Praxis and Method (RLE: Gramsci) Richard Kilminster, 2014-04-24 This sociological critique of the philosophy of praxis looks at the importance of the concept in the social theory of leading influential Western Marxists such as Lukacs Gramsci Korsch Horkheimer Marcuse and Adorno in the inter war period It offers a detailed critique of Marx and Hegel and explores the validity and implications for sociology of two of Marx's ideas which the later theorists made the centre piece of their social theory first that true theory is authenticated by praxis and second its corollary that certain major social transformations should and would in practice render sociology redundant

Karl Marx and the Philosophy of Praxis Gavin Kitching, 2015-04-17 In this major study first published in 1988 Professor Kitching builds on recent scholarship on Marx and Wittgenstein to provide an incisive readable account

and critique of the whole of Marx's work. He presents the philosophical, economic and political Marx as one thinker and argues that the key to understanding Marx is his commitment to a philosophy of praxis. This sees thought as just part of that purposive activity or praxis which distinguishes human beings from other creatures. This is the first book to analyse all of Marx's thought from a Wittgenstein perspective; in doing so it clarifies and deepens our understanding of Marx. **Marxism and Totality** Martin Jay, 1984. Totality has been an abiding concern from the first generation of Western Marxists, most notably Lukács, Korsch, Gramsci and Bloch, through the second exemplified by the Frankfurt School, Lefebvre, Goldmann, Sartre, Merleau-Ponty and Della Volpe up to the most recent typified by Althusser, Colletti and Habermas. Yet no consensus has been reached concerning the term's multiple meanings: expressive, decentered, longitudinal, latitudinal, normative or its implications for other theoretical and practical matters. By closely following the adventures of this troublesome but central concept, Marxism Totality offers an unconventional account of the history of Western Marxism. Gramsci's Democratic Theory Sue Golding, Susan R. Golding, 1992-01-01. An in-depth study of Antonio Gramsci's prison notebooks, Quaderni del carcere, and his specific contributions to radical democratic theory. The book encompasses English, Italian and French debates on the subject as well as political and philosophical discussions concerning the limitations of liberal and socialist democratic theory.

This collection of different and often contradictory views makes a detailed analysis of the epistemology and practice of adult education. Three major views are reflected within the book, all of which focus upon the role of the conventional disciplines as a theoretical basis for adult education curricula and professional practice. **Learning Opportunities for Adults** Trevor Corner, 2012-10-12. Argues for the financial backing from governments and industry for adult education and will help adult and community educators draw comparisons between their own work and that of their colleagues in other developed countries.

Critical Theory and Economics Robin Maialeh, 2023-03-23. This book expands upon a range of economic insights within the overall context of critical theory, particularly with respect to the question of socioeconomic inequalities and presents an explanation of how critical theory provides a number of interesting perspectives for economists. Economic agents deliberately imprisoned in their instrumental rationality as a means to survive under competitive relationships are microscopic constituents of systemic forces which exist beyond their will. Despite the subjective rationality of such agents in terms of formally logical transitivity and consistency, aggregate market distributional mechanisms also display non-rational patterns. The crucial aspect of the dynamics of this system consists of the paralysing effect of the high level of socioeconomic inequality which is driven by a permanent struggle for self-preservation under competitive rules; it is a reminiscence of natural uncivilised relationships that constituted the reproduction process of the whole. These reified agents thus become instruments of their socially constructed powers on the

one hand and objects of their existential conditionality on the other Hence the dialectical approach adopted by the author aims to uncover the way in which structurally genetic market forces govern individual behaviour as well as how individual behaviour shapes these structurally genetic forces which together form the transcending principles of unequal distribution This book will be of particular interest to scholars of the political economy philosophy and the methodology of the social sciences especially those concerned with inequality issues This book includes a preface written by Professor Martin Jay

A Tale of Two Theologians Ambrose Mong, 2017-03-31 In *A Tale of Two Theologians* Ambrose Mong's observant new work he examines the writings of the Peruvian theologian Gustavo Gutierrez and the Indian theologian Michael Amaladoss and gives fresh attention to their main concerns regarding evangelisation and the poor Why he asks is Gutierrez's liberation theology now accepted and celebrated by the Roman Catholic Church while Amaladoss's Asian theology with a liberation thrust is threatened with censorship Mong argues that the dwindling threat of Communism has made the Marxist overtones of Latin American liberation theology more palatable to the Catholic hierarchy while the challenge of religious pluralism in Asia is as complex and emotive as ever How can the Church learn to balance the need for dialogue between religions with their duty to proclaim the Gospel How can the Church inculturate itself in Asia while maintaining its identity Ambrose Mong tackles these questions with the shrewd clear-eyed view of an active priest and scholar exploring the long troubled relationship the Church has with liberation theology and offering guidance for the future
