and experiences a host of other erratic disturbances none of which his doctors can explain Leo 53 a research scientist and Addie a collage artist have a loving and happy marriage They d planned on many more years of work and travel dinner with friends quiet evenings at home with the cat But as Leo s periods of lucidity become rarer those dreams fall away and Addie finds herself less and less able to cope with an increasingly unbearable present Eventually Leo is diagnosed with early onset dementia in the form of Lewy body disease Life expectancy ranges from 3 to 20 years A decidedly uncharacteristic act of violence makes it clear that he cannot live at home He moves first to an assisted living facility and then to a small apartment with a caretaker where over time he descends into full cognitive decline Addie s agony anger and guilt result in self imposed isolation which mirrors Leo s diminished life And so for years all she can do is watch him die too soon and yet not soon enough Kirshenbaum captures the pair s final years months and days in short scenes that burn with despair dark humor and rage tracking the brutal destruction of the disease as well as the moments of love and beauty that still exist for them

Making Surveillance States Robert Heynen, Emily van der Meulen, 2019-08-22 Making Surveillance States Transnational Histories opens up new and exciting perspectives on how systems of state surveillance developed over the nineteenth and twentieth centuries Taking a transnational approach the book challenges us to rethink the presumed novelty of contemporary surveillance practices while developing critical analyses of the ways in which state surveillance has profoundly shaped the emergence of contemporary societies Contributors engage with a range of surveillance practices including medical and disease surveillance systems of documentation and identification and policing and security These approaches enable us to understand how surveillance has underpinned the emergence of modern states sustained systems of state security enabled practices of colonial rule perpetuated racist and gendered forms of identification and classification regulated and policed migration shaped the eugenically inflected medicalization of disability and sexuality and contained dissent While surveillance is thus bound up with complex relations of power it is also contested Emerging from the book is a sense of how state actors understood and legitimized their own surveillance practices as well as how these practices have been implemented in different times and places At the same time contributors explore the myriad ways in which these systems of surveillance have been resisted challenged and subverted
