

THE 5 PRACTICE PRINCIPLES

A universal approach that does no harm, proactively supports and encompasses community-led approaches, prevention initiatives and specialist therapies to enable transformation within systems.

Person centred: the person is always at the centre of a trauma-informed approach. It takes a co-productive, collaborative cross-sector approach to identifying, understanding and supporting the person's needs. It promotes psychological and physical safety by promoting choice, collaboration and transparency.

Relationship-focused: safe, supportive, empathic, compassionate and trusting relationships are central to a trauma-informed approach.

Resilience and strengths-focused: a trauma-informed approach builds on the natural resilience of individuals, families and communities.

Inclusive: a trauma-informed approach recognises the impact of diversity, discrimination and racism. It understands the impact of cultural, historic and gender inequalities and is inclusive of everyone in society.
