Web Search Amanda Spink, Michael Zimmer, 2008-09-16 The inspiration for this book emerged from the editors participation in a panel discussion on Web search engines at an annual meeting of the Association of Internet Researchers This multidisciplinary panel of Web search researchers revealed the diversity of scholars interested in Web searching coupled with a broad range of questions attitudes and approaches It became clear that more cross fertilization was necessary between the disciplines to ensure Web search engines the entities and Web searching the user behavior received the thorough scholarly attention they deserved This book is a result of that realization and an important first step in achieving new levels of awareness and collaboration across disciplines The book represents a core theme within the intellectual pursuits of the editors The first editor Spink is an information scientist who has worked with taught and has researched the informational dimensions of Web searching since 1997 The second editor Zimmer is a scholar of culture and communication who focuses on the political and ethical dimensions of new media and information technologies and whose dissertation research focused on the value related consequences of the quest for the perfect search engine

Web Search: Public Searching of the Web Amanda Spink, Bernard J. Jansen, 2006-02-21 This book brings together results from the Web search studies we conducted from 1997 through 2004 The aim of our studies has been twofold to examine how the public at large searches the Web and to highlight trends in public Web searching The eight year period from 1997 to 2004 saw the beginnings and maturity of public Web searching Commercial Web search engines have come and gone or endured through the fall of the dot com companies We saw the rise and in some cases the demise of several high profile publicly available Web search engines The study of the Web search is an exciting and important area of interdisciplinary research Our book provides a valuable insight into the growth and development of human interaction with Web search engines In this book our focus is on the human aspect of the interaction between user and Web search engine We do not investigate the Web search engines

themselves or their constantly changing interfaces algorithms and features We focus on exploring the cognitive and user aspects of public Web searching in the aggregate We use a variety of quantitative and qualitative methods within the overall methodology known as transaction log analysis

Web Portals Arthur Tatnall,2005-01-01 A Web Portal is a special web site designed to act as a gateway giving convenient access to other related sites This book investigates the various types of portals and describes how they can be used in business applications After considering the nature of portals the book describes the first general portals like Yahoo and how they came into being Portals are used in businesses of all types and sizes and this book discusses how portals can be used in large business corporations as well as small to medium enterprises Web portals have increasing importance to marketers as by their nature they retain their users who must return to them frequently They also provide a useful means of making information and knowledge readily available in a convenient form to authorised users This book covers a wide range of issues relating to the use of portals in business

Online Health Surfing Spencer D. Kroll,2000-10 The Internet has dramatically changed healthcare delivery by empowering the health care consumer to an unprecedented level We are in a new era in which we can take responsibility for and control of our wellness and illnesses Online Health Surfing will provide you with comprehensive information regarding the options available for researching Internet based health information The sheer volume of information there are now over 18 000 individual web sites offering health care information is too overwhelming for the average individual to research And most physicians are not computer savvy and are also overwhelmed with the speed and volume of information that is disseminated on the Internet After reading this book you will feel comfortable turning to the web during an illness for health information You will be able to integrate practical advice from experts regarding medical treatments into your health care and feel empowered to do so by referencing information from quality sources when you discuss your health with your physician
