## **Maybe Yes Maybe No A Guide For Young Skeptics:**

**Maybe Yes, Maybe No** Dan Barker, 2011-03-04 In today's media flooded world there is no way to control all of the information claims and enticements that reach young people The best thing to do is arm them with the sword of critical thinking Maybe Yes Maybe No is a charming introduction to self confidence and self reliance The book's ten year old heroine Andrea is always asking questions because she knows you should prove the truth of a strange story before you believe it Check it out Repeat the experiment Try to prove it wrong It has to make sense writes Barker as he assures young readers that they are fully capable of figuring out what to believe and of knowing when there just isn't enough information to decide You can do it your own way If you are a good skeptic you will know how to think for yourself *Maybe Yes, Maybe No* Dan Barker, 1990-10-01 Encourages having an open mind and checking things out to find the truth rather than blindly accepting everything we hear **CHRISTIANITY IS AN ARTIFICIAL RELIGION DEVELOPED IN THE LABORATORIES OF**

**ROME** Mammadov, Jabbar Manaf oglu, 2023-01-23 The book claims that Christianity was a project of Rome and was invented in its laboratories like Qumran Under the Achaemenids and even earlier in the entire Middle East up to India there lived Arameans half of whom professed Judaism or were to some extent influenced by the Bible In order to split their front and turn this force of theirs against themselves Rome organized secret centers for the study of the Hebrew Bible in different parts of the empire where the predictions of the former Jewish prophets were analyzed The remains of some of these centers are found today on the coast of the Dead Sea for example at Qumran Mossad etc In these laboratories think tanks the image of a new preacher teacher of righteousness named Jesus of Nazareth was fabricated Using the method of adjusting events and biography to the prophecies of the Hebrew prophets Roman political technologists came up with a biography demeanor and texts of sermons for this fictional character corresponding to the predictions After the harsh suppression of the Jews during the First Jewish War 66-77 Rome was in dire need of agents of influence in order to curb the aggression of the people and reconcile them with defeat It is at this stage that the image of the hitherto unknown Jesus enters the historical arena This fictional Jewish character called his people to humility patience calmness obedience to Rome He offered not to blame Rome for anything and to look for the roots of all troubles in himself and in the Jewish Bible Christian pacifism and Christian anti-Semitism All the power of the propaganda machine of Rome was connected to the promotion of his ideas in the Middle East It was at this time after the First Jewish War that the entire Middle East was enveloped in a boom of missionaries in the guise of prostitutes merchants merchants artisans travelers teachers mentors apostles philanthropists etc agents of influence propagating ideas this fictitious prophet As the ideas of Christianity spread a split and confrontation began to grow in the Jewish community which the Roman administrative bodies tried to do Guided by its standard policy of Divide and Conquer Rome used these methods to oppose different layers of the Aramaean Jewish society weakened and very easily conquered the entire Middle East and the Black Sea region Before the final rooting of a new artificial religion Christianity in the Middle East

and the Black Sea region Rome carefully camouflaged its participation in its formation so as not to extradite its agents abroad and not disclose their source of funding It is worth emphasizing that being a Muslim the author does not belong to the Jewish religion In this book he approaches the problem from a purely scientific point of view and does not pursue any religious or ethno political goal Sometimes the author s pronounced anti Roman inclination is connected with the cultural role of Rome in history due to which the entire pre Roman history culture science of the Middle East and Europe created over several thousand years was wiped off the face of the Earth

**God** Dan Barker,2023-05-15 What words come to mind when we think of God Merciful Just Compassionate In fact the Bible lays out God s primary qualities clearly jealous petty unforgiving bloodthirsty vindictive and worse Originally conceived as a joint presentation between influential thinker and bestselling author Richard Dawkins and former evangelical preacher Dan Barker this unique book provides an investigation into what may be the most unpleasant character in all fiction Barker combs through both the Old and New Testament as well as 13 different editions of the Good Book presenting powerful evidence for why the Scripture shouldn t govern our everyday lives This witty well researched book suggests that we should move past the Bible and clear a path to a kinder and more thoughtful world

**50 Popular Beliefs That People Think Are True** Guy P. Harrison,2012-01-03 What would it take to create a world in which fantasy is not confused for fact and public policy is based on objective reality asks Neil deGrasse Tyson science popularizer and author of Astrophysics for People in a Hurry I don t know for sure But a good place to start would be for everyone on earth to read this book Maybe you know someone who swears by the reliability of psychics or who is in regular contact with angels Or perhaps you re trying to find a nice way of dissuading someone from wasting money on a homeopathy cure Or you met someone at a party who insisted the Holocaust never happened or that no one ever walked on the moon How do you find a gently persuasive way of steering people away from unfounded beliefs bogus cures conspiracy theories and the like This down to earth entertaining exploration of commonly held extraordinary claims

will help you set the record straight The author a veteran journalist has not only surveyed a vast body of literature but has also interviewed leading scientists explored the most haunted house in America frolicked in the inviting waters of the Bermuda Triangle and even talked to a contrite Roswell alien He is not out simply to debunk unfounded beliefs Wherever possible he presents alternative scientific explanations which in most cases are even more fascinating than the wildest speculation For example stories about UFOs and alien abductions lack good evidence but science gives us plenty of reasons to keep exploring outer space for evidence that life exists elsewhere in the vast universe The proof for Bigfoot or the Loch Ness Monster may be nonexistent but scientists are regularly discovering new species some of which are truly stranger than fiction Stressing the excitement of scientific discovery and the legitimate mysteries and wonder inherent in reality this book invites readers to share the joys of rational thinking and the skeptical approach to evaluating our extraordinary world
