and sociologists theologians and people interested in the psychology and sociology of religion *Muslim and Catholic Experiences of National Belonging in France* Carol A. Ferrara, 2024-09-05 How do experiences of national identity and belonging differ for French Muslims and Catholics respectively What can these differences tell us about the causes and dynamics of minority marginalization in plural secular societies To address these questions Carol Ferrara draws upon extensive ethnographic fieldwork across France within spaces of religious education and interfaith dialogue illustrating the inequities between Muslim and Catholic citizens in opportunities for national belonging political and civic engagement and institution building This reexamination of Muslim exclusion against the backdrop of Catholic inclusion calls into question popular explanations for minority marginalization especially those that blame non adherence to French Republican principles or the exclusionary power of secular discourse Instead Ferrara argues that the boundaries of French belonging are policed by francit a tacit national imaginary ideal type that draws upon and reproduces national cognitive biases and undermines the French republican values of secularism equality liberty and fraternity Given the central role of francit in the politics of belonging Ferrara suggests that paths toward greater pluralism in France and beyond lie in the reframing of national identity narratives and reimagining the inclusive potential of secular democratic values
