## **Practicing Writer:**

**Practicing Theory in Second Language Writing** Tony Silva, Paul Kei Matsuda, 2010-01-15 Theory has been used widely in the field of second language writing. Second language writing specialists, teachers, researchers, and administrators have yet to have an open and sustained conversation about what theory is, how it works, and more important, how to practice theory. *Practicing Theory in Second Language Writing* features fourteen essays by distinguished scholars in second language writing who explore various aspects of theoretical work that goes on in the field.

**The Writer's Practice** John Warner, 2019-02-05 Unique and thorough Warner's handbook could turn any determined reader into a regular. *Malcolm Gladwell Booklist*. For anyone aiming to improve their skill as a writer, a revolutionary new approach to establishing robust writing practices inside and outside the classroom from the author of *Why They Can't Write*. After a decade of teaching writing using the same methods he'd experienced as a student many years before, writer, editor, and educator John Warner realized he could do better. Drawing on his classroom experience and the most persuasive research in contemporary composition studies, he devised an innovative new framework, a step-by-step method that moves the student through a series of writing problems, an organic bottom-up writing process that exposes and acculturates them to the ways writers work in the world. The time is right for this new and groundbreaking approach. The most popular books on composition take a formalistic view, utilizing templates in order to mimic the sorts of rhetorical moves academics make. While this is a valuable element of a writing education, there is room for something that speaks more broadly. *The Writer's Practice* invites students and novice writers into an intellectually engaging, active learning process that prepares them for a wider range of academic and real-world writing and allows them to become invested and engaged in their own work.

**The Writer's Portable Mentor** Priscilla Long, 2018-09-15 Designed to mentor writers at all levels from beginning to quite advanced, *The Writer's Portable Mentor* offers a wealth of insight and crafting models from the author's twenty-plus years of teaching and creative thought. The book provides tools for structuring a book story or essay. It trains writers in observation and in developing a poet's ear for sound in prose. It scrutinizes the sentence strategies of the masters and offers advice on how to publish. This second edition is updated to account for changes in the publishing industry and provides hundreds of new craft models to inspire, guide, and develop every writer's work.

**The Return of Thematic Criticism** Werner Sollors, 1993 In the glory days of high modernist formalism it was anathema to speak about the content of a work of art Those days are gone and critical practice now is largely thematic practice A focus on the themes of literature informs feminist new historicist ethnic and even second generation deconstructionist approaches However such practice is not always recognized The specter of theoretically impoverished positivism still haunts thematic analysis making it the approach to literature that dare not speak its name This volume brings together for the first time an international group of writers critics and theoreticians who have thought deeply about this issue How can we determine the theme of a given text May the focus on form be the theme of a certain moment Can the motif be understood as a formal category What operations permit us to say that three or four texts constitute variants of the same theme The contributors challenge the conventional dismissal of merely thematic approaches and offer the reader different ways of tackling the issue of what a piece of writing is about The work here comes out of such diverse intellectual traditions as Russian film theory French phenomenology Foucault narratology the Frankfurt School intellectual history Geistesgeschichte psychoanalytic criticism linguistics ideological criticism Proppian folklore studies and computerized plot summary models In addition to a collection of aphorisms from Plato to Robert Coover and a group of general and theoretical essays this volume contains examples of practical engagement with such topics as literary history Shakespeare autumn poetry anti-Semitism fading colors bachelors Richard Wagner and the Mexican Revolution No comparable volume exists

**Craft Consciousness and Artistic Practice in Creative Writing** Ben Ristow, 2022-02-10 Craft lives inside the artist and it operates in the mind not in standards or techniques Creative writers navigate thresholds in consciousness as they develop their arts practice Craft Consciousness and Artistic Practice in Creative Writing explores what it is to be an artist as it traces radical feminist and culturally embedded traditions in craft The new term craft consciousness identifies the nexus from which writers explore making processes and practitioner knowledge Writers as with all artists create and reimagine themselves anew and it is in this perpetual state of becoming that they find ways to enlarge their sense

of artistry through an exploration of forms processes and mediums beyond the written word For writers this book initiates a reexamination of the mission of creative writing through disrupting patriarchal racist colonialist ableist and capitalist associations with dominant craft Drawing from twenty five interviews with living artists outside of writing and in a host of fields from conceptual art to leatherwork and dance the book shines a light on how the processes associated with craft are embodied Craft is an internalized matrix it need not be commodified for the marketplace or codified in the standards necessitated by institutions of higher education By redesigning writing workshops and MFA PhD programs through craft consciousness new potentials and collaborations emerge and it becomes more conceivable to imagine dynamic inclusive relationships between writers scientists and other artists
