small group of Army National Guardsmen led by Sergeant John Powers are ordered to move from their host base in central Massachusetts to the Catskills to assist the small detachment stationed there and maintain order. These men begin the move and enlist the support of people from small towns in their efforts to reach the Catskills. This combined unit soon arrives at the location and discovers the location of the CDC lab and together with the help of the troops already there begin to establish order and issue inoculations to the thousands of people arriving as well. In the meantime convicts escaping from prisons in New York push to get the cure as well though they have different intentions. Rather than help others they plan to take the cure for themselves and establish a monarchy with Larry Andrews one of their own as King of the area. As the convicts approach the location they encounter the troops there and soon both sides the convicts led by Andrews and the troops now led by Powers clash in a battle that will determine the fate of those who have survived. Andrews commands a hard core group of freed criminals and with the assistance of Mafia elements has created a well armed and increasingly dangerous force. Powers supported by a small group of dedicated and hard working companions have created a council to govern the land by creating a republic and the discovery of a castle in the town of Liberty where they store the remnants of the CDC personnel and hope to protect the cure for anyone in need while trying to maintain order and reestablish order. In the end the convicts break through the territory controlled by Powers and the republic and in an all out effort attempt to storm the castle where they have learned the cure is being stored to take it for themselves. Outnumbered and outgunned Powers and the council do what they can to protect what they have built. With the stage set both sides engage in an all out battle for control of the cure with both sides desperate to control the cure. In the end desperate people on both sides struggle to control the cure which will decide the fate of millions around the world.
