N. Krishnamurti Sharma, 1986 The volume is a good presentation of the philosophy of Sri Madhvacarya complete in its architectonic unity The author probes its ontological and epistemological foundations and critically examines the structure erected on them The discussion focuses on crucial doctrines of theism and brings to light for the first time the striking parallelisms of thought between Madhva and his Western contemporary St Thomas Aquinas Light is also thrown on how Madhva and his commentators anticipated the views of modern philosophers like Spencer Russell and Hobhouse on the nature of time space and memory The latest researches on Madhvacarya s role in the Vedantic Bhakti movement and his attempt to harmonize the Upanisadic texts on monism and dualism are substantially drawn upon

and brings to light for the first time the striking parallelisms of thought between Madhva and his Western contemporary St Thomas Aquinas. The Swami Ashish, 2015-06-19 Try gauging the stability of a man who does not remember certain period from his past. What if this memory loss is due to an accident? What if the accident was caused due to his own mistakes? Sure, he frantically remains disturbed. As an adult, he wishes to fight for his answers. When grown up, he wants to grope for the answers. When wise, he intends understanding the answers. Now, his intent is on the beyond. Let his fellow men not suffer like him. What happens if a society is subjected to similar phenomena? What happens if a nation suffers from such past? India represents the longest continuing civilization in the world. India represents the eastern thought, the eastern mind. India has been subjected to abovementioned accidents. Swami Sad Chidananda lived to see them through. Many joined him, driven to look for the answers to these perennial questions. Genuine questions only dequestioned them. Now, the answers were not needed. The questions were not there anymore. Collectively, they learnt that this was the universal human story. They experienced the development of the classical eastern mind and learnt that the classical western mind evolved too, only to embrace each other.
