Philosophy And Politics Of Czech Dissidence From Patocka To Havel:

The Philosophy and Politics of Czech Dissidence from Patocka to Havel Aviezer Tucker, 2000-08-15 Winner of the Foundations of Political Theory First Book Prize Honorable Mention 2001 Theory meets practice in The Philosophy and Politics of Czech Dissidence from Patocka to Havel a critical study of the philosophy and political practice of the Czech dissident movement Charter 77 Aviezer Tucker examines how the political philosophy of Jan Patocka 1907 1977 founder of Charter 77 influenced the thinking and political leadership of Vaclav Havel as dissident and president The Philosophy and Politics of Czech Dissidence from Patocka to Havel is the first serious treatment of Havel as philosopher and Patocka as a political thinker Through the Charter 77 dissident movement in Czechoslovakia opponents of communism based their civil struggle for human rights on philosophic foundations and members of the Charter 77 later led the Velvet Revolution After Patocka's self sacrifice in 1977 Vaclav Havel emerged a strong philosophical and political force and he continued to apply Patocka's philosophy in order to understand the human condition under late communism and the meaning of dissidence However the political philosophical orientation of the Charter 77 movement failed to provide President Havel with an adequate basis for comprehending and responding to the extraordinary political and economic problems of the postcommunist period In his discussion of Havel's presidency and the eventual corruption of the Velvet Revolution Tucker demonstrates that the weaknesses in Charter 77 member's understanding of modernity which did not matter while they were dissidents seriously harmed their ability to function in a modern democratic system Within this context Tucker also examines Havel's recent attempt to topple the democratic but corrupt government in 1997 1998 The Philosophy and Politics of Czech Dissidence from Patocka to Havel will be of interest to students of philosophy and politics scholars and students of Slavic studies and historians as well as anyone fascinated by the nature of dissidence **Caring for the Soul in a Postmodern**

Age Edward F. Findlay, 2012-02-01 In 1977 the sixty nine year old Czech philosopher Jan Patocka died from a brain hemorrhage following a series of interrogations by the Czechoslovak secret police A student of Husserl and Heidegger he had been arrested along with young playwright Vclav Havel for publicly opposing the hypocrisy of the Czechoslovak Communist regime Patocka had dedicated himself as a philosopher to laying the groundwork of what he termed a life in truth This book analyzes Patocka's philosophy and political thought and illuminates the synthesis in his work of Socratic philosophy and its injunction to care for the soul In bridging the gap not only between Husserl and Heidegger but also between postmodern and ancient philosophy Patocka presents a model of democratic politics that is ethical without being metaphysical and transcendental without being foundational **Political Action in Václav Havel's Thought** Delia Popescu, 2012-01-01

Political Action in Vaclav Havel's Thought The Responsibility of Resistance by Delia Popescu explores the Czech dissident's theory of individual opposition resistance to oppression and individual responsibility The book contributes to our understanding of both the extreme circumstances of oppression and to the subversive uses of oppression in modern liberal

democracy *The Heresies of Jan Patočka* James Dodd, 2023-03-15 A nuanced reflection on the meaning and resonance of Patočka's philosophy foregrounding the turbulent political and intellectual scene in Czechoslovakia following the Prague Spring in 1968 James Dodd explores the unity of philosophy history and politics in Jan Patočka's life and legacy Dodd presents Patočka as an essential philosopher of modern concepts such as freedom subjectivity and history and also as an interpreter of prominent thinkers such as Husserl and Heidegger Dodd outlines the phenomenology that Patočka as a late pupil of Husserl and Heidegger crafted in response to the classical model before turning to his philosophy of history which was oriented around the problem of Europe and the care for the soul Finally Dodd examines Patočka's role as a dissident intellectual and one of the principal voices of the Charter 77 human rights movement until his death in March 1977 By situating Patočka's thought in relation to classical phenomenology and to the political and historical conditions of Central Europe Dodd illuminates the enduring impact of this key thinker of the twentieth century

