*The Film Handbook* Mark de Valk, Sarah Arnold, 2013-05-02 The Film Handbook examines the current state of filmmaking and how film language technique and aesthetics are being utilised for today s digital film productions It

reflects on how critical analysis of film underpins practice and story and how developing an autonomous vision will best aid student creativity The Film Handbook offers practical guidance on a range of traditional and independent guerrilla film production methods from developing script ideas and the logistics of planning the shoot to cinematography sound and directing practices Film professionals share advice of their creative and practical experiences shooting both on digital and film forms The Film Handbook relates theory to the filmmaking process and includes documentary narrative and experimental forms including deliberations on reading the screen genre mise en scene montage and sound design new technologies of film production and independent distribution digital and multi film formats utilised for indie filmmakers and professional dramas sound design and music the short film form theories of transgressive and independent guerrilla filmmaking the avant garde and experimental as a means of creative expression preparing to work in the film industry development of specialisms as director producer cinematographer editor and the presentation of creative work Media, Society, World Nick Couldry, 2013-08-29 Media are fundamental to our sense of living in a social world Since the beginning of modernity media have transformed the scale on which we act as social beings And now in the era of digital media media themselves are being transformed as platforms content and producers multiply Yet the implications of social theory for understanding media and of media for rethinking social theory have been neglected never before has it been more important to understand those implications This book takes on this challenge Drawing on Couldry s fifteen years of work on media and social theory this book explores how questions of power and ritual capital and social order and the conduct of political struggle professional competition and everyday life are all transformed by today s complex combinations of traditional and new media In the concluding chapters Couldry develops a framework for global comparative research into media and for thinking collectively about the ethics and justice of our lives with media The result is a book that is both a major intervention in the field and required reading for all students of media and sociology Environmental Management of the Media Pietari Kääpä, 2018-05-23 In recent years the widely held misconception of the media as an ephemeral industry has been challenged by research on the industry s significant material footprint Despite this material turn no systematic study of this sector has been conducted in ways that considers the role of the media industries as consumers and users of a range of natural resources Filling this gap Environmental Management of the Media discusses the environmental management of the media industries in the UK and the Nordic countries These Nordic countries both as a set of small nations and as a regional constellation are frequently perceived as some of the greenest in the world yet not only is the footprint of the media industries practically ignored in academic research but the very real stakes of the industries global impact are not comprehensively understood Here the author focuses on four key areas for investigating the material impact of Nordic media 1 resources used for production and dissemination 2 regulation of the media 3 organizational management and 4 labour practices By adopting an interdisciplinary perspective that combines ecocritical analysis with interrogation of the political

economy of the creative industries K p argues that taking the industries to task on their environmental footprint is a multilevel resource and organizational management issue that must be addressed more effectively in contemporary media studies This book will be of great interest to students and scholars of media communication and environmental studies
