Physique et théologie Alain Lernoùd, 2001 Pour Proclus 412-485 la physique exposée dans le *Timée* de Platon est une sorte de théologie A Lernoùd montre comment le commentaire de Proclus est une œuvre partielle dont la composition ne peut être déduite que la lumière de la conception néoplatonicienne de la dialectique comme science première et gymnastique préparant la saisie intellectuelle des principes divins

Proclus on Nature Marije Martijn, 2010 This study presents a revision of Proclus natural philosophy starting from the Commentary on Plato's *Timaeus* It provides new insight into Proclus metaphysics of nature his surprisingly peripatetic philosophy of science the role of mathematics and the nature of discourse

Ancient Readings of Plato's *Phaedo*, 2015-09-17 Plato's *Phaedo* has never failed to attract the attention of philosophers and scholars Yet the history of its reception in Antiquity has been little studied The present volume therefore proposes to examine not only the Platonic exegetical tradition surrounding this dialogue which culminates in the commentaries of Damascius and Olympiodorus but also its place in the reflections of the rival Peripatetic Stoic and Sceptical schools This volume thus aims to shed light on the surviving commentaries and their sources as well as on less familiar aspects of the history of the *Phaedo*'s ancient reception By doing so it may help to clarify what ancient interpreters of Plato can and cannot offer their contemporary counterparts

Platonopolis Dominic J. O'Meara, 2003-05 Conventional wisdom suggests that the Platonist philosophers of Late Antiquity from Plotinus third century to the sixth century schools in Athens and Alexandria neglected the political dimension of their Platonic heritage in their concentration on an otherworldly life Dominic O'Meara presents a revelatory reappraisal of these thinkers arguing that their otherworldliness involved rather than excluded political ideas and he proposes for the first time a reconstruction of their political philosophy their conception of the function structure and contents of political science and its relation to political virtue and to the divinization of soul and state Among the topics discussed by O'Meara are philosopher kings and queens

political goals and levels of reform law constitutions justice and penology the political function of religion and the limits of political science and action He also explores various reactions to these political ideas in the works of Christian and Islamic writers in particular Eusebius Augustine Pseudo Dionysius and al Farabi Filling a major gap in our understanding Platonopolis will be of substantial interest to scholars and students of ancient philosophy classicists and historians of political thought
