Durkheim, Bernard and Epistemology (Routledge Revivals) Paul Q. Hirst, 2010-11 This title first published in 1975 contains two complimentary studies by Paul Q Hirst the first based on Claude Bernard s theory of scientific knowledge and the second concerning Emile Durkheim s attempt to provide a philosophical foundation for a scientific sociology in The Rules of Sociological Method The author s primary concern is to answer the question is Durkheim s theory of knowledge logically consistent and philosophically viable His principal conclusion is that the epistemology developed in the Rules is an impossible one and that its inherent contradictions are proof that sociology as it is commonly understood can never be a scientific discipline **The Wiley Blackwell Handbook of Mindfulness** Amanda Le, Christelle T. Structuralist Analysis in Contemporary Social Thought (RLE Social Theory) Miriam Glucksmann, 2014-08-21 The primary concern of this book is to investigate whether or not structuralism constitutes a distinctive framework in the social sciences The author focuses on two major structuralist thinkers Louis Althusser and Claude L vi Strauss She analyses and compares the structure of their theory and places them within the context of their respective disciplines Dr Glucksmann began working on this book at a time when structuralism was at the height of its popularity in France and was thought to be a homogenous alternative to bourgeois sociology The progress of her study implicitly reflects the developments and divergences within structuralist thought that have emerged since then In particular she examines the differences between the political and philosophical thought of Althusser and L vi Strauss which have become increasingly manifest

Philosophy as a Way of Life James M. Ambury, Tushar Irani, Kathleen Wallace, 2020-10-05 In the ancient world philosophy was understood to be a practical guide for living or even itself a way of life This volume of essays brings historical views about philosophy as a way of life coupled with their modern equivalents more prevalently into the domain of the contemporary scholarly world Illustrates how the articulation of philosophy as a way of life and its pedagogical implementation advances the love of wisdom Questions how we might convey the love of wisdom as not only a body of dogmatic principles and axiomatic truths but also a lived exercise that can be practiced Offers a collection of essays on an emerging field of philosophical research Essential reading for academics researchers and scholars of philosophy moral philosophy and pedagogy also business and professional people who have an interest in expanding their horizons

Reflections on Naturalism José Ignacio Galparsoro, Alberto Cordero, 2013-09-04 To naturalists there is no such thing as complete justification for any claim and so requiring complete warrant for naturalist proposals is an unreasonable request The proper guideline for naturalist proposals seems thus clear develop it using the methods of science if this leads to a fruitful stance then explicate and reassess The resulting offer will exhibit virtuous circularity if its explanatory feedback loop involves critical reassessment as the explanations it encompasses play out So viewed naturalism is a philosophical perspective that seeks to unite in a virtuous circle the natural sciences and non foundationalist broadly based empiricism Other common lines of antinaturalist complaint are that naturalization efforts seem fruitful only in some areas also that several endeavors outside the sciences serve as sources of knowledge into human life and the human condition especially in areas where science does not reach terribly far as yet It seems hard not to grant some truth to many allegories

from literature art and some religions Naturalism has room for knowledge gathered outside science provided the imported claims satisfy also by naturalistic methods Naturalism and the debate about its scope and limits thrive on discrepancy We hope that collectively the selected essays that follow will give a fair view of the vitality and tribulations of naturalism as a variegated contemporary philosophical perspective
