James Tobin, 2014-07-02 From the 1920s to the 1950s neoclassicism was one of the dominant movements in American music Today this music is largely in eclipse mostly absent in performance and even from accounts of music history in spite of and initially because of its adherence to an expanded tonality No previous book has focused on the nature and scope of this musical tradition *Neoclassical Music in America* *Voices of Clarity and Restraint* makes clear what neoclassicism was how it emerged in America and what happened to it Music reviewer and scholar R. James Tobin argues that efforts to define musical neoclassicism as a style largely fail because of the stylistic diversity of the music that fall within its scope However neoclassicists as different from one another as the influential Igor Stravinsky and Paul Hindemith did have a classical aesthetic in common the basic characteristics of which extend to other neoclassicists This study focuses in particular on a group of interrelated neoclassical American composers who came to full maturity in the 1940s These included Harvard professor Walter Piston who had studied in France in the 1920s Harold Shapero the most traditional of the group Irving Fine and Arthur Berger his colleagues at Brandeis Lukas Foss later an experimentalist composer whose origins lay in neoclassicism of the 1940s Alexei Haieff and Ingolf Dahl both close associates of Stravinsky and others Tobin surveys the careers of these figures drawing especially on early reviews of performances before offering his own critical assessment of

individual works Adventurous collectors of recordings performing musicians concert and broadcasting programmers as well as music and cultural historians and those interested in musical aesthetics will find much of interest here Dates of composition approximate duration of individual works and discographies add to the work s reference value *Mystic Journeys* Hopeton Gray,2013-01-17 Have you ever had that chance to mingle with your culture and actually see the nuances that you might have overlooked It is an experience to do so The book is about culture and its influences There are six short stories from Jamaica Madagascar to the UK and a play about a grocery shop in a rural village in Jamaica It is a fun book for all to enjoy in the end you can tell me what you think This is my gift to you my readers **A Composer's Insight: Leslie Bassett** Timothy Salzman,2003 This is a five volume series on major contemporary composers and their works for wind band Included in this initial volume are rare behind the notes perspectives acquired from personal interviews with each composer An excellent resource for conductors composers or enthusiasts interested in acquiring a richer musical understanding of the composers training compositional approach musical influences and interpretative ideas Features the music of Timothy Broege Michael Colgrass Michael Daugherty David Gillingham John Harbison Karel Husa Alfred Reed and others **Tales from the Music Therapy Room** Claire Molyneux,2018-07-19 Only Connect moves beyond progress reports clinical assessments and a practical goals to bring to life the reflective and artistic aspects of music therapy Containing a variety of short stories poetry and personal reflections from both therapists and clients it illustrates the colourful and diverse world of music therapy *Australia's Music: Themes of a New Society (2nd ed.)* Roger Covell,2016-12-01 Described on its first publication in 1967 as a scholarly account of Australian music that is also entertaining social history Roger Covell s Australia s Music Themes of a New Society has become a classic of Australian music history for its beautifully written explorations of almost two hundred years of music making across classical Indigenous and Anglo Celtic traditions This revised edition including more than sixty musical examples is supplemented by a new postscript written by the author **Musical Scores and the Eternal Present** Chiara Bertoglio,2021-08-31 Music is played and heard in time yet it is also embodied in space by musical scores The observation of a musical score turns time into space and allows musicians to embrace the flow of time in a single glance This experience constitutes a symbol for the Eternal Present the simultaneous knowledge of all time outside time This book analyzes the implications of this view through a variety of interdisciplinary perspectives linking theology philosophy literature and music It also studies how this theme has been foreshadowed in the writings of Dante and J R R Tolkien demonstrating the connections between their masterpieces and the aesthetics of their times The result is a fascinating itinerary through the history of culture thought and music but also a deeply theological and spiritual experience **Bach's Keyboard Music** Victor Lederer,2010-03 Overzicht van Bach s werken geschreven voor piano orgel en klavecimbel met audio cd **Textual Entanglements** Jacob Haubenreich,2025-05-15 Textual Entanglements explores how the material processes of writing manifest in the published works of three twentieth century Austrian authors Peter Handke

Thomas Bernhard and Rainer Maria Rilke These authors left behind material traces of their writing processes whether in notebooks piles of disorganized typewritten sheets or manuscript fragments The materials do not merely act as containers for their texts They spill into the semantic content of the writing becoming entangled in it The idiosyncratic materials and methods of the writing process do not disappear when the work enters print Examining these material traces Textual Entanglements contends that we cannot fully understand these texts semantic dynamics without considering the material circumstances of their production Jacob Haubenreich reads Handke Bernhard and Rilke to argue that the materiality of textual production opens up a broader semiotic field in which meaning can be created Haubenreich s book offers a theoretical framework and methodological models for integrating analysis of textual materiality into literary analysis in ways that expand the boundaries of literary interpretation

interpretation have at least two things in common They all begin when sense is made in the act of reading that is where illustrative images and explanatory words begin to form And they all ask to be understood in relation to the works from which they have arisen reading them is a matter of reading readings Likenesses explores this palimpsestic realm with examples from Dante to the contemporary sculptor Rachel Whiteread The complexities that emerge are different from Empsonian ambiguity or de Man s unknowable infinity of signification here meaning dawns and fades as the hologrammic text is filled out and flattened by successive encounters Since all literature and art is palimpsestic to some degree Reynolds proposes this style of interpretation can become a tactic for criticism in general Critics need both to indulge and to distrust the metamorphic power of their interpreting imaginations Likenesses follows on from the argument of Reynolds s The Poetry of Translation 2011 extending it through other translations and beyond them into a wide range of layered texts Browning emerges as a key figure because his poems laminate languages places times and modes of utterance with such compelling energy There are also substantial innovative accounts of Dryden Stubbs Goya Turner Tennyson Ungaretti and many more
