The answers to all questions are explained along with appropriate and supportive references. Features: Detailed charts and summary tables that facilitate conceptual learning. Concise coverage of pediatric, adult, and geriatric issues and conditions. Emphasis on critical teaching points relevant to current neuropsychological practice. Mock exam questions with answers and references at the end of every chapter relevant to the content. Four separate 125 question full length mock exams with answers and references.

Questions and Answers in Pain Medicine Michael Suer, Nalini Sehgal, 2021-02-24. This book provides a practical and comprehensive review of pain medicine in a clear and easy to apply question and answer format. Divided by topic, the book includes Q&As on Pain Basics, Psychology, Common Pain Syndromes, Medications, Pain Management in Special Populations, and Interventional Pain. It is intended as a guide for residents and fellows and is written in such a manner to provide instantaneous feedback on correct answer choice and explanation for self-evaluation while preparing for written board examinations. *Questions and Answers in Pain Medicine: A Guide to Board Exams* fulfills the need for a resource that is similar to the Accreditation Council for Graduate Medical Education (ACGME) board examination in the US as well as international equivalents. It utilizes a fully Q&A approach which is how many students prefer to study. Written by a physician who has recently passed the ACGME written board exam and the founder of a pain management fellowship program for nearly 20 years, the authors provide valuable insight for successfully undertaking board examinations in pain medicine.

Acquired Brain Injury Jean Elbaum, Deborah Benson, 2007-08-08. Regardless of etiology such as accident, tumor, stroke, or assault, acquired brain injury presents numerous challenges for survivors, caregivers, and treating professionals.
