**Theory and Practice in the Philosophy of David Hume** James Wiley, 2012-07-31 An original interpretation of Hume's philosophy as centered on the relationship between theory and practice The author argues that Hume's Essays and History represent a humanist practical philosophy derived from the speculative philosophy of A Treatise of Human Nature and the Enquiries

*Theory and Practice in the Eighteenth Century* Alexander Dick, 2015-10-06 Brings together scholars who use literary interpretation and discourse analysis to read 18th century British philosophy in its historical context This work analyses how the philosophers of the Enlightenment viewed their writing and how their institutional positions as teachers and writers influenced their understanding of human consciousness

*The Constitution of Literature* Lee Morrissey, 2008 The Constitution of Literature examines Restoration and eighteenth century literary criticism as a debate over theories of reading and argues that literary criticism emerged as a reaction against the role associated with print in the English Civil Wars of the 1640s

**The Cambridge History of Literary Criticism: Volume 5, Romanticism** George Alexander Kennedy, 1989 The history of the most hotly debated areas of literary theory including structuralism and deconstruction

**The Testimony of Sense** Tim Milnes, 2019-07-04 The Testimony of Sense attempts to answer a neglected but important question what became of epistemology in the late eighteenth century in the period between Hume's scepticism and Romantic idealism It finds that two factors in particular reshaped the nature of empiricism the socialisation of experience by Scottish Enlightenment thinkers and the impact upon philosophical discourse of the belletrism of periodical culture The book aims to correct the still widely held assumption that Hume effectively silenced epistemological inquiry in Britain for over half a century Instead it argues that Hume encouraged the abandonment of subject centred reason in favour of models of rationality based upon the performance of trusting actions within society Of particular interest here is the way in which after Hume fundamental ideas like the self truth and meaning are conceived less in terms of introspection correspondence and reference and more in terms of community coherence and communication By tracing the idea of intersubjectivity through the issues of trust testimony virtue and language the study offers new perspectives on the relationships between philosophy and literature empiricism and transcendentalism and Enlightenment and Romanticism As philosophy grew more conversational the familiar essay became a powerful metaphor for new forms of communication The book explores what is epistemologically at stake in the familiar essay genre as it develops through the writings of Joseph Addison David Hume Samuel Johnson Charles Lamb and William Hazlitt It also offers readings of philosophical texts such as Hume's Treatise Thomas Reid's Inquiry and Adam Smith's Theory of Moral Sentiments as literary performances

**Reflecting Subjects** Jacqueline Taylor, 2015-01-15 Jacqueline Taylor offers an original reconstruction of Hume's social theory which examines the passions and imagination in relation to institutions such as government and the economy Reflecting Subjects begins with a close

examination of Hume's use of an experimental method to explain the origin nature and effects of pride an indirect passion that reflects a person's sense of self worth in virtue of her valuable qualities for example her character or wealth In explaining the origin of pride in terms of efficient causes Hume displaces the traditional appeal to final causes and is positioned to give an account of the significance for us of the passions in terms of a social theory Subsequent chapters reconstruct this social theory looking in particular at how the principle of sympathy functions to transmit cultural meanings and values before examining Hume's account of social power especially with regard to rank and sex Turning to Hume's system of ethics Taylor argues for the importance of Hume's more sophisticated moral philosophy in his *Enquiry concerning the Principles of Morals* since it emphasizes certain virtues of good moral evaluation She demonstrates that the principle of humanity stands as the central concept of Hume's Enlightenment philosophy The Oxford History of Classical Reception in English Literature: The Oxford History of Classical Reception in English Literature David Hopkins, Charles Martindale, Norman Vance, Rita Copeland, Patrick Cheney, Philip R.