Europe, Phenomenology, and Politics in Husserl and Patočka Lorenzo Girardi, 2023-09-27 Europe is often discussed in the context of crisis usually economic or political Less prominent these days is Europe's spiritual crisis an important topic throughout the previous century Various catastrophes put in doubt the rationalist principles on which Europe had based itself The current relativist intellectual and political climate can still be seen as an expression of this Rather than following attempts to counter this via the restoration of a supposedly European essence often in terms of Christianity or rationalism this book attempts to think the crisis through to its end and to articulate the truth which manifests itself in it The themes of this book Europe phenomenology and politics share a concern with the crisis as the dissolution of the world that is the dissolution of a shared horizon of human existence Among phenomenologists Husserl and Patočka foremost have linked this problematic to reflections on the idea of Europe itself They represent two distinct perspectives corresponding to different historical situations Nonetheless what is presented here is not primarily the continuity between their thought and their historical circumstances but rather the underexamined continuity between their phenomenology and their thought on Europe and politics Applying phenomenology to politics Husserl's and Patočka's thought are used to assess the justification for and limits of liberal and agonistic political philosophy respectively By analysing the concrete ways in which our world is structured experientially the limits of the ideal of rational reconciliation are shown An alternative conception of politics is developed on the basis of the breakdown of Europe's rationalist ideal that is on the basis of the truth which manifests itself in Europe's crisis without lapsing into a relativism where anything goes This leads to an agonistic conception of liberal democracy based on Patočka's phenomenological concept of problematicity

The Dissident Politics in Václav Havel's Vanek Plays Carol Strong, 2023-09-05 The Dissident Politics in Václav Havel's Vanek Plays Who Is Ferdinand Vanek Anyway focuses on Ferdinand Vanek a semi autobiographical character created by Václav Havel and featured in a series of nine plays written by Havel himself and three other dissident writers Pavel Kohout Pavel Landovský and Jirí Dienstbier By exploring the Vanek experience Carol Strong

details a multi episodic absurdist journey that provides an insider's view of the challenges facing those daring enough to question the status quo a view that remains relevant today Strong's contention is that the lines found in these plays served as a secret language of dissent in Cold War Czechoslovakia which called the citizenry to contemplate the need for societal reform As the plays were written at a time when the work of Havel and other dissidents were banned the plays were never performed publicly but through clandestine living room performances and the sharing of samizdat scripts the plays found an audience Select phrases were indeed whispered throughout underground networks and helped forge a sense of oppositional solidarity among potential activists Strong's argument is that the Vanek experience metaphorically highlights how official power mechanisms are among the least insidious forms of societal power as the state must follow predictable patterns of legal jurisprudence By contrast non governmental forms of power as exercised by one's fellow citizens through informal social channels can challenge oppositional actors more because of the personal tone they adopt Using this approach Strong presents a timelessly relevant critique of modern society with its consumerist conformist tendencies

Confronting Totalitarian Minds: Jan Patočka on Politics and Dissidence Aspen E. Brinton, 2021-05-01 The Czech philosopher Jan Patočka not only witnessed some of the most turbulent politics of twentieth century Central Europe but shaped his philosophy in response to that tumult One of the last students of Edmund Husserl and Martin Heidegger he inspired Václav Havel and other dissidents who confronted the Communist regime before 1989 as well as being actively involved in authoring and enacting Charter 77 He died in 1977 from medical complications resulting from interrogations of the secret police *Confronting Totalitarian Minds* examines his legacy along with several contemporary applications of his ideas about dissidence solidarity and the human being's existential confrontation with unjust politics Expanding the current possibilities of comparative political theory the author puts Patočka's ideas about dissidence citizen mobilization and civic responsibility into conversation with notable world historical figures like Mahatma Gandhi Václav Havel Dietrich Bonhoeffer and other contemporary activists In adding a fresh voice to contemporary conversations on transcending injustice *Confronting Totalitarian Minds* seeks to educate a wider audience about this philosopher's continued relevance to political dissidents across the world

