Kramer,2016-02-24 Playing on the frequently used metaphors of the turn toward or turn back in scholarship on religion The Turn Around Religion in America offers a model of religion that moves in a reciprocal relationship between these two poles In particular this volume dedicates itself to a reading of religion and of religious meaning that cannot be reduced to history or ideology on the one hand or to truth or spirit on the other but is rather the product of the constant play between the historical particulars that manifest beliefs and the beliefs that take shape through them Taking as their point of departure the foundational scholarship of Sacvan Bercovitch the contributors locate the universal in the ongoing and particularized attempts of American authors from the seventeenth century forward to get it whatever that it might be right Examining authors as diverse as Pietro di Donato Herman Melville Miguel Algarin Edward Taylor Mark Twain Robert Keayne Nathaniel Hawthorne Paule Marshall Stephen Crane Ralph Waldo Emerson and Joseph B Soloveitchik among many others and a host of genres from novels and poetry to sermons philosophy history journalism photography theater and cinema the essays call for a discussion of religion s powers that does not seek to explain them as much as put them into conversation with each other Central to this project is Bercovitch s emphasis on the rhetoric ritual typology and symbology of religion and his recognition that with each aesthetic

enactment of religion's power we learn something new *Finding Voice* Nancy Dean, 2016-05-02 *Finding Voice* is a foundational book for elementary students and teachers that addresses close reading of complex text through understanding and practicing the elements of voice. The book is a collection of classroom lessons that cover the tools authors use to shape voice and meaning: diction, detail, imagery, figurative language, and tone. Every voice lesson includes a quotation selected from a wide range of engaging fiction and nonfiction text, two discussion questions, an exercise that encourages students to practice what they have learned, and discussion suggestions so that possible answers are at the teacher's fingertips. The lessons will help students understand the elements of voice in what they read and encourage them to try out the elements of voice in their own writing. The *Finding Voice* lessons are specifically designed for students in grades 3-6. These lessons provide focused examination and practice for a specific element of voice and take only 10-15 minutes of class time. The lessons of *Finding Voice: Introductory Lessons to Teach Reading and Writing of Complex Text* fit well with any literacy and language arts curriculum. As students work with each element of voice, they will improve their ability to critically analyze text. Students will also learn to apply the elements of voice to their own writing, creating a clear voice of their own. *Giving and Receiving Hospitality [Worship, Music, and Arts]* Art Clyde, 2010-10-16 The New Testament word for stranger is also translated as host and guest. Hospitality is never a one-way street but a circle or roundabout that gives and receives. The one who invites and the one invited are each in turn host and guest. While sharing back and forth, we uncover connections, empathy, and surprising growth. This book focuses on worship planners who want to explore worship that is more hospitable as well as worship that includes the musical and visual arts. Practicing our faith is a lifelong process. When completed, this series will offer 24 practices in 10 different life settings. These seek a deeper, stronger relationship with God through Jesus Christ and the Holy Spirit and with one another. This series can be used at any time or stage in your life.

Best Practice in Motivation and Management in the Classroom Dennis G. Wiseman, Gilbert Hunt, 2008 This text offers practical information and vicarious practice for both beginning as well as veteran teachers to become more knowledgeable, skilled, and effective in their work. Through study, application of what has been studied, and the analysis and evaluation of the end result of this application, teachers who care to improve can improve. And teachers who are already successful in their teaching can be even more successful. Effective teachers are active learners themselves. This text therefore provides a specific context and focus for this active learning in the areas of student motivation and classroom management, which are considered critical for best practice in teaching in classrooms today. The book reviews appropriate strategies when responding to specific types of student misbehavior and also discusses zero-tolerance policies, expulsion, teaching special students, addressing diversity, violence, school uniforms, and drug abuse as related to management and motivation. It is highlighted with supporting case study examples, question and activity sections by chapter, and a helpful glossary. Also provided is an overview of ten popular models for classroom management with the theorists associated with their

development By reading this book teachers will get their students to achieve at high levels in demonstrating what they have learned through the application of the most important intertwined areas of motivation and classroom management **The**
