Communication across and integration of disciplines in the urban water sector seems today more imperative than ever before
Water is a strategic and shrinking resource It is probably the world's most valuable resource and clean water has even been
touted as the next oil Control of water from access to management has always been a *Shelter Security in Urban India*
Darshini Mahadevia, 2015-01-01 There is either glamourizing of informal sector or a desire to rapidly formalize it the latter
leading to exclusions and disruptions in people's life But the residents of these informal settlements desire change but at a
pace and way suitable to them This book is a collection of articles on shelter security in urban India based on the research
work undertaken at the Centre for Urban Equity CUE CEPT University over the last few years The articles are on formation
of informal settlements and living conditions in them rental housing in the informal sector learning from interventions to
change living conditions in the slums and other informal settlements and efficacy of the public housing programmes mainly
under the Jawaharlal Nehru National Urban Renewal Mission *Urbanisation, Citizenship and Conflict in India* Tommaso
Bobbio, 2015-06-19 Urbanisation is rapidly changing the geographic and social landscape of India and indeed Asia as a whole
Issues of collective violence urban poverty and discrimination become crucial factors in the redefinition of citizenship not
only in legal terms but also in a cultural and socio-economic dimension While Indian cities are becoming the centres of a
culture of exclusion against vulnerable social groups a long term perspective is essential to understand the patterns that
shaped the space politics economy and culture of contemporary metropolises This book takes a critical longer term view of
India's economic transition The idea that urban growth goes hand in hand with the modernisation of the country does not
account for the fact that increasingly higher portions of the urban population are comprised of lower income groups casual
labourers and slum dwellers Using the case study of Ahmedabad this book investigates the history of city and of its people
over the twentieth century It analyses the contrasting relationship between urban authorities and the inhabitants of
Ahmedabad and examines instances of antagonism and negotiation amongst people groups and between the people and the
public authority that have continuously shaped transformed and redefined life in the city This book offers an important tool
for understanding the bigger context of the conflicts the social and cultural issues that accompanied the broader process of
urbanisation in contemporary India It will be of interest to scholars of Urban History studies of collective violence and South
Asian Studies Metropolitan Governance Vinita Yadav, 2014 Metropolitan Governance is an indispensable book for
understanding the governance of metropolitan cities The book covers an insight into the governance in Ahmedabad and
Hyderabad The participatory metropolitan governance is also of interest to the students of sociology social work and
geography The students of public administration would find it useful to study the decentralisation of powers from centre to

state to local level government For academicians engaged in service delivery in metropolitan areas it brings in clarity regarding role of varied stakeholders in governance *Inside the Transforming Urban Asia* Darshini Mahadevia,2008 Contributed articles chiefly with reference to India and China **The Making and Unmaking of an Industrial Working Class** Jan Breman,2004 Study of the textile workers of Ahmadabad India *Globalisation, Employment and Mobility* H. Sato,M. Murayama,2008-07-24 There are numerous labour and employment issues facing South Asia in this era of growth With critical examination of ongoing labour reforms and using extensive field surveys this book will be of interest to all seeking an analysis of labour economics labour laws economic growth and globalization in South Asia **Sustainable Urbanization in India** Jenia Mukherjee,2017-10-06 This comprehensive volume contributes to the existing and emerging body of literature on contemporary urbanization and the interactions between cities and the environment The volume is contextualized against latest theories debates and discussions on sustainable urbanization the post 2015 development agenda of the United Nations and India's official launching of the smart city agenda Reflecting on three major components of urban sustainability investments and infrastructures waste management and urban ecologies and environmentalisms it moves beyond the bi-centric approach of only looking into the differences between the developed and the developing world and reflects on cities across India using polycentric methods and approaches The Indian urban scenario is extremely complex and diverse and solutions laid out in official and non official documents tend to miss these complexities This volume includes innovative research across different parts of India identifying city specific sources of unsustainability and challenges along with strategies and potentials that would make the process of urban transition both sustainable and equitable Complex explorations of non linear bottom up multisectoral process based local urban contexts across north south east and west Indian cities in this volume critique a general acceptance of the universalized concept of sustainable urbanization and suggest ways that might be important for transcending inclusive theories to form practical policy based recommendations and actions *The Globalizing City in the Time of Hindutva* Renu B. Desai,2008 *Beyond the city* Valter Fabietti,Carlo Pozzi,2022-01-21 The book through a reflection on the paradigm of the informal city and with a verification in corpore vili on 10 cities presents a description of the role that collective space and social organization have in the construction of slums In addition an investigation is developed on the role of architecture in the regeneration of settlements The picture provided by the 10 factsheets on cities in which the slums represent a phenomenon of great importance helps to understand the reasons for their birth and development and through different perspectives to understand how to promote a new comprehensive and inclusive urban organization **Identity, Inequity and Inequality in India and China** Ayo Wahlberg,2017-07-05 This volume explores how difference is constructed manifested mobilised and obscured in socially uneven societies particularly those fuelled by neoliberal economic growth in the recent years The book approaches difference as a double edged concept that allows one to make sense of the tensions that are played out between cosmopolitan convergence and multicultural

diversity between expanding middle classes and increasingly disenfranchised poor groups between the global and the local. The chapters in this volume present a series of empirical explorations of how difference is articulated, desired, levelled, governed and even subverted in the socio-economically uneven landscapes of India and China. They examine how difference emerges out of daily practice, categorisation processes, dividing practices, nation building efforts and identity projects. Through these empirical studies we see how difference is articulated along a number of axes, differentiations of groups or persons according to hierarchies of superiority/inferiority, the demarcation of difference as something that is potentially disruptive and therefore in need of containment, the celebration of difference as diversity and finally the ways in which difference comes to be internalised in the shaping of individual identities. Another common theme that binds a number of contributions is the exploration of the role of the state in constructing and controlling these differences and the ways in which these interventions rearrange the social-political landscapes. This book was published as a special issue of *Third World Quarterly*.

Dynamics of Urban Planning and Development Mr. Rohit Manglik,2023-05-17 Urban development dynamics are analyzed Guides students to understand planning processes fostering expertise in urban systems through case studies and theoretical analysis

India, Urban Poverty Report 2009 India. Ministry of Housing and Urban Poverty Alleviation,2009 Urban India reports high incidence of poverty despite being hailed as a hub of growth and an instrument of globalization Poverty figures for urban areas are higher compared to rural areas in a large number of states

This report looks at the process of globalization and development strategy in India to ask why poverty exists in urban areas and how the poor are being physically and economically absorbed in the system. It analyses the processes of urbanization, migration, changes in the structure of the economy and the pattern of infrastructural investment with the aim of assessing their impact on the poor. Changes in urban governance, legal system and the administrative structure have been reviewed to identify the problems faced by the poor and to focus on the systemic changes that need to be brought in. Thus it focuses on urbanization keeping poverty at the centre of analysis.

Militant Publics in India A. Valiani, 2011-11-11 Offers readers a telling glimpse of the social world in which militants are made explaining how group physical training and technico ethical experiments with it have created a powerful religious nationalist movement in Gujarat that has been held responsible for carrying out spectacular episodes of ethnic cleansing against Indian minorities.
