Reece,2008-10-30 Does the giant Yeti roam the mountain ranges of Tibet Does a real life Shangri La lie waiting to be discovered in a Himalayan valley Do transmissions from lost civilizations beam messages of salvation to humankind What lost creatures lurk in the murky depths of Scotland s brooding Loch Ness And who or what is responsible for the implacable monoliths which tower over Easter Island The obsession that so many now have with the uncanny and the unnatural is in itself a mystery It prompts serious questions which could have remarkable answers Drinking deep from the wells of esoteric knowledge Greg Reece undertakes a heroic quest for solutions Braving the darkest recesses of cult belief he stalks the twilight borderlands of contemporary culture where at the outer edges of mainstream thought things become downright freaky and outlandish Taking his life in both hands the author explores a subterranean cavern reputed to be the home of elusive blue skinned troglodytes goes hiking in the backwoods for a glimpse of Bigfoot investigates the truth of Alternative Archaeology in search of Atlantis and tests for himself the time travel and anti gravity theories of famed inventor Nikola Tesla Unashamedly revelling in the unexplained Weird Science and Bizarre Beliefs is both a penetrating analysis of the hidden underbelly of science pseudo science and religion as well as an unforgettable journey into the innermost depths of the fantastic the extraordinary and the peculiar I Speak of the City

Mauricio Tenorio-Trillo,2015-02-24 In this dazzling multidisciplinary tour of Mexico City Mauricio Tenorio Trillo focuses on the period 1880 to 1940 the decisive decades that shaped the city into what it is today Through a kaleidoscope of expository forms I Speak of the City connects the realms of literature architecture music popular language art and public health to investigate the city in a variety of contexts as a living history textbook as an expression of the state as a modernist capital as a laboratory and as language Tenorio s formal imagination allows the reader to revel in the free flowing richness of his narratives opening startling new vistas onto the urban experience From art to city planning from epidemiology to poetry this book challenges the conventional wisdom about both Mexico City and the turn of the century world to which it belonged And by engaging directly with the rise of modernism and the cultural experiences of such personalities as Hart Crane Mina Loy and Diego Rivera I Speak of the City will find an enthusiastic audience across the disciplines **Earthquake and the Invention of America**

Anna Brickhouse,2024-09-17 Earthquake and the Invention of America The Making of Elsewhere Catastrophe explores the role of earthquakes in shaping the deep timeframes and multi hemispheric geographies of American literary history Spanning the ancient world to the futuristic continents of speculative fiction the earthquake stories assembled here together reveal the emergence of a broadly Western cultural syndrome that became an acute national fantasy elsewhere catastrophe an unspoken but widely prevalent sense that catastrophe is somehow un American Catastrophe must be elsewhere because it affirms the rightness of here where conquest according to the syndrome s logic did not happen and is not occurring The psychic investment in elsewhere catastrophe coalesced slowly across centuries varieties of it can be found in various European traditions of the modern Yet in its most striking modes and resonances elsewhere catastrophe proves fundamental to the invention of US America which is

why earthquake as the exemplary elsewhere catastrophe is the disaster that must always happen far away or be forgotten  
 The book's eight chapters and epilogue range from Plato to the Puritans from El Inca Garcilaso de la Vega and Voltaire to  
 Herman Melville and N K Jemisin examining along the way the seismic imaginings of Edgar Allan Poe James Fenimore  
 Cooper Frederick Douglass Emily Dickinson and Jose Mart among other writers At the core of the book's inquiries are the  
 earthquakes historical and imagined that act as both a recurrent eruptive force and a provocation for disparate modes of
