Excavations in Residential Areas of Tikal--Group 7F-1 William A. Haviland, 2015-11-24 Excavations in Residential Areas of Tikal Nonelite Groups Without Shrines is a two volume presentation of the excavations carried out in and near small residential structures at Tikal Guatemala Tikal Report 20A is a descriptive presentation of the excavation data and includes nearly two hundred illustrations **Breaking the Maya Code (Third Edition)** Michael D. Coe, 2012-02-27 The inside story of one of the great intellectual breakthroughs of our time the first great decipherment of an ancient script now revised and updated In the past dozen years Maya decipherment has made great strides in part due to the Internet which has made possible the truly international scope of hieroglyphic scholarship glyphic experts can be found not only in North America Mexico Guatemala and western Europe but also in Russia and the countries of eastern Europe The third edition of this classic book takes up the thorny question of when and where the Maya script first appeared in the archaeological record and describes efforts to decipher its meaning on the extremely early murals of San Bartolo It includes iconographic and epigraphic investigations into how the Classic Maya perceived and recorded the human senses a previously unknown realm of ancient Maya thought and perception There is now compelling documentary and historical evidence bearing on the question of why and how the breaking of the Maya code was the achievement of Yuri V Knorosov a Soviet citizen totally isolated behind the Iron Curtain and not of the leading Maya scholar of his day Sir Eric Thompson What does it take to make such a breakthrough with a script of such complexity as the Maya We now have some answers as Michael Coe demonstrates here *Global Maya* Liliana R. Goldín, 2011-04-15 In the central highland Maya communities of Guatemala the demands of

the global economy have become a way of life This book explores how rural peoples experience economic and cultural change as their country joins the global market focusing on their thoughts about work and sustenance as a way of learning about Guatemala's changing economy For more than a decade Liliana Gold n observed in highland towns both the intensification of various forms of production and their growing links to wider markets In this first book to compare economic ideology across a range of production systems she examines how people make a living and how they think about their options practices and constraints Drawing on interviews and surveys even retellings of traditional narratives she reveals how contemporary Maya respond to the increasingly globalized yet locally circumscribed conditions in which they work Gold n presents four case studies cottage industries devoted to garment production vegetable growing for internal and border markets reached through direct commerce crops grown for export and wage labor in garment assembly factories By comparing generational and gendered differences among workers she reveals not only complexities of change but also how these complexities are reflected in changing attitudes understandings and aspirations that characterize people's economic ideology Further she shows that as rural people take on diverse economic activities they also reinterpret their views on such matters as accumulation cooperation competition division of labor and community solidarity Global Maya explores global processes in local terms revealing the interplay of traditional values household economics and the inescapable conditions of demographic growth a shrinking land base and a global economy always looking for cheap labor It offers a wealth of new insights not only for Maya scholars but also for anyone concerned with the effects of globalization on the Third World
