Practical Thinking Edward de Bono, 2017-11-02 In Practical Thinking de Bono's theme is everyday thinking how the mind actually works not how philosophers think it should Based on the results of his famous Black Cylinder Experiment a critical thinking task that asks participants why they think a black cylinder falls over de Bono explores the four practical ways of being right From there he picks out and names the five levels of understanding and the five major mistakes in thinking From memes and Instagram to twitter and bestselling books like Mistakes I Made At Work mistakes and what we can learn from them are a hot topic With Edward you'll learn exactly why we all make them Reflective Theory and Practice in Teacher Education Robyn Brandenburg, Kathryn Glasswell, Mellita Jones, Josephine Ryan, 2017-03-30 This book offers a detailed examination of reflective practice in teacher education In the current educational context where reflective practice has been mandated in professional standards for teachers in many countries it analyses research based evidence for the power of reflective practice to shape better educational outcomes The book presents multiple theoretical and practical views of this often taken for granted practice so that readers are challenged to consider how factors such as gender and race shape understandings of reflective practice Documenting approaches that enhance learning the contributions discuss reflective practice across the globe with a focus on pre service in service and university teachers At a time when there is pressure to measure teachers work through standardised tests the book highlights the professional thinking that is integral to teaching and demonstrates ways it can be encouraged in beginning teachers Aimed at the international community of teacher educators in schools and universities it also includes a critical examination of methodological issues in analysing and evaluating reflective practice and showcases the kind of reflective practice that empowers teachers and pre service teachers
