Language Standardization and Language Variation in Multilingual Contexts Nicola McLelland, Hui Zhao, 2021-11-24 This important contribution to the sociolinguistics of Asian languages breaks new ground in the study of language standards and standardization in two key ways in its focus on Asia with particular attention paid to China and its neighbours and in the attention paid to multilingual contexts The chapters address various kinds of sometimes hidden multilingualism and examine the interactions between multilingualism and

language standardization offering a corrective to earlier work on standardization which has tended to assume a monolingual nation state and monolingual individuals Taken together the chapters in this book thus add to our understanding of the ways in which multilingualism is implicated in language standardization as well as the impact of language standards on multilingualism The introduction Chapter 6 and Chapter 8 are free to download as open access publications under a CC BY NC licence You can access them here Introduction <https://zenodo.org/record/5749388> YaiwuNDP3cs Chapter 6 <https://zenodo.org/record/5749522> Yaiw 9DP3cs Chapter 8 <https://zenodo.org/record/5749586> Yai0RNDP3cs *The Contrastive Hierarchy in Phonology* B. Elan Dresher, 2009-09-03 The subject of contrast in phonology is one of the most central concepts in linguistics and is of key importance to linguists working across many languages This book offers a fascinating account of both the logic and history of contrast in phonology *Thesaurus of ERIC Descriptors* ,1977
