Aware ,1995 **Storm Kings** Lee Sandlin,2013-03-05 In *Storm Kings* Lee Sandlin retraces America s fascination and unique relationship to tornadoes and the weather From Ben Franklin s early experiments to the great storm debates of the nineteenth century to heartland life in the early twentieth century Sandlin shows how tornado chasing helped foster the birth of meteorology recreating with vivid descriptions some of the most devastating storms in America s history Drawing on memoirs letters eyewitness testimonies and numerous archives Sandlin brings to life the forgotten characters and scientists that changed a nation and how successive generations came to understand and finally coexist with the spiraling menace that could erase lives and whole towns in an instant **Some Rhymes of Ironquill [pseud.] of Kansas** Eugene F. Johnson,2017-01-10 Most of us race through our days at a hectic and frantic pace oblivious to the Godly and divine in our midst We are tuned in to the latest electronic gizmos and out of tune with the holy and sacred that moves in and around us throughout our days Journey with Author Rollie Johnson who has a most unique gift for observing and sensing and recognizing Godly movements and spiritual truths in our ordinary day to day lives His observations and unique insights from the natural world of creation and ordinary encounters will inspire you to new depths of trust and intimacy in your walk with God **Collected Poems** John Gneisenau Neihardt,1926 *Yellowlegs* John Janovy,2016-08-02 In *Yellowlegs* John Janovy again displays his rare talent for making the scientific accessible and the personal universal The result is a an extraordinary parable of man and technology It is also an intensely personal account of one man s journey toward an understanding of himself of his fellow man and perhaps most important of the secrets of a single sandpiper a *Tringa flavipes* or lesser yellowlegs We fly with Janovy s *Yellowlegs* from its nesting grounds in the Canadian north to South America and back And along the way we join a slightly crazed biologist who leaves his university position withdraws his life savings from the bank and decides to follow the bird on its odyssey Starting on the sand flats of Nebraska and progressing across Kansas and down to the Gulf of Mexico with a brief stop in Oklahoma jail our migratory route brings us into contact not only with the wild creatures of the American West but with the people a few of whom are pretty wild themselves with whom Janovy talks drinks and debates Seldom has the life of a wild creature been so intimately and vividly described Seldom have hard science and mysticism been more successfully and lyrically combined There can be little question that *Yellowlegs* will take its place a classic of nature writing at its best *Shooter's Bible, 106th Edition* Graham Moore,2014-10-07 With over seven million
