## What does peace mean?

Peace is a word that holds many different meanings. It is a word that can be used in a lot of different ways. The definition of peace is freedom from disturbance, a time of tranquillity when you are not disturbed by anyone or anything. There are also the definitions a state or period in which there is no war, or a state free of war.

## The United Nations

In 1945, representatives from 51 countries around the world met in San Francisco in the United States of America (USA) after the Second World War had ended. The world was left in a mess. There was no longer trust between neighbouring countries and there was no longer any peace. The representatives from each of the 51 countries decided that they must do something to establish peace and so a very important document was signed. The document was made up of four very important agreements. The agreements were:

- To establish international peace and security
- To develop friendly relations among nations based on respect for equal rights
- To achieve international co-operation in solving international problems
- To be a centre for harmonising the action of nations in the promotion of these goals

## Peace

## to celebrate the day of Peace?

One symbol of giving a peaceful day, or creating a world in which there is no war, is the word 'peace'.

Do you think you should  
do it in your school?

## The Responsibility

Creating peace is not something that is easy. It is one of the things that we can help to spread peace around the world. Creating peace may look different to some and we do these in many different ways. Some of these are:

- to talk
- find common causes of peace with those who are different to us
- learn to respect differences. There will always be a right answer but working together for the common good helps to spread freedom and peace.
