The Seven Day Circle Eviatar Zerubavel, 1989-03-15 Days months and years were given to us by nature but we invented

the week for ourselves There is nothing inevitable about a seven day cycle or about any other kind of week it represents an arbitrary rhythm imposed on our activities unrelated to anything in the natural order But where the week exists and there have been many cultures where it doesn't it is so deeply embedded in our experience that we hardly ever question its rightness or think of it as an artificial convention for most of us it is a matter of second nature *Dictionary Catalog of the Research Libraries of the New York Public Library, 1911-1971* New York Public Library.
