**A Seamless Web** Cheryll May, 2014-03-17 In recent years American art scholars have increasingly focused on the importance of cross cultural exchanges during the nineteenth century As essayist Francois Brunet puts it mid nineteenth century landscapes were transnational permeated by complex transactions where American originality produced itself not only in imitation of or reaction against European influences but as critical mirroring and incorporating of European images Articles in this collection make clear that the conversation of cultures went both ways with American artworks and culture also affecting European artistic and literary practice Essays explore the transnational origin of many types of American artworks from stained glass windows which usually copied their European originals with great exactitude to paintings and sculptures using distinctly American motifs such as the Puritan and the cowboy to distinguish American art students from their Parisian masters It also examines American cultural icons particularly the American Indian appropriated by European writers artists and philosophers to embody primeval wisdom A distinguished international group of scholars including Brunet Robert Rydell and Peter Gibian offer valuable perspectives on the ever broadening field of transnational cultural studies

**Law, Liberty, and Morality** H. L. A. Hart,Herbert Lionel Adolphus Hart,1963 This incisive book deals with the use of the criminal law to enforce morality in particular sexual morality a subject of particular interest and importance since the publication of the Wolfenden Report in 1957 Professor Hart first considers John Stuart Mill s famous declaration The only purpose for which power can be rightfully exercised over any member of a civilized community is to prevent harm to others During the last hundred years this doctrine has twice been sharply challenged by two great lawyers Sir James Fitzjames Stephen the great Victorian judge and historian of the common law and Lord Devlin who both argue that the use of the criminal law to enforce morality is justified The author examines their arguments in some detail and sets out to demonstrate that they fail to recognize distinction of vital importance for legal and political theory and that they espouse a conception of the function of legal punishment that few would now share

*Research and Advanced Technology for Digital Libraries* Mounia Lalmas,Joemon Jose,Andreas Rauber,Roberto Sebastiani,Ingo Frommholz,2010-09-02 In the 14 years since its rst edition back in 1997 the European Conference on

Research and Advanced Technology for Digital Libraries ECDL has become the reference meeting for an interdisciplinary community of researchers and practitioners whose professional activities revolve around the theme of digital libraries. This volume contains the proceedings of ECDL 2010, the 14th conference in this series, which followed Pisa 1997, Heraklion 1998, Paris 1999, Lisbon 2000, Darmstadt 2001, Rome 2002, Trondheim 2003, Bath 2004, Vienna 2005, Alicante 2006, Budapest 2007, Aarhus 2008, and Corfu 2009. It was held in Glasgow, UK, during September 6-10, 2010. This was also the last at least with this name, since starting with 2011 ECDL will be renamed so as to avoid acronym conflicts with the European Computer Driving Licence to TPLD, standing for the Conference on Theory and Practice of Digital Libraries. We hope you all will join us for TPD 2011 in Berlin. For ECDL 2010, separate calls for papers, posters, and demos were issued, resulting in the submission to the conference of 102 full papers, 40 posters, and 13 demos. This year, for the full papers, ECDL experimented with a novel two-tier reviewing model with the aim of further improving the quality of the reviewing program. A first-tier Program Committee of 87 members was formed, and a further Senior Program Committee composed of 15 senior members of the DL community was set up.
