Mitchell, 2007 Once nearly as ubiquitous as dictionaries and cookbooks are today letter writing manuals and their predecessors served to instruct individuals not only on the art of letter composition but also in effect on personal conduct Poster and Mitchell contend that the study of letter writing theory which bridges rhetorical theory and grammatical studies represents an emerging discipline in need of definition In this volume they gather the contributions of eleven experts to sketch the contours of epistolary theory and collect the historic and bibliographic materials from Isocrates to email that form the basis for its study      *The Manuals of Business Management* , 1927      *International Business Correspondence* Sinee Sankrusme, 2017-03-13 International business correspondence is not simply writing or information exchange It is something that you want others to know about you to know about your business and the way you deal with business transactions It is by the way you create your letter that your reader can identify whether you are friendly rude or you just simply want to do business Your letter shows your attitude This is one reason why it is important to consider your way of writing write professionally and with courtesy Success of business transactions is not only dependent on your ability to talk and communicate verbally but also the way you communicate in letters How important is learning the proper way of writing business letters This book will help you to improve your written communication by guiding you through the steps and guidelines of making an effective letter Aside from that you will learn to see that planning is important Gathering information and doing some research will help you As you go through answer complaints it will save you to make adjustments it is important and friendly to reply to inquiries it is good to be precise in your quotations it is proper to acknowledge placed orders or acknowledge payment it is worth to check all outgoing orders for shipment and delivery it is important to have an insurance policy it is tedious to deal internationally without bank transactions and it is by connection that you can increase your sales You need to connect to your customers and readers in order to build a good working relationship If you are able to establish a good relationship they will value you as their business partners Skills in creating business letters are important
