Practising Theory and Reading Literature provides an accessible introduction to the study of contemporary literary theories and their applications to a range of literary texts This is an elementary introduction where the emphasis is on practice and in this respect it complements *A Reader's Guide to Contemporary Literary Theory* **Rehabilitating Literary Theory** Khaled Besbes, 2011 The present work seeks to bring literary theory in line with the most recent practical turn the humanities are witnessing When simplified succinctly presented and skillfully used in multi coded interpretation within a semiocritical framework literary theories become practical exercises in criticism not only facilitating the interpretation of literature but also making it more enjoyable and more rewarding This book is different from its counterparts in the sense that it includes an exceptionally expanded model of the practice of literary theories and replaces long and theoretical discussions with brief synopses of the examined theories It relies on less overused texts for illustration as it compiles and organizes the terms and phrases that are often used by the proponents of the discussed theories The most influential literary theories that have so far been developed in academia are included the New Criticism reader response criticism structuralism deconstruction feminism Marxism psychoanalytic criticism linguistic criticism cultural materialism new historicism postcolonialism and semiotics Through eliminating the excesses made in the name of theory this book will restore the faith of students teachers and practitioners in the useful and enduring nature of literary theory for the analysis and appreciation of literature **An Introduction to Literary Studies** Mario Klarer, 2013-06-19 In this classic beginner's guide to English literature Mario Klarer offers a concise and accessible discussion of central issues in the study of literary texts looking at definitions of key terms such as literature and text the genres of fiction poetry drama and film periods and classifications of literature theoretical approaches to texts the use of secondary resources guidelines for writing research essays The new and expanded edition is fully updated to include a wider range of textual examples from world literature additional references to contemporary cinema a section on comparative literature an extended survey of literary periods and genres recent changes in MLA guidelines information on state of the art citation management software the use and abuse of online resources The book also features suggestions for further reading as well as an extensive glossary of key terms **Teaching American Literature in Spanish Universities** Carme Manuel Cuenca, 2002 Uno de los aspectos m s valiosos de este libro es que

comienza enlazando a través de los dos primeros artículos la educación universitaria con su nivel inmediatamente anterior la escuela de secundaria una conexión que a menudo se olvida con serios resultados para ambos En este sentido Benito Camacho Martín el autor de uno de los artículos realiza un análisis lúcido y en cierto modo dogmático sobre el declive de la enseñanza de literatura en las escuelas de secundaria tanto en horas dedicadas como en conocimientos adquiridos Los otros artículos algunos en inglés y otros en castellano tratan distintos aspectos de la enseñanza de literatura norteamericana con un énfasis manifiesto en materiales del siglo XX y sobre todo en la literatura afroamericana de hecho el libro resultará particularmente útil para los profesores de esto último

Introduction to Literary Studies Mario Klarer, 2004-08-02 In this volume Mario Klarer provides the essential beginner's guide to English literary studies Offering a concise easy to understand discussion of central issues in the study of literary texts looking at definitions of key terms such as literature and text major genres such as fiction poetry drama and film periods and classifications of literature theoretical approaches to texts the use of secondary resources guidelines for writing research essays Klarer has fully updated the highly successful first edition to provide greater guidance for online research and to reflect recent changes to MLA guidelines for referencing and quoting sources He concludes with suggestions for further reading and an extensive glossary of important literary and cinematic terms

Rhetorical Strategies and Genre Conventions in Literary Studies Laura Wilder, 2012-05-31 Laura Wilder fills a gap in the scholarship on writing in the disciplines and writing across the curriculum with this thorough study of the intersections between scholarly literary criticism and undergraduate writing in introductory literature courses Rhetorical Strategies and Genre Conventions in Literary Studies is the first examination of rhetorical practice in the research and teaching of literary study and a detailed assessment of the ethics and efficacy of explicit

instruction in the rhetorical strategies and genre conventions of the discipline Using rhetorical analysis ethnographic observation and individual interviews Wilder demonstrates how rhetorical conventions play a central although largely tacit role in the teaching of literature and the evaluation of student writing Wilder follows a group of literature majors and details their experiences Some students received experimental explicit instruction in the special topoi while others received more traditional implicit instruction Arguing explicit instruction in disciplinary conventions has the potential to help underprepared students Wilder explores how this kind of instruction may be incorporated into literature courses without being overly reductive Taking into consideration student perspectives Wilder makes a bold case for expanding the focus of research in writing in the disciplines and writing across the curriculum in order to grasp the full complexity of disciplinary discourse **The Perceptive Process: a Introductory Guide to Literary Criticism** , Teaching Theory R.
