for your existence and why you are here The reason for having a belief system any belief system is to help you navigate and negotiate your way effectively through life Life is simpler provided you have the correct belief system The correlation between having the correct belief system and with happiness and success in life is simple People with a valid belief system one that is in synch with reality make better decisions Without the correct assessment of reality the world will not make sense and you will make poor survival decisions The process of education and maturing is or at least should be about developing an increasingly truthful effective and correct belief system Sadly not all belief systems are created equal Some belief systems are empowering while some belief systems are limiting Some are so utterly out of synch and out of touch with reality that they lead to utter disappointment and failure So how do you determine which kind of belief system you have
