Practice Of Reading Interpreting The Novel:

The Practice of Reading Derek Alsop, Chris Walsh, 1999-04-19 The Practice of Reading is a lucid and lively examination of the art of interpreting the novel in the context of recent developments in literary theory and criticism Believing that reading is or should be a pleasurable creative activity the authors analyse a range of seven novels from the eighteenth century to the present focusing upon the experiential dimensions of the reading process What is the role of the reader What happens when a novel is read How far does meaning depend on the reader and how far on the text These and other related questions are explored in readings of novels as diverse as Tristram Shandy Pride and Prejudice Great Expectations Daniel Deronda A Portrait of the Artist as a Young Man Beckett's Trilogy and Possession In its insistence upon a return to the practice of close reading the book represents a timely intervention in current literary debates An accessible informative and above all stimulating text for all university and college students of literature

The Practice of Reading Denis Donoghue, 2000-01-01 This lucid and elegantly written book is a sustained conversation about the nature and importance of literary interpretation Distinguished critic Denis Donoghue argues that we must read texts closely and imaginatively as opposed to merely or mistakenly theorizing about them He shows what serious reading entails by discussing texts that range from Shakespeare's plays to a novel by Cormac McCarthy Donoghue begins with a personal chapter about his own early experiences reading literature while he was living and teaching in Ireland He then deals with issues of theory focusing on the validity of different literary theories on words and their performances on the impingement of oral and written conditions of reading and on such current forces as technology and computers that impinge on the very idea of reading Finally he examines certain works of literature Shakespeare's Othello and Macbeth Swift's Gulliver's Travels a passage from Wordsworth's The Prelude a chapter of Joyce's Ulysses Yeats's Leda and the Swan and Coole and Ballylee 1931 and Cormac McCarthy's Blood Meridian demonstrating what these texts have in common and how they must be differentiated through a sympathetic imaginative and informed reading

Consuming Texts Stephen Colclough, 2007-07-12 This volume explores the history of reading in the British Isles during a period in which the printed word became all pervasive From wealthy readers of amatory fiction through to men and women reading surreptitiously at the Victorian railway bookstall it argues that a variety of new reading communities emerged during this period

Studies in the Rhetoric of Fiction Ana-Karina Schneider, 2015-09-18 Studies in the Rhetoric of Fiction investigates the contemporary novel's relation to its forerunners the picaresques romances and sentimental novels of the 18th century Henry Fielding Laurence Sterne and Jane Austen are stable landmarks while of the contemporary practitioners a handful recur from one chapter to the next particularly Julian Barnes Ian McEwan and Kazuo Ishiguro The chapters share an interest in the rhetoric of fiction broadly understood as the way in which fictional works achieve their effects on readers whether by directly addressing a hypothetical reader using irony and parody orchestrating competitions between divergent narratives imitating musical structures inviting intertextual

readings or openly taking issue with traditional conventions and expectations Chapters focusing on narrative strategy and metanarrative comment therefore alternate with those interrogating reading practices and readerly participation in the rhetorical interchange This collection of essays however does not propose a consistent theory of the rhetoric of fiction nor does it claim any generalisable validity for its findings Rather it consists of a series of readings that address various formal aspects of the novels they focus on showing rhetoric in action pointing out the complex ways in which its means and strategies change in time and across genres and media It restores a sense that whatever old tricks the author or narrator is perceived to be up to they are an invitation to the reader to take part in the fun The book will appeal to students and scholars in the early stages of their research encouraging readings that identify rhetorical strategies that challenge conventional forms and expectations It is therefore largely free of rhetorical terminology making sparing use of it when distinctions must be drawn and the more technical aspects of novels are interrogated

Reading Postcolonial Literature Hayley G.

Toth, 2025-03-10 An Open Access edition is available thanks to the kind sponsorship of the libraries participating in the Jisc Open Access Community Framework OpenUP initiative Debates about reading in postcolonial studies rarely discuss non professional readers except to secure the authority of professional reading practices In Reading Postcolonial Literature Hayley G Toth places non professional reading practices in dialogue with received academic wisdom to debunk common sense assumptions about non professional readers as Western or neocolonial consumers Drawing on reading practices recorded in academic books journal articles and on online book reviewing platforms like Amazon and Goodreads Toth draws attention to important continuities between professional and non professional practices of reading postcolonial literature At the same time she highlights that non professionals often have little desire to emulate the practices of professional postcolonial critics Precisely by not adopting the established protocols and methods of postcolonial studies non professional readers call attention to the limits of dominant approaches to reading in the discipline Across four chapters Toth examines the relationship between reading and identity during the Rushdie affair the difference between reading and address the challenges posed by difficult texts and the legitimacy of non understanding and the reception of popular texts primarily read by non professional audiences Reading Postcolonial Literature demonstrates that reception matters in any claims we make about the value of reading postcolonial literature and offers new ways forward for the practice study and teaching of reading in the discipline

Reading Circles, Novels and Adult Reading Development

Sam Duncan,2012-02-23 Adult literacy teachers are constantly searching for effective engaging and distinctly adult ways to develop adult emergent reading and for at least the past two hundred years adults have formed themselves into reading circles to read and discuss novels on a weekly or monthly basis Why then are reading circles rarely used or studied in formal adult literacy provision This book explores adult reading development novel reading and reading circles in the context of a wider examination of reading pedagogies and practices in the English speaking world It discusses reading as both an individual and a communal act and investigates the relationship between literature and literacy development practice and pedagogy including a reassessment of the controversial approaches of reading aloud and phonics for adults Sam Duncan reviews a case study of an adult reading circle in a large London further education college and identifies the wider implications for the teaching and learning of adult emergent reading for the use and understanding of reading circles and for how we understand the novel reading experience more broadly