The Political Thought of Václav Havel Daniel Brennan, 2016-10-05 The book considers Václav Havel's body of writing as a cohesive whole offering a consistent political philosophy This bold claim is backed up through a close examination of Havel's plays letters essays and aphorisms The political philosophy that a close reading of Havel reveals is a liberal one However Havel is not the run of the mill liberal having influences from the field of phenomenology Masaryk Husserl Levinas Patočka and Heidegger which give him a nuanced view of the self Havel sees the self as something always being formed Hence for Havel man has an ability to shake his current state and invite transcendence into his life This agonistic process reveals our responsibility and liberates the self from forces which coerce behaviour

Thinking After Europe Francesco Tava, Darian Meacham, 2016-08-16 Jan Patocka perhaps more so than any other philosopher in the twentieth century managed to combine intense philosophical insight with a farsighted analysis of the idea and challenges facing Europe as a historical cultural and political signifier As a political dissident in communist Czechoslovakia he also became a moral and political inspiration to a generation of Czechs including Vclav Havel He accomplished this in a time of intense political repression when not even the hint of a unified Europe seemed visible by showing in exemplary fashion how concrete thought can be without renouncing in any way its depth Europe as an idea and a political project is a central issue in contemporary political theory Patocka's political thought offers many original insights into questions surrounding the European project Here for the first time a group of leading scholars from different disciplines gathers together to discuss the specific political impact of Patocka's philosophy and its lasting significance

Finding Philosophers in Global Fiction Anway Mukhopadhyay, Saptarshi Mallick, Debashree Dattaray, 2024-09-05 A cross cultural study that explores and redefines what philosophy philosophizing and philosophers are through the lens of literature The academic discipline of philosophy may tell us too rigidly what a philosopher is or should be but fictional narration often upholds the core conundrums of humankind in which philosophy germinates This collection of essays explores whether a

study of philosophers at a planetary scale or at least on a broad cross cultural spectrum can decouple philosophy from its academic aspect and lend it a more inclusive domain Contributors to this volume play with three conceptual poles making them interact with each other and get modified through this interaction fiction narrative and philosopher How do these three terms get semantically modified and broadened in scope when we speak of the figures of philosophers in imaginative writing How do these terms assume different connotations in different cultural contexts interacting with the multiplicity of not just thought but also the media and tools of thought Do we always think only rationally Or do we also think with and through emotively powerful images symbols and tropes In the end Finding Philosophers in Global Fiction insists on the need to de elitize and democratize the concept of a philosopher by reflecting on the possibility of seeing a philosopher as one who sees things clearly from any vantage point

Leadership and Coherence Nathan W. Harter, 2014-07-17

Leadership and Coherence investigates how leaders justify their decisions and how they bring about coherence amongst followers Taking a cognitive approach it builds on the work of Hannah Arendt to attempt a phenomenology of judgment examining how the moral imperative experienced by leaders can be shared by their community so both leader and led are guided by a mutual purpose Through biographical case studies of historical leaders this book illustrates how successful leaders operate in a turbulent world not only making their own decisions but also gathering likeminded followers to share in a common vision and shared sense of purpose

Human Rights and Political Dissent in Central Europe Jakub Tyszkiewicz, 2021-12-06 This volume examines to what extent the positive atmosphere created by the Helsinki Accords contributed to the change in political circumstances seen in the countries of Central Europe under Soviet domination It focuses in particular on firstly a consequent new impetus to bolster human rights in international politics as Western democracies especially the US integrated human rights concerns into its foreign policy relations with Soviet Bloc countries and secondly how this Western embrace of human rights seemed to create new incentives for increased dissident activity in Central and Eastern Europe and from 1976 onward Finally the book reminds us of the significant role of the Helsinki Accords in developing democratic practices in Eastern European societies under Soviet domination in 1975 1989 and in creating the conditions for the peaceful transition to democratic government in the years that followed This book will be of key interest to scholars and students of the history of communism post Soviet Russian and central and East European politics the history of human rights and democratization
