1986 and 1992 This book *Japan's New Party System* has a different purpose than the previous volumes The first two books had as their task the presentation of a vast amount of material on the various parties of the 1955-1993 party system Since 1955 Japanese politics and parties had been rather uneventful and predictable consequently many Japanese political scientists preferred to study other nations Decade after decade the Liberal Democratic Party LDP ruled Japan while the permanent opposition party the Japan Socialist Party JSP revolved around it but could never even come close to replacing it in power on the national level All of this changed in 1993 after the LDP split new parties emerged and formed a non LDP government and a new party system began This book is about the Second Party System and how Japanese politics has changed from the old LDP dominated First Party System **2012: Awakening to the Truth** Bob Hodgson, *Information Communication Technologies for Enhanced Education and Learning: Advanced Applications and Developments* Tomei, Lawrence A., 2008-12-31 This book offers an examination of technology based design development and collaborative tools for the classroom Provided by publisher *Contemporary Issues in Regional Planning* John Glasson, 2017-11-01 This title was first published in 2002 Regional planning and government in the UK is undergoing a period of tremendous activity with a wide range of new policies innovative techniques and experiments being tested This volume provides an overview of developments describing and analyzing the legislative political and economic contexts within which changes are occurring and assessing the continuing difficulties that face planners and others operating in the new arrangements for regional planning
